

**A FULL-FLEDGED, 18-hole golf course is to be established at Brudenell by the Provincial Government, with the first nine holes scheduled to be in operation for next year's Centennial activities. The announcement was made yesterday by Hon. M. Lorne Bonnell, MD. (LEFT) Minister of Tourist Development. The course will be located on the old Gordon property adjacent to Brudenell Park and will be operated by the government with green fees being charged for development and maintenance.**

## Hon. M. Lorne Bonnell Announces New Course

Hon. M. Lorne Bonnell, M.D., minister of tourist development, announced yesterday that the Provincial Government will establish a 18-hole golf course at Brudenell. The decision was reached at a meeting he held with members of the Brudenell Golf Association who are anxious to have the course properly developed but lack required funds for such a far-reaching undertaking.

The course will be developed in two stages, Dr. Bonnell said. "Nine holes will be built and in operation for next year's Centennial activities. And this will be planned and built with careful provision for nine more holes at a later date."

"To insure the proper construction of this new course and to make it one of the finest in the Maritimes, expert advice will be sought from a professional golf course architect," the tourist minister stated.

**GREAT BENEFIT** "Such a project," he said "will be a boon to the growing tourist industry in the eastern part of the province as well as being of great benefit to the residents of all King's County."

He added, "with the trend toward shorter working hours and more leisure time, it is only fitting that governments assist in the provision of more recreational facilities and I hope this policy can be extended in the near future to other areas of the province."

The course will be located on the old Gordon property, adjacent to Brudenell Park, which was acquired by the provincial government a few years ago. Dr. Bonnell said that the buildings on the property would be utilized, especially the large, old farm house which could be leased to the Brudenell Golf Association as a club house. It will be made available to the association for recreational and social functions.

However, the golf course will

be operated by the government and regular green fees will be charged and the money collected will be used for further development and maintenance costs, the minister said.

Rev. Preston Hammill, president of the Brudenell Golf Association, said "we are delighted that the government has decided to take over and develop our golf course and we are confident that it will be a real asset to the whole eastern community. The financial outlay for such a small project to properly build a suitable golf course even though the need for such a facility is and has been evident for some time. It will be a real benefit to all the people but particularly to the youth of King's County."
