MR. C. D. BANKIN, Chemist, North Side Queen Square, has the honor to announce to the inhabitants of Prince Edward Island and neighborhood that he has made arrangements with

## MR. B. LAURANCE,

The Eminent English Oculist's Optician,  
to personally superintend the adaptation of his  
SPECTACLES AND EYEGLASSES.

In consequence of so many applications he will be  
At C. D. Rankin's Drug Store, North Side Queen Square, from Friday, the  
5th, to Friday, the 12th January,

To all those requiring aid to vision. The hold that Laurance's Lenses have taken upon the spectacle-wearing public of Great Britain and the testimonials from the greatest of the English Oculists, among the faculty in England and in this Province, must be conclusive that nothing better in aids to vision can be obtained, and when in addition such Lenses are selected and adapted to the eye by Mr. Laurance personally, Mr. Rankin is convinced the same of comfort will be obtained by every person requiring the use of Spectacles or Eye-glasses.

Mr. Laurance's mode of procedure is to test the capabilities of both eyes, and not only to determine the exact power required for each eye, but also to select the particular Lenses best adapted to arrest decay and to give sight without discomfort. Mr. Laurance is not a stranger to Prince Edward Island in his capacity as an Optician. For years he visited this Province, as testimonials from our leading medical men and citizens, as far back as 1854, can testify. Mr. Laurance is one of the leading Opticians of England, and his visit here is for one purpose, and that is the introduction of his celebrated Lenses through REGULARLY ACCREDITED AGENTS THROUGHOUT THE DOMINION.

Persons who have tried in vain to be suited with Lenses are particularly requested to call at C. D. Rankin's, and as MR. LAURANCE'S VISIT CANNOT BE PROLONGED, BEYOND A FEW DAYS, it behooves those requiring his assistance to call as early as possible. REFERENCES AND TESTIMONIALS, as to the Quality of the Lenses, etc., are coupled with the names of the following eminent Medical men and residents of Nova Scotia:—

- Chief Justice Sir William Young.
- Rev. Dr. Hill, Rector of St. Paul's, Halifax.
- The Hon. W. J. Almon, M. D.
- The Hon. A. W. Smith, Judge Supreme Court.
- J. Scott Hutton, Principal Deaf and Dumb Asylum.
- Dr. Arthur Moren, Physician to Deaf and Dumb Asylum.
- Wm. Dunbar, Ex-Mayor of Halifax.
- Edwd. Jennings, M. D., President of the Medical Council of Nova Scotia, Vice-President of the Medical Association of Canada.
- Wm. Tobin, F. R. C. S.
- W. B. Slater, M. D.
- H. C. Herbert, M. D., F. R. C. S., Surgeon Major, A. M. D.

### From Chief Justice Sir Wm. Young.

HALIFAX, 2nd Dec., 1882.  
I have pleasure in testifying that the two pairs of Spectacles I have purchased from Mr. B. Laurance give a clearer and purer light, especially under GAS than any I have previously obtained HERE or ELSEWHERE.  
WM. YOUNG.

### From Rev. Dr. Hill, Rector of St. Paul's.

HALIFAX, N. S., Nov. 18, 1882.  
MY DEAR SIR,—The glasses with which you have supplied me for reading, both by natural and artificial light, have proved themselves to be all that could be desired. I strongly recommend any persons wishing to save strain upon their eyes, and enjoy comfort while reading, to apply to you to fit them with Lenses adapted to their condition of sight.  
I am, dear Sir, yours truly,  
GEORGE W. HILL, Rector of St. Paul's.  
MR. B. LAURANCE, Optician, 147 Hollis St.

### From Hon. W. J. Almon, M. D.

HALIFAX, N. S., Nov. 4th, 1882.  
MY DEAR SIR,—By the aid of the Glasses you last fitted me with I was enabled last night by lamp light to read with comfort, a thing I had not done for some months previous.  
I am, dear Sir,  
Yours truly,  
WILLIAM J. ALMON.  
To MR. B. LAURANCE, Optician.

### From Judge Smith.

HALIFAX, Nov. 2, 1882.  
I beg to state that I have purchased of Mr. Laurance one or two pairs of Spectacles, and have found them everything I can desire to improve the vision for writing and reading purposes.  
H. W. SMITH,  
Judge Supreme Court, N. S.

### From the Principal of the Deaf and Dumb Institution.

HALIFAX, Nov. 1, 1882.  
MR. B. LAURANCE fitted a number of the pupils of this Institution requiring Lenses to assist their sight, and I have pleasure in testifying to the benefits the wearers of the glasses have derived from their use. But for the aid thus obtained several of them would have continued to labor under great difficulty in reading script or print, and would thus have been seriously retarded in their studies which they are now enabled to pursue with comfort and satisfaction both to themselves and to their teachers.  
J. SCOTT HUTTON,  
Principal.

As Medical Officer to the institution of Deaf and Dumb, I have much pleasure in certifying the testimony of the Principal, J. S. Hutton.  
ARTHUR MOREN, M. D.,  
Physician to Deaf and Dumb Inst.

### From John Woodill, Esq.

B. LAURANCE, Esq.:  
DEAR SIR,—In the year 1864 I purchased a pair of night-reading spectacles (and have used them ever since) from Mr. Laurance. I called on you yesterday and found that you were the same person, and as you then told me that your books, and as you then told me that you could supply me with a pair that I could see small print for 20 years longer. Well, being in active business, and only in my 74th year, I concluded to take them. But judge my astonishment, at night when I took up the evening paper. I could see to read it in any part of the room by the light of one gas burner as well as when I was 20 years of age, and I trust I will have an opportunity of thanking you personally before you leave our city.  
Yours respectfully,  
JOHN WOODILL,  
174 Barrington Street,  
Halifax, Oct. 27th, 1882.

### From the City Medical Officer.

OFFICE OF CITY MEDICAL OFFICER,  
Halifax, Nov. 1, 1882.  
MR. B. LAURANCE:  
DEAR SIR,—I am very much pleased with your glasses, they are particularly clear and well polished, and suit my eyes better than any I have ever used. I have had great pleasure in recommending them to my friends and patients. I am, &c.,  
ARTHUR MOREN, M. D.,  
City Medical Officer.

### From H. C. Herbert, M. D., F. R. C. S., Surgeon Major.

MR. B. LAURANCE has fitted me with glasses which suit me admirably, and I recommend persons whose vision is defective, to consult him when lenses are required.  
H. C. HERBERT, M. D., F. R. C. S.,  
Surgeon Major, A. M. D.  
November 20, 1882.

### From Ex-Mayor Dunbar.

HALIFAX, N. S., Oct. 23, 1882.  
B. LAURANCE, Esq.,—  
DEAR SIR,—I am using a pair of spectacles purchased from you 18 years ago at the Halifax Hotel, and they suit me as well to-day as when I first used them.  
WM. DUNBAR,  
Ex-Mayor of Halifax.

### From James A. Smith, Esq.

NO. 1 LOGEMAN STREET TERRACE,  
Halifax, Oct. 23, 1882.  
MR. B. LAURANCE,—I have worn glasses since I was ten years of age and am now in my fifty-seventh year and until this minute I have never possessed perfect sight, and in my profession as a school teacher I can now appreciate the way in which I now see even the smallest type by artificial light by the aid of your lenses.

### From Dr. Jennings

MR. B. LAURANCE, of London, has shown me a great variety of spectacles, all of which bear close examination. The lenses are well polished and the mounting beautiful and substantial. I can see more distinctly through his glasses than any others I have tried. I will recommend them to my patients.  
EDW. JENNINGS, M. D.,  
Visiting Surgeon to the Provincial and City Hospital, and President of the Medical Council of Nova Scotia, etc., etc.

### From Dr. Tobin.

9 SOUTH STREET, Halifax, N. S., 13th Oct. '82.  
I hereby certify that I have examined several specimens of Lenses and Spectacles made by Mr. B. Laurance, of London, and have found them well cut and mounted and thoroughly servicable articles.  
WM. TOBIN, F. R. C. S.

### From Dr. Slayter.

HALIFAX, Oct. 13, 1882.  
DEAR SIR,—I have examined your stock of Lenses and can only say that they are the most perfect set of glasses I have seen in Halifax. I believe you to be well posted in your business and thoroughly well able to correct the various defects of vision in those who may consult you. I am, &c.,  
W. B. SLAYTER, M. D.  
B. LAURANCE, Esq.

### From H. Kesslein, Esq.

HALIFAX HOTEL, October 12, 1882.  
Eighteen years ago, Mr. B. Laurance, of London suited me with spectacles. I have them now and they are as good as when I purchased them and my eyes do not require a stronger power.  
HENRY KESSELEIN.

## Temperance Legislation.

The Toronto Globe notes, as a significant indication of the spread of temperance sentiment in the United States, that the question of a prohibitory amendment to the Constitution is under discussion in Missouri; and says:—The Southwest is about the last locality in the Union in which we might expect such a movement to obtain headway. As a rule, the people of the South have never favored restrictive liquor legislation, and even moral snasion has few adherents in that section, where the consumption of liquor is much more general than in the North. Furthermore, there is a large German element in the State, and the Teutonic citizens are everywhere disposed to resist all interference with the sale of liquor. That prohibition should be regarded as even a possibility in Missouri is no slight test of the progress made of late years by the temperance reform. There are signs that in the States the question is passing from a local into a national issue. The system of local State prohibition is attended by similar drawbacks, though of course in a smaller degree, as that of local option, under which the traffic may be prohibited in one town while permitted in the next. As a prohibitory town or country under our law is placed at a great disadvantage in the attempt to suppress the sale of liquor by being surrounded with a cordon of license-granting municipalities, the principle cause why prohibition is not more thoroughly successful among our neighbors is the difficulty of preventing liquor from being smuggled in from the adjoining States. Another difficulty which has been seriously felt in Maine and Kansas is that the national license system is in full vogue in prohibitory States, the Washington Government taking no notice of the State laws. The anomaly is presented of the General Government extending its sanction to a traffic that is put under the ban of the State law. For these reasons there is a growing opinion among temperance people in the States in favour of making prohibition a national question, and by a general law or an amendment to the Constitution making the liquor manufacture and traffic a penal offence throughout the Union. In Canada there has been a decided advance in temperance sentiment, such as to justify the most encouraging expectations as to future progress. Our present legislation may be described as on the whole abreast of public opinion.

## Where to Put a Kiss.

An esteemed young friend asks a funny question. He wants to know where he shall put his kiss. Probably any number of people, without much thought, would rush rashly forward to tell him all about it and consider the conundrum a perfectly easy one. The problem, however, is really very difficult, and anyone who has had experience enough to know what kissing is will shrink from quick or direct advice on the subject.  
The trouble on the young man's mind seems to be regarding the proper place for the kiss. He does not feel certain whether he should kiss his girl on the lips or the forehead, or the chin, or the cheek, or the hand. There are some young men who would regard the poorest of all these chances as the extreme of bliss. But such young men lack the snap and enterprise which a wide-awake and desirable girl rather likes. The young man who hesitates and trifles with uncertainty about the proper site on which to build his kiss will lose the delight of kissing. If there were a worse fate he would deserve it. There is, however, no worse fate.  
Kissing the hand is a very neat but colorless sort of compliment. It is unsatisfactory to both parties, they say. We are also reliably informed that kissing the forehead or the chin is a cold sort of thing and not largely indulged by people of good taste. The cheek, if not too hard, is understood to be very fair kissing ground, but good judges have generally agreed upon the lips as offering superior inducements. If his mouth is not too large or his girl's mouth too small, or if his girl's mouth is not too large and his too small, perhaps the young man had better stick to the lips. If there is anything sweet in a kiss—and doubtless there is—he will find it there.—Philadelphia Times.

## Canadian News.

Winnipeg journals report great activity in mining matters in different parts of the Province.  
The Grand Trunk Railway it is said wants to sell its road between Quebec and Richmond to the Government as part of the Intercolonial Railway.  
At Montreal the customs revenue for the year just closed was \$8,431,663, an increase of \$829,000 over 1881. Inland Revenue receipts were \$1,533,518, an increase of \$179,205 over the previous year.  
The Canada Pacific Railway Co. has been enabled, owing partly to the high standing of the Directors but mainly to the unparalleled vigor with which they have prosecuted the work, to make ample provision for future engagements.  
A cablegram states that the reports of the Grand Trunk and Western Railways have been issued, together with the statements of accounts to the 18th August last. The accounts show a balance available for dividend of 1st and 2nd preference stock of \$170,000, or three per cent. on both stocks.  
Horsford's Acid Phosphate  
FOR THE ILL EFFECTS OF TOBACCO.  
DR. C. A. FERNALD, Boston, says:—"I have used it in cases of impaired nerve function with beneficial results, especially in cases where the system is affected by the toxic action of tobacco."

## PARSONS' PURGATIVE PILLS

MAKE NEW RICH BLOOD,  
And will completely change the blood in the entire system in three months. Any person who will take 1 Pill each night from 1 to 12 weeks, may be restored to sound health, if such a thing be possible.
