THE DAILY EXAMINER

JUNE 21, 1896.

THE SOULANGES CANAL CASE.

It will surprise those who pay attention to Mr. Davies' dissertations on the "Soulanges Canal Case," to learn that Mr. Goodwin has obtained a judgment in the Exchequer Court bearing out the opinion of Sir Charles Hibbert Tupper. We quote the telegram:

OTTAWA, June 20. — In Goodwin versus the Queen. This case was heard before the Exchequer Court yesterday and today. Several technical objections were urged by counsel for the crown which the judge said would require time for consideration, but he was clearly of opinion and so decided, that Goodwin was entitled on the merits to all he claimed, except a small amount which should be deducted in respect of mucked material. He stated that he entirely concurred in the view expressed by Sir Charles Tupper, and that the reduction he made arose out of a matter to which Tupper's attention was not called, and with which he (Tupper) did not profess to deal. He ordered judgment to be entered for Goodwin for \$85,000, instead of \$73,000 claimed, and reserving to the crown the right to appeal on all grounds before the first October, and the right to Goodwin to apply before the same date to increase the amount.

It thus appears that Mr. Davies' denunciation of Sir Charles Hibbert Tupper and the Government in relation to this matter was unjustifiable.

CONFIDENCE RETURNING.

As a result of the nomination of Mr. McKinley for President, the confidence of business men in the United States is returning. It is said by Henry Claws that the improved tone of affairs in Wall Street, during the past week, foreshadows the coming revival of confidence that may be expected from the victory of the cause of sound money at the St. Louis Convention.

No sooner was an agreement reached to incorporate in the Republican platform a declaration in favor of the maintenance of the gold standard and against free coinage than London responded by large orders for American stocks. This gave the key-note to the local market and produced a rise in prices of 2 1/2 to 5 per cent. At that point London showed a disposition to take profits, thereby checking the advance, but leaving the market firm at the higher figures and apparently prepared to encourage a still further advance. The realizing by London was also influenced by references, in the first draft of the St. Louis platform, to Cuba and the attitude of the United States in the Venezuela dispute; but under the final form of those planks London resumed buying.

The London Economist recently remarked:—"It is easy to understand how the results of the forthcoming National Conventions are exciting so much anxiety. If they point to the election of a President fully committed to the maintenance of gold payments, and strongly supported by the country, the probability is that there will be a distinct improvement in the financial situation. The distrust with which the European investors regard American securities will be largely dispelled, and thus one of the main causes of the efflux of gold from the Treasury will be removed." The outcome of the Convention here supposed has been realized, we may say fully realized; and the London buying which has already appeared is a confirmation of the Economist's conditional prediction of a distinct improvement in the situation and a large mitigation of European distrust towards United States securities.

It is not improbable, Mr. Claws remarks, that Europe may in some measure postpone action until the Chicago Convention has been held; but it will not be long in learning what is almost universally conceded here, that the party represented at St. Louis will control the policy of the country for the next four years; and when that is comprehended, a renewal of foreign orders for our investments is likely to be forthcoming.

CAMPAIGN NOTES.

The great question, this evening, how about Quebec and Ontario? —If the Guardian's report that Hon. Daniel Davies' steamer, lying at Murray River, was maliciously disabled, be true, the deed is a dastardly one, and the perpetrator ought to be punished; but it would be ridiculous to vote, as the Guardian suggests, against the Government of Sir Charles Tupper and against Dr. Jenkins on account of it.

NEWS NOTES.

Under high license in Michigan the number of saloons has decreased by 487, while the revenue is about \$75,000 larger. It is now estimated that ten thousand people were drowned by the tidal wave on the Island of Yesso, the northern point of Japan.

The invasion by Venezuelan troops of British Guiana is continued, but Mr. Gutzon, the Under-Secretary for Foreign Affairs, does not think that there is any danger of hostilities arising out of the action.

A quaint chameleon flower has been found in the Isthmus of Tehuantepec, and will shortly be brought to Europe. The blossoms change color three daily, becoming white in the morning, red at noon and blue in the evening.

ST. PETER'S SCHOOL.

The closing at St. Peter's Day School took place in the boys' school-room last evening. Lieut. Governor Howland presided and on the platform were the Rev. James Simpson, Mr. Stewart, of New Brighton, England, and Mr. Bryan; and Hon. Justices Hodgson and Fitzgerald. The school-room was crowded at an early hour with the friends and sympathizers of the boys and girls, and many could not gain admittance. The Rev. Mr. Simpson in his opening remarks spoke with satisfaction of the success of the past year. The number of pupils attending had increased so that 182 boys and 100 girls had to be refused. Great progress was shown by the excellence of the examinations. In spite of the closest scrutiny by the examiners, the number of those who failed was very small. There were large and special prizes in many cases had to be given. He also referred to the peculiar circumstances attending the teaching staff in the way of examination. Rev. T. H. Hunt, assisted by the ordinary examiners, for B. D. standing first among candidates from all Canada. Revs. Messrs. Andrew Scott, V. Iron and West also passed the examination for Deacon's Orders at various times during the year, and Mr. Vernon in his University examination won first-class honors. The mention by the speaker at the honor lately conferred upon Mr. Justice Hodgson in being elected Chancellor of the University of King's College, Windsor, was received with applause from the boys of the school to their good friend.

The distribution of the many prizes by His Honor followed, and was interspersed with songs, recitations and choruses from the boys and girls. On the prizes for History Mr. Hodgson had something to say. They were well won, His Honor then spoke briefly to the pupils on patriotic feeling for the country whose great resources and possibilities were lying open to the prize-winners of the world.

The proceedings were completed with the singing of the National Anthem. The following is the honor list:

THE METHODIST CONFERENCE. ST. JOHNS, June 17. EVENING SESSION. The conference resumed work at 7.30, with usual devotional exercises. It was an open conference on missionary matters. Carson presided, and delivered an address dealing with religion among the Indian tribes.

A minority report was presented by the Rev. Dr. Evans, secretary-treasurer. He gave the total receipts as \$7044.74, P. E. is and contributes, \$2173.00 of this amount is a net decrease on the conference of \$317.57. Besides the amount above, the late Solomon Wright, of Summerside, has left a legacy of \$10,000, and J. McA. Hutching, \$500 to the same fund. It is an unfortunate showing, however, that in the last 4 years there is \$19,956.64 of a decrease.

The Rev. G. W. F. Hervey moved the adoption of the report in a very neat speech. The Rev. Joseph Parkins seconded the motion, and spoke confidently of the future success of the conference in the Church and the world. Miss Parker representing the W. M. S., addressed the conference and made a very favorable impression. Rev. Dr. Pope moved a vote of thanks to Miss Parker for her able address. Session closed.

Friday Morning, June 19. After the usual devotional exercises, presided over by the new President, H. W. P. Marshall, the minutes were read and adopted. A warm discussion was carried on on the children's fund and rebates of \$20 were made to Courtney Bly circuit and city mission, also on Sherbrooke circuit for \$15. Weekly Memorial, Moncton, \$15 was voted down. A rebate of \$24 to Fairville circuit was granted.

Next, Sabbath supplies for the evangelized points were passed, and the Rev. Mr. Huestes and the Rev. Mr. Bond of the Wesleyan and the Book Room addressed the conference on the condition of those interests. \$100 of books and periodicals were sold during the year. There was a profit of \$429.00 in the year's business. The Wesleyan has been running on the \$1 basis for one year and the condition on the whole is not as bad as was expected, but there is still a deficit of \$149.00 on the year.

3,750 Wesleyans are circulated, and 567 new subscribers have been added, but 420 have dropped out leaving only an increase of about 150 on the year. N. B. conference has 1050 subscribers and P. E. Island 250 and 1800 in N. S. and some copies going into every part of the earth. The balance of accounts shows a surplus of \$963 to the good of the Book House. The Rev. Mr. Bond spoke in behalf of the Wesleyan, and confessed the paper to be not as high as was expected, but with the help of the brethren he can make it very much better. He begged the conference to help him to put it in every issue.

A resolution complimenting these brethren was unanimously passed. A committee was appointed to look into the missionary deficiency question, to find out the cause of the heavy falling off in receipts. Committees are meeting and business is pushing. The afternoon session was occupied with the superannuated fund matters. The receipts were as follows for the conference, including ministers' subscriptions, \$2277.23, a net increase of \$48.20 on the year.

Dr. Evans presented the report of the general fund, which was generally satisfactory. The secretary has had \$3000 of people \$3056, showing that the ministers are the largest subscribers to this fund. The report of the board of examiners was passed. The passing committee reported through Rev. Thomas Allan and the treasurer's account was read. Conference adjourned to 7.30.

EVENING SESSION. Friday June 19. This session was occupied by the sustentation fund committee. The report was given by the secretary, Rev. J. G. Tidmarsh. The president gave a short address which explained the purpose of the fund, viz. to supplement the salaries of Ministers on the poorer circuits. The report showed a net amount received of \$2,200.00. The largest amount ever reported for this fund. This is an increase of over \$300 on the year, and the home missionaries are happy in the prospect of a small addition to their stipend. The secretary gave a very vivid address showing the actual position of the preachers. There was shown a gross deficiency on Minister's salaries of \$19,907, or when supplemented by the missionary grant a net deficiency of \$13,929.00. The speech was very able and interesting and received a very attentive hearing. The Rev. J. Sellar seconded the motion with a brief address.

The representative of the Ladies Aid Society, Mrs. Stephen King, wife of the Post Office Inspector, read the report of the sustentation fund of St. John, which was well received. The report of the society was taken up section by section and discussed.

It Does the Business. If you want to know what Miller's Emulsion of Norwegian Cod Liver Oil will do for a consumptive patient, ask one who has used it. Ask anyone who has used it in lung troubles of any kind. What they say about Miller's Emulsion shall be its recommendation. It is the finest preparation of its kind in the world and is worth its weight in gold to a consumptive sufferer, whom it will raise from a bed of sickness to health and strength of body and mind, giving a new lease of life. Thousands testify to the value of Miller's Emulsion. Miller's Emulsion is the great nerve strengthener and blood maker, and cures Coughs, Colds, Bronchitis, Scrofula and all lung affections. "Nothing to wear ... but clothes." BUT oh, what possibilities—for difference in the clothes. Here's one impossibility. Can't buy the possibly worthless clothing at Paton's. Can't even buy the so-called poor grade. None but the best, the very best of each style. In style we include the kind of cloth, which is quite a different thing from grade of cloth. Many dealers try to confuse the way. For instance we can sell you Clay Cloth but no second grade. Worsted. And by the two we can sell you a suit in this cloth suitable for spring and summer wear for \$10, which proves that the best is the cheapest....

Men's Clothing. Three hundred black worsted suits are ready this morning—suits at the top notch of elegant style. We are proud of them, you will be too. They are better suits than we ever sold at anything near the price before—letter tailored. To be sure this lessens the profits that were only fair before. But we've counted the cost and calculated the possible results—a greater clothing business. The benefit is yours in present and future economy—and the net profits will be more to us from the larger business. Good Worsted Coats and Vests \$5.75, \$6.39, \$7.00 and \$8.50. Serge suits from \$5 to \$8. Double Breasted.

James Paton & Co. The Monarch of all—ROYAL OAK SOAP. Unequaled. Unapproached for the money. Made here. All Grocers. \$2 Will Buy a Husband. Father, brother or son a pair of those tan boots we are selling off. We have sold a lot of them during the past week, but there are quite a number left yet. Also Men's Tan Shoes for \$1.50 a pair. Extra good value. Call and see them.

R. K. JOST, STAMPER'S CORNER. Hard Coal! Landing to-day per schr Orinco, 600 Tons Hard Coal. (Superior Quality.) Egg & Chestnut Sizes. C. Lyons & Co. June 15 1 wky—Pat & Guan.
