

SERVING CANADA

### WING DONATES WHEELCHAIRS

As the result of a magazine subscription drive sponsored by No. 201 (Confederation) RCAF Association a sufficient sum of money was realized to purchase three wheel chairs. These chairs were presented to the P.E.I. Red Cross Monday to be loaned through its sick-room supply loan service carried on under the nursing services department of which Mrs. Wendell Wood, R.N., is the director. These are the first wheelchairs to be donated to the Red Cross sick-room supplies by a local organization. All the other 45 chairs which are constantly in use, and for which there is always a waiting list, were purchased from Red Cross funds subscribed at campaign time except one

which was donated earlier this year by the Overseas Club of the Canadian Red Cross Corps of which there are several members in Charlottetown. In the

above picture are Sinclair MacLeod, Harvey Campbell and David Lecky, president of 201 Wing, presenting the chairs to Mrs. Wendell Wood.

### Week Of Special Services Begins At Montague Church

MONTAGUE — The evangelistic campaign at the Montague Church of Christ opened last night with Dr. C.P. Herndon of Charlottetown and W.O. Weale of Summerside leading the services. They were introduced by Kenneth T. Norris, evangelist of the local church. A large combined choir from Montague, Murray River and Murray Harbor was accompanied at the organ by Mrs. Norris. Mr. Weale led in the song service and sang the gospel solo, "Cleanse Me" Dr. Herndon's message was on the theme of "Jealousy", using as his scriptural background the intense jealousy of King Saul for David. He demonstrated the awful results of the jealous heart and its effect upon the life and destiny of mankind. It wraps our lives and renders us unsuitable for the purpose of God, he declared. These meetings will continue this evening with a special youth service. Young people from Charlottetown, Murray Harbor, Montague and other places will be in attendance. A youth choir will lead in the singing and bring a special musical number.

### St. Paul's Credit Union Shows Added Assets, Membership

SUMMERSIDE — A dividend of two and one half percent of share capital for the past year was approved by the members of St. Paul's Credit Union at the organization's annual meeting in St. Aquinas hall last evening.

### Lower Montague Hosts To W.I.'s

MONTAGUE — Members of the Lower Montague Women's Institute were hosts to the 31st annual convention of the Three Rivers district.

The convention was held in Lower Montague Hall and the theme was "The Home, the Community, and Women's Institutes". Mrs. Raymond Poole chaired the meeting and Mrs. Fred Aitken was secretary. Representatives from the following Institutes reported: Montague, Union Road, Lorne Valley, New Perth, Roseneath and Lower Montague.

Mrs. Harvey Ross welcomed the guests and Mrs. Elsie Carver, Union Road, responded. Mrs. Murdoch MacGowan brought greetings from the provincial executive.

She touched briefly on music and drama festivals, scholarships for schools and home economic scholarships, and told the convention the Tweedsmuir competition is still open and urged members to gather data of past history of each district.

The supervisor's report was given by Miss Irene Mountain, home economist.

It was proposed that the members provide a scholarship fund for Montague High School. This matter was left to the executive plus one member from each institute present. Mrs. Lincoln Dewar, New Perth, was named chairman of this scholarship fund committee.

Several resolutions were brought before the convention before a profitable afternoon ended. A buffet supper was enjoyed with Mrs. Agnes Aitken and Mrs. John Aitken presiding.

### CANADIAN ORIGIN

A form of lacrosse known as baggataway was played by Indian teams of up to 200 men long before white settlement in Canada.

## Cattle Industry's Future Will Be Discussed Tonight

The future of the Island cattle industry will be discussed this evening at 13 agricultural meetings held at various locations throughout the province. The theme of the meetings will be "Herd Improvement".

Sponsored by the P.E.I. Artificial Breeders' Association, discussions will include the broad field of improving proper food stuffs, establishing a sound breeding program and general husbandry methods. Farmers of Prince Edward Island were quick to adopt the artificial means of insemination, so that today after 4½ years of operation they have made more progress in this direction than any other province in Canada. It is expected that next year 19,000 cows or over 40 percent of the cattle population will be bred by this method. At present there are 3,000 farmers using artificial breeding methods. These are served by a

staff of 13 qualified inseminators. Many farmers have reported that they have already seen improvement in their herds since the program was first inaugurated.

**SOME ADVANTAGES**  
Some of the advantages of artificial breeding in cattle are: 1. It removes the danger of having a bull around the farm; 2. It provides space for one or two producing females; 3. It affords an opportunity to make selective matings both in pure strains and in cross-breeding; 4. It eliminates disease.

Probably the most important of all the advantages is the fact that top notch sires become available to breeders and through the 100 percent frozen semen program, daily use of this semen is assured.

Each of tonight's meetings will head addresses from representatives of the department of agriculture, the federation of Agri-

culture as well as a guest speaker.

Among the guest speakers will be Premier and Agriculture Minister W.R. Shaw, speaking at Hampton. Other speakers will be E. P. Jarvis, Holstein fieldman for the Maritimes at Kensington; Dr. D.G. Moore, manager of the New Brunswick centre of artificial breeding co-operatives, at O'Leary and Dr. L. B. Donald, assistant to Dr. Moore at Tyne Valley.

Dr. George Fisher, director of the artificial breeding program in summing up the program of the past four and a half years, said yesterday. "This is a grass-roots organization sponsored by the farmers themselves with the assistance of the Department of Agriculture. I look forward to the not too distant future when 70 percent of our cattle will be bred artificially and a great strides both in gain for beef cattle and milk production of dairy cattle will be realized".

## Impressive Contributions Made By Red Cross Juniors

In common with 3,04,662 other Canadian boys and girls the 18,475 members enrolled in the 85 Island branches are this week observing Junior Red Cross week.

This year Island juniors have made the following donations: \$1,100 to the crippled children's fund; \$223.52 to the fund for international help and understanding; and \$520 to help provide transportation for a delegate from Ceylon to the International Study Centre held in Toronto last August.

Queen Charlotte High group gave \$100 to the Springhill disaster fund. Souris High raised \$20 for the international fund. Kensington High packed 30 health kits, gave \$35 for the international fund and also helped to pay the expenses of the delegate from their school to the International Study Centre.

**ALBUMS EXCHANGED**  
Prince Edward Island juniors this year also compiled 28 albums for exchange with eight countries.

Prepared by the junior groups at Queen Charlotte High and Notre Dame Academy, 24 pieces of art were forwarded to Toronto for the International Study Centre exhibit. In addition 21 provincial branches exchanged magazines with juniors in nine countries.

A spokesman for the society recently stated that the chief objective of the Canadian Junior Red Cross was "service to those in need." Gifts were given freely with no distinction of race, creed, color or political affiliation.

All relief measures promoted by the juniors went to aid needy children whether at home or abroad.

Last year for instance, the Canadian juniors contributed \$49,521 to the fund for international help and understanding. This money helped to aid young victims of floods in Ceylon and drought in Ghana, sewing rooms and printing workshops in Ecuador, and laboratory equipment for 13 high schools in Korea.

More than 2,800 children were helped by the \$198,747 Canadian juniors contributed to the handicapped and crippled children's fund.

This made a total of 58,705 children similarly assisted since this later fund was established in 1922, the society spokesman said.

It was also noted that the members of the Canadian Junior Red Cross bring much cheer and happiness to shut-ins and other unfortunates within their own communities and that High School groups regularly participated in such Senior Red Cross programs as blood clinics, arts and crafts, veterans' lodges, and water safety campaigns.

Celebration of Junior Red Cross Week in Canada ends November 7.

### ISLAND POTATOES BOUND FOR FLORIDA

The freighter "Liverpool Packet", which docked at Summerside Saturday morning is being loaded with nearly 70,000 bags of seed potatoes for Jacksonville, Florida. Agents are P.E.I. Produce, MacFarlane Produce and Canada Packers. Lorne MacFarlane is handling the stevedoring. The "Packet" is owned by the Mersey Paper Company of Liverpool, N.S. and is expected to be loaded sometime Wednesday.

## Grand Tracadie H.S. Names Five Delegates To Gathering

CORRAN BAN — Thirty-two members attended a meeting of the Grand Tracadie Home and School Association on Thursday, in Corran Ban hall.

The secretary read a letter from the provincial president, Mrs. Basil MacDonald, inviting each organization to select five delegates to attend the semi-annual meeting of Prince Edward Island Home and School Associations in Kensington.

Motions were carried to accept the selection of the elected executives as delegates to the semi-annual. The proposed theme for the 1959-60 year's activities, is "Know the School." It was decided to hold the regular meetings on the fourth Thursday of each month.

Following the business section of the meeting, John Martin, representative of the National Film Board, gave a brief talk on the use of films and demonstrated with a short film entitled "Shyness." The film revealed the causes of shyness in children, and showed how, through a greater understanding by parents and teachers, this problem may be dealt with.

The meeting was divided into buzz-groups and a lively discussion followed on questions. "Do you think parents generally expect too much of children? Are children with physical disabilities in greater danger of shyness?"

W. W. Clow thanked Mr. Martin for his presentation, the beneficial and enjoyable program.
