**A NEW CHAMPION IS BORN!**

**... and Firestone FLASHES THE NEWS VIA DAILY NEWSPAPERS**

CONSISTENT, nation-wide advertisers since 1921 when their Canadian plant was opened, Firestone, from proved experience, turned first to daily newspapers to introduce the new Firestone Champion Tire and Firestone Leakproof Tube, this spring.

Response was immediate. In a single day car owners across Canada were asking for the new Firestone Champion Tire and Leakproof Tube. Mounting sales taxed Firestone production facilities, proving the pulling power of daily newspapers.

Firestone attributes its success to two factors—a quality product and consistent advertising.

One of a series of announcements featuring specific examples of the power of newspaper advertising to build business.

Answer No. 13

By keeping Maritime money at home, by retaining in the Maritimes, for example, the million dollars a month which is exported for life insurance premiums, a vast improvement in Maritime conditions would result and Maritime young people could remain at home.
