

Schoolhouse Unsafe is Destroyed by Dynamite

BLAST GOES OFF WITH ROAR

BUILDING TOPPLES DIZZILY

SCHOOLHOUSE IS ONLY WRECKAGE NOW

A public schoolhouse in Chatham township, Ont., is seen as it was damaged by dynamite—the safest way to drop the roof—after it was found unsafe to repair. Coming in contact with 50-year-old building, the contractor in charge of razing it, discovered that it "crumbled in our hands," so structure was levelled to ground.

REV. DR. KEIR FRASER COMES TO TOWN.—Rev. Dr. and Mrs. J. Keir Fraser have taken up residence at 275 Kent Street, Apartment 2, on their return from Alberton where they spent the summer. The Doctor has been in receipt of many congratulatory messages from all over Canada, including one from Rev. Dr. Kennedy, Moderator of the General Assembly of the Presbyterian Church in Canada, on attaining the diamond jubilee of his ordination to the ministry.

Quiz For Jellymakers

(Continued from Page 2)

form a "sheet", the jelly stage is removed from the heat immediately.

9. Q. Why does jelly sometimes fail to set?

A. There may be several reasons for this:—

- (1) Using over-ripe fruit or fruit lacking in pectin.
- (2) Too short a boiling time.
- (3) Too much sugar in proportion to the amount of pectin and acid.
- (4) Too much water used in extracting the juice.

10. Q. What makes jelly tough?

A. Jelly may become tough if too little sugar for the amount of pectin and acid used. Overcooking results in gumminess.

11. Q. Why is jelly not always clear?

A. A cloudiness may result from improper straining, or by squeezing the bag. Too great a proportion of green fruit may also cause cloudiness.

12. Q. What makes crystals form in jelly?

A. Crystals may result from an excess of sugar, insufficient acid or overcooking the jelly. Tartaric acid may cause crystals in grape jelly but this can usually be prevented by letting grape juice stand in a cold place before making into jelly. The crystals will settle to the bottom and the juice may be carefully drained off.

13. Q. What makes jelly weep?

A. Weeping occurs in fruits high in acid. This is thought to be caused by a contraction of the jelly mass which squeezes out liquid, similar to the separation of the whey from the curd of milk.

If dribbles of jelly are not wiped off the inside of the glass above the jelly level, the paraffin will not form a good seal and weeping may result. A slightly moistened clean cloth should be used to do this.

Mrs. Harry Arnett and Family, wish to extend their sincere thanks to neighbours and friends for their many acts of kindness during their recent sad bereavement, those who sent flowers and messages of sympathy. Also the Doctors and Nurses of the Prince County Hospital.

IN MEMORIAM

In fond and loving memory of Andrew Ramsay, who passed away August 30th, 1948.

He is not dead! he has but passed Beyond the mists that blind us here.

Into the new and larger life, Of that serene sphere.

Lovingly Remembered by His Wife.

IN MEMORIAM

In memory of a dear Husband and Father, Andrew Arsenault, who departed this life August 30th, 1948.

Another year has passed, Since we had to part, God called him it was His will, But in our hearts he liveth still.

A happy home once we enjoyed, How sweet the memory still, But death has left a loneliness, The world can never fill.

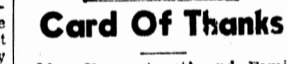

Life has never been the same, There is such a vacant place, In memory you are near Bringing many silent tears.

Some day I hope to meet him, That day I know not when, God gave us fate we know In heaven will meet again.

Lovingly Remembered by His Wife and Children.

Island Odds And Ends

If all the roads, main, secondary and of third class importance, which Islanders from time to time demand be paved, were paved, the rest of the Provincial Government services would close down very quickly. Only the Department of Public Works would have any money to carry on its duties.

The Island has only the population of a fair-sized city, but about thirty or forty times more highway mileage to look after than any city with a like number of people. The problem is not simplified any by the restrictions of limited revenues, and the constant clamor from all parts of the Province for permanent highway improvements. Even the incorporated towns and built-up areas, which are served by a main paved highway, often ask the local Government to pave a secondary road entirely at Provincial expense.

Officials of the Public Works Department then were taken a bit off balance, it can be imagined, when a group of residents from Parkdale, just East of Charlottetown offered to defray a good proportion of the cost of laying light paving on a half mile of roadway. This short road connects St. Peter's and Mt. Edward roads running roughly from the cemetery on the first named road to the Experimental Farm on Mount Edward Road.

Stimulated by the practical assistance offered by the citizens of Parkdale, the Public Works Department went ahead with paving operations without delay.

Spurred on by this example people in other built-up areas, who have streets which need paving, are proposing that the Government along similar lines, and there is no doubt that many Island communities by the expenditure of a little extra money could make improvements far exceeding in value the cash outlay. The Parkdale citizens who started the ball rolling: have increased the value of their properties greatly, and they have a firm clear road connecting with the main highway leading to Charlottetown.

The old railway water tower in St. Peter's, where the locomotives customarily "took on water" is being demolished. It was a landmark for many years, and the delight of schoolboys for several generations. The introduction of Diesel engines on the Island has made the tower unnecessary, and robbed the younger generation of the sight of a puffing snorting engine filling up with water to continue its journey.

It is well known that Charlottetown folks would like to see "Buck" Whitlock whose home is in Charlottetown, wear an "Islanders" hockey uniform this year. "Buck" likes the idea, and the Bread Company for which he works thinks the same way. The Charlottetown boy's business territory is on the Island too, which should just about clinch his case for obtaining a release from the St. John's Beavers. To date the St. John Club has been deaf to all requests that "Buck" be allowed to play for his home town. Local hockey officials think that the Beavers will see the logic of the case and let the Charlottetown boy play where he grew up and first played the game.

IN MEMORIAM

MALCOLM O. MACLEOD

The death occurred at his home in Strathcona on August 24th of Malcolm O. MacLeod, aged 80 years.

Besides his widow he is survived by three daughters, Elva (Mrs. George Mellish, Union Road), Katherine, Cambridge, Mass., and Phemie (Mrs. Rowland, Florida) and three sons John at home, Norman in Charlottetown, and David in Florida.

All but David, who is ill at his home attended their father's funeral which was held Sunday afternoon with a short service at his late residence and then to Dundas United Church. Services were conducted by the minister, Rev. Mr. Brown, assisted by Rev. W.D. MacPherson, Murray Harbour, Mrs. Robin Clay was organist and the choir sang the hymn "Unto The Hills". A solo "Beyond the Sunset", was beautifully rendered by Mr. Walter Burdett and a duet, "Weary Pilgrim of Life's Highway" was sung by Mr. Burdett and Mr. Herbert MacLeod.

The large attendance and the many beautiful floral tributes were testimony of the high esteem in which the deceased was held by his friends.

The pall bearers were, William Hunter, Leslie Hunter, Wallace MacKenzie, Otis MacLeod, Norman MacLeod, and Everett MacLeod.

CAVENDISH W.M.S.

The Cavendish Auxillary of the W.M.S. held their August meeting in the classroom of the Church on Wednesday evening, August 2. Miss Bernice Axworthy led the worship using the theme, "Working Together". The Scripture reading, Romans 12:4-10 (Revised Standard) was read responsively. Silent prayer—that all might seek to be the kind of Christians described in the Scripture, was followed by the "Lord's Prayer" in unison.

The leader read a story—The palace made by music; and a prayer in unison closed the worship.

Following the reading and approval of the minutes, roll call was responded to by a verse of Scripture beginning with A. The next meeting the letter will be R.

It was decided to hold the September meeting in the Church with Mrs. George McCoubrey as worship leader and Mrs. Lorne MacNeill to offer prayer for a missionary.

Community Friendship Secretary reported 15 sick calls and seven cards sent.

Mrs. Ernest MacNeill reminded the meeting that October was the month to review the Missionary Monthly.

Donations of warm clothing for the Labrador box would be gladly received as soon as possible.

It was hoped that now the rush of the Summer is over that there will be better attendance at the meetings and more books read. Mizpah benediction closed the meeting.

QUIX WASHES CLOTHES COMPLETELY CLEAN

Yet Quix costs less

Quix is quicker because, it dissolves quicker.
Quix never clots, jells or runs together in water like ordinary soap powders.

Quix contains a special ingredient that actually makes colours brighter, whiter.
Quix sells for less than other soap powders yet each package contains more actual net weight.

Of many letters received, here is one from—
Mrs. Marie Le Blanc, Dieppe, N.B.

Dear Sirs:
In Quix I get the most in quality and quantity—the best even in hard water, for really less money.

(Signed) Mrs. Marie Le Blanc
