# Why Are You Paying More for Food?

Economists blame recent price increases on inflation... shortages... the weather... higher production costs. But as always, we are doing our darnedest to hold the price line or, at least, hold any forced increases to the absolute minimum. We search the wholesale markets for LOWER food prices and tell you about them in our ads and feature them in our displays. If you're paying more elsewhere for your favorite foods—WHY? SAVE for sure—shop CO-OP SUPER MARKET, the best friend your budget ever had.
