

Provincial Parks are expected to be green preserves for public relaxation and outdoor recreation. This season, however, the verdant nature of parks is being emphasized in a new dimension as we adopt the 1990 provincial tourism theme -- "We're Akin to Ireland."

Park programs presented for visitors will support the celebration of our Irish heritage and you don't have to be Irish to enjoy them. Both eastern and western region parks will present special theatrical events highlighting Irish heritage including music and song, costumes, dialogue, legends, games and characters. Events will be presented on a weekly basis at most parks beginning June 30, and there is no charge so either call your favorite park for their schedule or call Mill River or Brudenell River for regional programs. We offer you a fun evening and guarantee that once the music begins, you won't be able to keep your feet still.
