TEMPERANCE MEETING to-night.

The City Council meets at 7.30 this evening.

BRIG "Alpha," Neilson master, to Peake Bros. & Co., with salt from Liverpool, G. B., arrived here on the 13th inst., twenty-four days.

The Public Temperance Meeting to-night in Full's Hall will be addressed by clergymen and others. Go and sign the pledge. Chair taken at eight o'clock.

By telegraph to Longworth & Co., Philadelphia, Nov. 12, brig "Minnie Louise," Murchison, arrived from Charlottetown, after a passage of eleven days.

PRINCESS LOUISE is at present on a visit to the Duke of Westminster. It is expected that the Marquis will join the Princess there on his arrival from Canada.

BARKESTINE "Ethel Blanche," Callaghan master, to Peake Bros. & Co., with cargo of general merchandise from Liverpool, G. B., arrived here on the 13th inst.

The Charlottetown Branch of the Irish National Land League will hold its regular meeting this (Monday) evening at 8 o'clock, in Farquharson's Hall, Queen Street.

The Nova Scotia apple crop is a comparative failure this season. Last year the crop was estimated at 200,000 barrels, but this year the outside number will be 110,000 barrels.

ARREST of twenty-two Nihilists will be placed on trial at St. Petersburg on the 20th inst. Of this number it seems to have been already determined that seventeen shall be sentenced to death and executed.

RECENT advices from Barbadoes, W. I., reports the yellow fever as raging with great violence. The barracks are almost deserted, and the troops scattered over the island. West India produce is scarce and high, the late crop being about all shipped.

CANADIAN PACIFIC WORKSHOPS.—An Ottawa telegram states that a high official of the Canadian Pacific Railway "has informed a reporter" that Ottawa will get the workshops of the road, if it will offer greater inducements than Montreal.

QUEEN VICTORIA completed on October 25 a reign of forty-four years and 128 days, which is just the length of time that Queen Elizabeth sat on the throne. Victoria has now reigned longer than any other English sovereign except George III., Henry III., and Edward III.

MONKTON householders who are now getting anxious about the usual fall work about their premises in preparation for the winter, find it very difficult to get men. One gentleman says he has been trying for several days to find an idle man willing to go to work, without success.

The trial of the two circus employes, Dunn and Kehoe, for assault with intent to kill, commenced at Ottawa Friday. The trial of the former for the murder of Fletcher will not come up at the present term, and the Crown prosecutor stated Friday that it was just possible that it might not come up at all.

EARL PEMBROKE, who is possessed of considerable humor, has just issued the following notice: The Earl of Pembroke begs to inform the gentleman or gentlemen who lately shot some of his Canada geese that the common game goose of this country affords quite as good sport to the shooter and is far better eating.

The first arrangement between an Irish landlord and his tenants under the Land Act occurred on the Browne estate in Mayo, belonging to an ex-M. P. The tenants agreed to take fifteen-year leases at a reduction from three pounds to ten shillings a year. Several tenants have consequently withdrawn their notices sent to the Land Commission.

ARRIVED.—The following vessels, owned by Messrs. Welsh, Owen, have arrived, viz: Nov. 12—Brig "Magie," McPherson master, at Baltimore from Charlottetown. Nov. 13th—Brig Fanny, Murchison master, at Orwell, from Gloucester, England; Barque "Lizzie Cameron," McLean master, at Georgetown from Liverpool.

On Sunday forenoon, October 30th, a little girl, aged two years and five months, daughter of Mr. Angus McGillivray, Near South River, Antigonish, went out of the house without being noticed, and although search was made for her within half an hour from the time she had left, yet no trace of her has yet been found. It is supposed that she strayed into a forest and perished.

SHOP-LIFTING.—Yesterday morning the shop of Mr. Charles Lawson (Old Union Bank premises), Grafton Street, was entered, and a quantity of goods stolen therefrom. Investigation showed that the thief first entered the cellar, and from the cellar passed into a porch in the rear of the shop. He then broke a pane of glass in the door leading to the hall, and drawing the bolt entered the hall. He then, with the aid of an axe, broke open the rear door of the shop and carried off thirty dollars in cash and the following goods:—1 pair of boots, 3 pairs of socks, 2 pairs mitts, 2 bottles hair oil, 1 dozen silver spoons, 1 pair scissors, and a quantity of tobacco. These goods were recovered in a vacant house in rear of the store. The alleged thief, a boy named John McAree, aged sixteen years, was arrested, and fourteen dollars of the stolen money was last night found by Officer Bradley under a plank in the "pound," at the head of Queen Street. Young McAree was arraigned for examination this forenoon. Three witnesses were examined, and the case was adjourned until to-morrow. There is little doubt from the evidence adduced that McAree stole the goods, but whether he had accomplices is not yet brought out. While in the dock another charge—that of stealing a shirt and linder from the clothingline of Mr. Robert Morton—was brought against him. The stolen linder was found on his person yesterday. After examination of a few witnesses the case was adjourned and the prisoner remanded to jail.

LONDON, Nov. 11.

It is understood that the American Legation will take an early opportunity to thank the Government for the salute to the American flag when it was carried in the Lord Mayor's procession on Wednesday. The Legation has received letters from Mrs. Garfield to the Queen, Mr. Gladstone, Mr. Thomas Hughes and Minister Lowell, thanking them for their expressions of sympathy on the occasion of the death of President Garfield.

The Times says: "Yesterday's Cabinet Council is not the first of a series in which weighty controverted questions of policy will have to be debated and determined. It is understood that the Cabinet will not be convened again for some time to come, unless some unexpected exigency presents itself. We may, therefore infer that the attitude of the government upon the Irish question remains unaltered and unmovable. Forster will return to Ireland with no restraint upon the executive authority."

Gladstone, in replying to a letter from the secretary of the Protestant Educational Institute, says that the Government have sent no mission to the Vatican. Lefroy's solicitor is preparing a memorial asking for a respite for the prisoner, on the ground that his brother and grandfather died insane, and that he himself was insane when he murdered Mr. Gold.

Mr. Gladstone Speaks.

At the Lord Mayor's banquet on the 9th Mr. Gladstone said:—"I can discern signs of improvement in Ireland. I believe the people of England are unanimously convinced that it was necessary to take strong measures in Ireland in defence of public law and private liberty. One question at least has been decided. The people are determined to make a full trial of the Land Act. I hold in my hand very significant proof of the treatment to which the Irish have been subjected by their so-called friends. It is a notice proceeding from a high authority stating that anybody paying rent before the suspects are released without the consent of the Land League will be boycotted. Though I cannot yet state that throughout Ireland the covenants into which tenants have entered are punctually performed, yet they are largely and increasingly performed. Those who decline their performance are generally those who are well able to fulfil their engagements. I can safely say the Irish will make full use of the Land Act, which will be impartially administered."

There is a glorious time ahead for American contractors. The Naval Advisory Board, it is said, will recommend the appropriation of \$40,000,000 for the improvement of the Navy.

MORE LIGHT!

THE Charlottetown Gas Light Company have imported some of "BRAY'S BURNERS," which they will supply and fit on Gas Brackets, etc., at a moderate cost to consumers.

These Burners are reported to be the best Flat Flame Burner yet produced, and will give a far greater amount of light than any other Burner with the same consumption of Gas.

Dr. Wallace, F. R. S. E., F. C. S., Gas Examiner to the City of Glasgow, in a lecture delivered by him, calculated that £130,000 (\$650,000) a year are thrown away in Glasgow by the use of imperfect fittings. On the subject of Gas Burners he says: "Another and as I think a better Burner is that called Bray's regulator, and as I consider these the best union Burners attainable at moderate cost, I have selected them for a series of experiments."

The Report of the Committee of the British Association of Science to enquire as to the best means for the development of light from Coal Gas of different qualities—comprising Dr. William Wallace, Professor Dittmar, and Mr. Thomas Wills, F. C. S., F. I. C. E., showed that Bray's Burner yielded the greatest amount of light of all the two or three score of Burners reported upon, which included all the Burners of repute in the market.

In a pamphlet upon Light and Heat, published by R. B. Taber, A. M., he says: "The cost of Gas as compared with other illuminants is much more economical when rightly used, than many suppose. From experiments made for this purpose, the following results have been obtained. They were made by burning samples of Devco's Brilliant Oil and ordinary Oils, and testing their illuminating power. It was found that Coal Gas costing one cent at \$3 per thousand feet, gave a light equal to 18 candles, while Devco's Brilliant Oil consuming 27.4 grammes costing half a cent, gave a light equal to 9 candles.

A good Argand or Johnson's Burner, the Burner used in the last experiment, will therefore give the light of 2 ordinary Oil Burners in direct comparison, at no greater expense in the case of the finer and safer grades of Oil. Lights, however, on the authority of scientists, are not to be compared in direct proportion, but in proportion to the squares of their powers, and such a comparison with the case of the use of Gas, its cleanliness, freedom from odor and dangers, renders its use desirable wherever it can be introduced."

As the above experiments were made with Gas at \$3 per 1000 feet, and not consumed through Bray's Burners, it will readily be seen how much more economical it is to consume Gas instead of Oil, when its price is only \$2.63 per 1000 feet as now charged here when consumed, more especially through Bray's Burners.

Messrs. Goodwin & Co., of Philadelphia, the well-known manufacturers of Scientific instruments for testing the illuminating power of Coal Gas, etc., say in their Circular to Gas Companies: "In presenting the Bray's Standard Patent Flat Union Burners and Lanterns, for which we are the sole Agents in the United States, to the attention of the public, we are convinced that we are filling a want long felt." They further add: "The yield of light from these Burners is 12 to 20 per cent. greater per cubic foot of Gas consumed than that from any flat flame Burner hitherto introduced. [no 4 cod if
