

A PROMINENT SCHOOL TEACHER'S EXPERIENCE.

Paine's Celery Compound Does a Marvellous work for Him.

His Long Years of Suffering are Ended.

Neuralgia is Banished, and a shattered Nervous System Made Strong and Vigorous.

All who have made use of Paine's Celery Compound have experienced its wondrous strengthening effects upon the nervous system. This disease curing medicine acts directly and promptly on the blood, taking away every trace of poison from the clogged and vitiated life-stream. Thus when the blood is pure and flowing freely and the nerves braced and in good condition, neuralgia and all kindred diseases take their flight never to return. This is the month to banish nervousness, headache, insomnia, kidney and liver troubles. This is the time when the neuralgic and rheumatic should get rid of their misery and pains, so that they may fit themselves for work and enjoyment during the summer season. Paine's

Celery Compound is the only medicine that can effectually rid the system of all unhealthy conditions; it is beyond all question the surest and best medicine that ailing people can use. Mr. Leverett A. Belyea, Hamstead, N. B., writes as follows: WELLS & RICHARDSON CO. GENTLEMEN—In the winter of 1884 I was taken with a severe attack of neuralgia in the head and shoulders. Since then it became seated, and I gave up the idea of ever being cured. Have taken medicine prescribed by different physicians, but all to no avail. Some three months ago I was induced to try a bottle of Paine's Celery Compound. Before I had taken half of it I began to feel

better. Sleep, which in my early days appeared so refreshing, has in these years of affliction been made up of frightful dreams but not so now, as the medicine began to have a telling effect on my nerves. I have taken three bottles of this glorious medicine, and today I can say that I have felt none of those piercing pains to which I had once been a victim. Let me say to any person who may read this testimonial in this province or elsewhere, that if you discredited it, this statement, just write me and I will only be too glad to inform you of what has cured me of neuralgia and a shattered nervous system. Yours respectfully, LEVERETT A. BELYEA, HAMSTEAD, N. B.

PROVINCIAL LEGISLATURE.

(Continued from 7th page.)

The Speaker then took the chair and the bill was reported agreed to with amendments. The report of the committee was adopted and the third reading of the measure was set down for Thursday.

On motion of Hon. Mr. Macdonald the bill incorporating the Farmers Institute of Cherry Valley was read a third time and passed.

On motion of Mr. Bell the bill incorporating the Freetown Foresters Hall Company was read a third time and passed. House adjourned until Thursday at 10 o'clock.

THURSDAY, May 5.

House met at 5.15.

Mr. McKinnon asked the Commissioner of Public Works to table a copy of the agreement made between the Government and the steamer Alameda. Also a statement of the amount of subsidy agreed to be paid, the amount withheld and the reason for withholding the same.

Hon. Mr. Warburton thought he would be able to give the information asked for in a few days. He added that the amount of the subsidy had all been paid except \$100, which was in dispute.

Mr. A. J. Macdonald asked the Commissioner of Public Works to table a statement, showing in detail the amounts paid for inspection on public contracts in the financial year ending December 31st, 1897, and up to date specifying the several contracts on which inspection was paid, the amount agreed to be paid on each contract and the total amount paid for each contract separately and the persons to whom the several amounts were paid.

Hon. Mr. McLean said the information would be brought down as soon as it could be made ready.

Hon. Mr. Warburton introduced a bill respecting the reclamation of marsh lands, which was set down for second reading tomorrow.

FRIDAY, May 6.

House met at 12 o'clock.

On motion of Hon. Mr. Warburton the House went into committee on the bill respecting the reclamation of marsh lands, Mr. Kickham in the chair. Reported agreed to and set down for third reading tomorrow.

On motion of Mr. M. McKinnon the bill incorporating the Murray Harbor South Dairying Company, was read a second time in committee, Mr. Arsenault in the chair. Reported agreed to and set down for third reading tomorrow.

FACTS ABOUT HEALTH

It is Easy to Keep Well if We Know How—Some of the Conditions Necessary to Perfect Health.

The importance of maintaining good health is easily understood, and it is really a simple matter if we take a correct view of the conditions required. In perfect health the stomach promptly digests food, and thus prepares nourishment. The blood is employed to carry this nourishment to the organs, nerves, muscles and tissues which need it. The first great essential for good health, therefore, is pure, rich blood. Now it is certainly a fact that no medicine has such a record of cures as Hood's Sarsaparilla. It is literally true that there are hundreds of people alive and well today who would have been in their graves had they not taken Hood's Sarsaparilla. It is depended upon as a family medicine and general regulator of the system by tens of thousands of people. This is because Hood's Sarsaparilla makes the blood pure. This is the secret of its great success. Keep your system in good health by keeping your blood pure with Hood's Sarsaparilla, which absolutely cures when other medicines fail to do any good whatever.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

Wants, Lost, Found, &c.

WANTED TO PURCHASE—A second-hand bicycle in good condition. Address Box 297 104 31

Hot and cold water in same, rent moderate, possession given 1st May next. Apply to H. JAMES PALMER Charlottetown. 6

INSANE MURDERERS.

The Question of Responsibility and Punishment For the Crime.

It may well be that a man who could not be called insane, but merely, a y. an ordinary member of the criminal classes, with strong passions and feeble intellect, would in the presence of an opportunity long expected and hoped for, the consequences of which his thoughts had frequently rehearsed, be really for the moment incapable of restraining his hand. We should hang him, nevertheless, without the slightest scruple, and we should waste no compassion upon the absence of self control. It is, in fact, impossible to frame a definition of irresponsibility based upon absence of self control without including all sorts of crimes which at present are punished by the law. For years back there has been a sort of feud between the lawyers and the alienists on the subject, so that even the textbooks speak of legal insanity and medical insanity as distinct.

To take extreme cases, jurists have contended that no degree of insanity should exempt from punishment for crime unless it has reached such a point that the person is utterly unconscious of the difference between right and wrong at the time of committing the offense, while medical men have very generally held to the opinion that this is not a proper criterion, that many of the insane are fully conscious of the difference between right and wrong and that to enforce such a test means the hanging of many a lunatic. There can be no doubt that of late years the medical view has met with a wider acceptance than it used to do and that even lawyers have shown an increasing readiness to admit the doctrine of irresponsibility. But it is a very anxious question, especially in view of recent dogmas as to degeneracy, how far this doctrine is to be allowed to go.

The condition of affairs is much more serious than some people think, and it is highly necessary that those who administer the criminal law should be on their guard against any insidious establishment of immunity for the violation of its most sacred principles. In any case of murder the presumption in favor of hanging should be so strong as to leave very slender prospect of escape for any man who prior to the commission of his crime had been thought fit to be at large. If this condition cannot be secured, it will become a matter of grave necessity to take prompt steps for the incarceration of many people of evil passions who are now at liberty and to render the utterance of threats a matter to be dealt with by the alienist as well as by the magistrate.—London Hospital.

ECONOMY in taking Hood's Sarsaparilla, because "100 doses one dollar" is peculiar to and true only of the One True BLOOD Purifier.
