ceived a shot in one of his thighs. Another policeman was shot in the back, wounded but slightly. Both the horses in the van were shot. The driver was knocked off his box with a stone. Three men were escorted to the Town-hall by the Dragoons who are identified as having taken part in the rescue. The Secretary of State has authorized a reward of £300 for Keily and Deasey, and the Manchester Corporation offer £200 for the men concerned in the rescue. Allen is said to have acted as captain of the rescuing party, and had been waiting with a number of followers for hours before the van arrived. He shot at the driver and policemen on the box, and at the horses, shooting one through the neck. He also fired at Brett, who was inside the van, and tumbled out when the door was forced.

FALL SHIPS.—Three of the English Fall Ships had arrived up to Saturday night, viz., the *Lotus*, *Undine* and *Abeona*. We understand the *L. C. Owen* left four days after the latter, and may be expected here in the course of this week. Our storekeepers will now have a tempting array of goods to exhibit; and if our readers want to know where the best bargains can be had we advise them to examine our advertising columns.

THE Steamship *Princess of Wales* did not arrive on Saturday night, owing to the stormy weather; but came in yesterday about one o'clock. Our Colonial dates are to the 10th, and furnish no later telegraphic news than that which we had received by a previous mail. Other intelligence in the papers is quite unimportant.

☞ We have been informed that there are some few mistakes in the list of prizes awarded at the Industrial Exhibition, and which list we have copied from the *Islander*. We have not been able to get a corrected list up to the time of going to press, and, therefore, we must postpone the correction of the errors until our next No.

☞ Our columns are so crowded with British and general news, brought by the English, mail, and with the very lengthy account of the Exhibition, that we are obliged to postpone some editorial remarks on local subjects.

A statement was made by the Hon. Mr. MacDougall at a concert in Ottawa, that Newfoundland would probably soon enter the Confederation, and that resolutions would be passed at Ottawa, and sanctioned by the Imperial Government, admitting the Hudson's Bay Territory.

FROM NEWFOUNDLAND.

The papers received at Halifax by the R. M. S. *Delta* from St. John's, Nfld., contains very little news of interest or importance. We notice that the subject of Confederation still engages the attention of the leading men of the Colony, and the newspapers are speculating over the probable result of the question. This year's fishery, though not so large as was anticipated, is nevertheless very gratifying from the excellent quality of fish caught. In the vicinity of Fogo recently 70 codfish were caught, which filled an ordinary sized punt, and were estimated at 4 quintals of dried fish. Two of them when split, weighed 116 lbs. Accounts have been received from the vessels engaged in the whale fishery. The steamer *Wolf* is reported from Cumberland, starts with four whales. It was thought the vessels engaged would make good returns. Two men were drowned by the upsetting of a fishing boat at Aquatorte on Tuesday week. The distillery of Mr. Pickard and dwelling house of Mr. Thorburn in St. John's, were totally destroyed by fire on Thursday last.

LATEST NEWS BY TELEGRAPH.

LONDON, Oct. 4, (midnight.)—The following despatch from Italy has just been received here:—"*Florence, Oct. 3rd, (even.)*—The rebels hold many posts in the Province of Viterbo, and await the attack of the Pontifical troops."....The Emperor Alexander of Russia has demanded of the Sublime Porte the cession of the Island of Candia to Greece.

LONDON, Oct. 4th, (afternoon.)—A report has reached here to-day, the authenticity of which is not fully established, that King Victor Emmanuel has made an appeal to the great powers of Europe against the September treaty which binds the Italian Government to prevent any infraction of the temporal Dominion of the Pope.

PARIS, 4th Oct. p. m.—Advices from Rome of to-day's date represent that the city is quiet.

BERLIN, Oct. 4th.—*Leirdelor's Correspondence*, a semi-official journal published at the Capital, in its issue of to-day makes the assertion that the recent meeting of the Emperors Napoleon and Francis Joseph at Salzburg, an understanding was come at as to the person whom they will support for successor to Pope Pius the Ninth.

LONDON, Oct. 4th, (afternoon.)—Extensive operations in Grain have recently been made by the Government, and French mercantile houses have reduced the specie in the Bank of France to the amount of one million pounds sterling.

LONDON, Oct. 4th, midnight.—A message from Florence announces that the insurgents, in a secure position near Bagnar and Viterbo, were attacked by the Papal forces. The fight resulted in the defeat of the attacking party, who withdrew hastily. The loss is unknown. The effects of this victory were very inspiring to the party of action. A public meeting of the friends of Garibaldi was held at Turin yesterday. Revolutionary speeches were made by many distinguished persons. Great crowds of persons were present, and the enthusiasm was unbounded. Meetings of a like character are in contemplation in various parts of Italy..... Garibaldi has issued a stirring address to his followers, which is published to-day all over Europe. He recites at length the grievances of Italy, and asks his countrymen to redress them. He appeals strongly to their patriotism, and urges all friends to march forthwith to Rome.

LONDON, Oct. 4.—While in prison at Alessandria Garibaldi presistently refused to give his parole not to engage in any hostile enterprise against the Papal States. Meanwhile the Italian Government, hoping to allay the popular excitement caused by his arrest, gave orders for the transfer of the prisoner to his home at Caprera, without insisting on his parole. The General was accordingly taken to that Island, where he was apparently set at liberty. Soon after his arrival he suddenly disappeared from the Island, and succeeded in reaching the main-land,—but his movements had been carefully watched. He was again arrested and sent back to Caprera, where he now remains under guard, a prisoner in his own house.....It is said that Sir Augustus B. Paget, the present British Minister at Florence, will be appointed Minister to the United States, to fill the vacancy caused by the death of Sir Frederick Bruce.

LONDON Oct. 4, noon.—Consols 94⅞; 5-20's 71¾; markets unchanged.

VIENNA, Oct. 4.—The Roman Catholic Bishops of the Austrian Empire have met in congress, and declare their opposition to any chance in the concord as now established between Rome and Austria.

LONDON, Oct. 4.—It is reported that a policeman has been shot and killed in Rochedale by some Fenians. A policeman was attacked and nearly killed in this city by a gang of Irishmen last night. These events, in connection with the recent occurrences in Manchester and Ireland, have given rise to rumors of a new and wide-spread Fenian conspiracy.

LONDON, 7th (eve.)—A despatch from Aden at the mouth of the Red Sea announced that the pioneer steamer expedition for the release of British captives had called at that place. Achille Fould, an eminent statesman and financier, died last night, aged 67. Late despatches from China report that a violent and destructive Typhoon visited the harbor of Hong Kong, causing great injury to shipping. Several vessels were driven ashore and became total wrecks; others were badly damaged and disabled, and the destruction among small crafts were very great. The shores are strewn for miles with fragments.

LONDON, Oct. 8.—The commission for the statue of George Peabody to be erected in this city, has been given to M. W. Storer, the American sculptor. The rumors constantly arising in regard to the designs of Fenians, cause much anxiety in England and Ireland. All the prisons are double guarded by armed police to prevent any attempt to rescue. The rumors in circulation lead the authorities to apprehend disorder. At Berwick proper precautionary measures are being taken.

BIARRITZ, Oct. 8.—Mustier, Minister of Foreign Affairs, and Chevalier Deniged, the Italian Ambassador, arrived here just before the troubles broke out in Italy, and have since been in constant consultation with the Emperor. It is stated that the following plan for the settlement of the Roman question has been agreed upon: Italy to take possession of the Roman Provinces, but Pius the Ninth is to remain in Rome and retain the government of the city of Rome until his death, when the temporal power of the Pope will cease.

NEWMARKET, Oct. 8, eve.—The second October race meeting commenced here to-day. The two leading races were for the Searewitch and Royal stakes. The former was won by *Julius*, and the latter by *Palmer*. The weather was fair and the attendance very good.

FLORENCE, Oct. 8, (even.)—Garibaldi has issued an address denouncing Ratazzi, and urging his followers to carry on the war for the possession of Rome.

VIENNA, Oct. 8.—The Emperor has concluded to make no change in existing Concordate negotiations with Rome.

FLORENCE, Oct. 8.—The officers of the Papal forces engaged at Bagnar claim that they gained a victory in that battle. They claim that 70 of the enemy were wounded and 109 made prisoners.

LATER.—The volunteers of Garibaldi were marching upon Rome from every direction. The Florence press urges the Government to intercept them and surround the city with National troops. A report has gained currency that the American Minister, Hon. P. March, had demanded the release of Garibaldi on the ground that he was a citizen of the United States. This is denied; but it is true Mr. March has asked the Government to show clemency to the distinguished prisoner.

LONDON, Oct. 9.—Despatches from the East report that a sanguinary conflict had taken place on the Turkish frontier between the Montenegrians and the Turks.

LONDON, Oct. 9.—The manifestations of ill-feeling on the part of the Irish in the north of England has created much alarm. The inhabitants believe that the Fenians are concerting for an outbreak in that part of the country. Troops have been despatched by railroad to assist the civil authorities should a disturbance occur.

MUNICH, Oct. 9.—At the sitting of the Bavarian Diet yesterday, Prince Hohenoke, Chief Minister of the Cabinet, discussed the question of German unity, and indicated the position of the Bavarian Government in relation to other States of Germany. He declared that the true policy of Bavaria was to seek a union of the North German States under the presidency of the King of Prussia; and at the same time to take steps for the establishment of a firm and enduring alliance with the Emperor of Austria. Should this policy be carried into effect, the whole fatherland would be completed—the balance of power between Austria and Prussia preserved—and the peace of Europe additionally guaranteed. No markets received. Gold 143¾.

ABOMINABLE RASCALITY.—A case of arson recently occurred in Blissville, Sunbury County, which, for cool villany, has never been equalled in this country. A man named Judson had by some means or other incurred the resentment of some of his neighbors, who, taking advantage of his absence from home, came to his house, and after turning his wife and children out of doors, set fire to the building, which was in a short time consumed. They then proceeded to the barn, which they destroyed in a similar manner; and not satisfied with this, they began to pull down and burn up his fences, and to uproot his orchard.—Warrants have been issued for the apprehension of the guilty parties.—*Fred Farmer.*

TO THE EDITOR OF THE EXAMINER.

Sir.—On Saturday morning, 5th instant, I was informed that a barrel of mackerel belonging to me, which was lost in the great gale of the 30th September, at New London Harbour, (together with a great deal of other valuable property,) had fallen into the hands of Mr. Jeremiah Simpson, or *Honorable* Jeremiah, as he is sometimes styled—I called upon that gentleman and asked him if it was the case. He was very reluctant about giving me information, stating, in his own polite way, that I was one of those "Yankee rogues whom it was hard to trust." I told him that unless the barrel bore my private mark, I should not claim it. After considerable hesitation he showed me into his storehouse, where he said the mackerel was stored that had been picked up, not by himself but by his boys. On the barrel being pointed out to me, I found that it had been opened, and a considerable portion of the fish used. I soon found my private mark, and showed it to him, when he stated that I might have the fish *if I paid the salvage for it.* So mean and shabby a transaction on the part of one who calls himself a gentleman disgusted me, and I left him, with the fish to fatten him and give consolation in my misfortunes. It is a small affair, and I regret that I have to show it up, but it is only a very small minded man like Mr. Simpson who would be guilty of the meanness of taking advantage of my loss by the storm.

Yours respectfully,
E. MARSHALL.

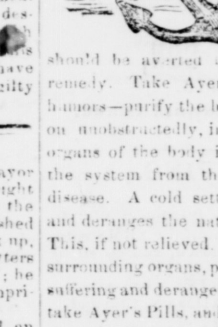
Ayer's Pills.



Are you sick, feeble and complaining? Are you out of order—your system deranged and your feelings uncomfortable? These symptoms are often the precursors of serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and drive out the humors—purify the blood, and let the fluids move on unobstructedly, in health. They stimulate the organs of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges the natural operations of that part. This, if not relieved, will react upon itself and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous diseases. The same purgative expels them. Caused by similar obstructions and derangements, they are surely, and many of them rapidly, cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are sugar coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure,

For the speedy and certain cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by DR J. C. AYER & Co., Lowel Mass., and sold by all Druggists and dealers in medicine everywhere.

AN EFFECTUAL WORM MEDICINE

Brown's Vermifuge Comfits,

OR WORM LOZENGES. Much sickness undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

Children having worms require immediate attention, as neglect of the trouble often causes prolonged sickness.

Symptoms of worms in children are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making BROWN'S "VERMIFUGE COMFITS" is such as to give the best possible effect with safety.

CURTIS & BROWN, Proprietors, New York. Sold by all Dealers in Medicines, at 25 cents a box.

A WORD TO THE WISE.

THE undersigned wishes to notify all those who are indebted to him by Bond, Note, Book Account, Rent or Purchase of Land, that unless their respective obligations, which are over due, as also those which may hereafter become due, are not paid on their coming to maturity—and which have been so often renewed—are not paid, coercive measures will be resorted to for the recovery of the same, without distinction of persons, as he particularly wishes all outstanding debts to be brought to a close.

Hoping that this will be sufficient notice for them to keep out of the Lawyer's hands, from whom they may expect no mercy, as they must do their duty.
