

UPEI receives \$200,000 endowment

The University of Prince Edward Island is the recipient of a \$200,000 endowment from the estate of Frederick W. Bagnall who died in December 1984. Mr. Bagnall's will stipulated that the net annual income from this generous fund be awarded annually to students, including graduate students, attending the University of P.E.I. and domiciled in Prince Edward Island. The amounts, conditions and recipients/recipients of such scholarships and/or bursaries are to be determined from time to time in such a manner as the Board of Governors of the University may direct.

Mr. Bagnall, born in Hazel-grove, P.E.I. in 1889, was educated at Prince of Wales College, and taught in Searlestown, P.E.I. before entering Acadia University. There he excelled in track and field holding a record for many years for the one-mile run. Upon graduation he worked as a counsellor with the YMCA in Montreal before joining the Canadian Army at the outbreak of World War One. In service overseas he lost an arm, and upon returning to Canada he went West where he

was given a quarter section of land in the Peace River district under the Veterans' Land Act. Besides working the land Mr. Bagnall taught school in the district and later became a gold miner in Yellowknife.

After more than 40 years in the West he returned to Prince Edward Island, and at the time of his death was a resident of The Garden of the Gulf Nursing Home in Charlottetown.

He was a prolific writer and among his works were a book entitled *Not Mentioned in Dispatches* and a considerable amount of prose and poetry, the latter to be found in the P.E.I. Collection in the Robertson Library.

Mr. Bagnall was the son of Joseph Edwin and Euphemia Katherine (Bell) Bagnall. A bachelor, he is survived by two sisters: Annie, Mrs. Louis Muttart of Toronto, and Laura, Mrs. Lewis G. Bagnall of Southbury, Connecticut, and eleven nieces and nephews. He was predeceased by five brothers: Rev. Herbert, Elmer, Gordon, Andrew, and Harold.

Daniel Rodier. Scholarship student. Dedicated to becoming a marine biologist.

Will he make it?

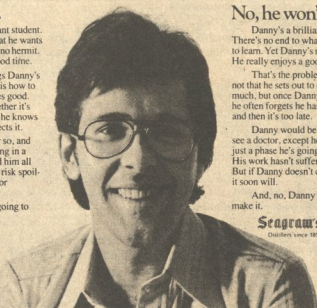

Yes, he will.

Danny's a brilliant student. There's no end to what he wants to learn. Yet Danny's no hermit. He really enjoys a good time.

One of the things Danny's learned at university is how to keep those good times good. When he drinks, whether it's beer, wine or spirits, he knows his limit and he respects it.

Another year or so, and Danny will be working in a field that's fascinated him all his life. He wouldn't risk spoiling the opportunity for anything.

Yes, Danny is going to make it.

No, he won't.

Danny's a brilliant student. There's no end to what he wants to learn. Yet Danny's no hermit. He really enjoys a good time.

That's the problem. It's not that he sets out to drink too much, but once Danny starts he often forgets he has a limit, and then it's too late.

Danny would be wise to see a doctor, except he says it's just a phase he's going through. His work hasn't suffered yet. But if Danny doesn't change, it soon will.

And, no, Danny won't make it.
