Gov't Seeks To Cut Down On Telephone Costs

OTTAWA, May 10 — (CP) — The Commons public accounts committee was told today the Government expects to spend \$8,595,000 this fiscal year for telephones, telegrams and postage but, an official said, an attempt is being made to cut down on long distance phone calls.

Robert Bryce, Assistant Deputy Finance Minister, said the postage bill for mailing out family allowance cheques alone is \$875,000 or not far short of the entire bill for the three items in 1932-33. The total cost for telephones, telegrams and postage in that year was \$980,248.

Mr. Bryce, under questioning by W. J. Browne (P.C.-St. John's West), said the Treasury Board has investigated in an effort to cut down long distance calls. But it was "very hard to lay down a general ruling."

However, he felt the number of long distance calls had been "materially reduced" by putting in government-leased lines between Ottawa and Montreal and Ottawa and Toronto. This had been done within the past two years. The control over those calls rested with the various departments.

Senator McIntyre On The Margarine Question

A misconception regarding the margarine situation in this Province was corrected in the Senate recently by Senator J. P. McIntyre, as will be noted from the following excerpt from Hansard of May 2nd:

Hon. Mr. Euler: "To my surprise a week or two ago the Minister of Agriculture in Prince Edward Island announced that at the coming session of the legislature a bill would be presented to legalize the manufacture and sale of margarine. Thus, Quebec will have what I should regard as the very doubtful distinction of being the only province in Canada which deprives its people of this nutritious and inexpensive food, margarine."

Hon. James P. McIntyre: "I do not intend to participate in this debate, but I wish to correct a statement made in the course of the remarks of the Hon. Senator from Waterloo. I recall that when the Hon. Senator first introduced his bill to amend the Dairy Industry Act, three or four years ago, it was defeated. But that did not discourage him, and he reintroduced it a second and a third time; and on each occasion it failed to pass. Later he had the pleasure of hearing the Supreme Court of Canada proclaim that it was lawful to manufacture and sell margarine in Canada. This afternoon he stated, perhaps unintentionally, that the Minister of Agriculture of Prince Edward Island had introduced in the legislature—"

Hon. Mr. Euler: "Excuse me, but I did not say that. I said the minister had made a declaration that margarine was going to be made legal."

Hon. Mr. McIntyre: "But that is not the case."

Hon. Mr. Euler: "I did not say that he had introduced a bill."

Hon. Mr. McIntyre: "But there was a bill introduced in the Legislature to make the ban on margarine coming into that Province more stringent."

Hon. Mr. Euler: "Well, it was to come into the Province."

Hon. Mr. McIntyre: "No; it cannot come into the Province. The bill has not been proclaimed, and it will not be proclaimed until the Privy Council renders its decision which, I understand, will be in June."

"As honourable Senators know, Prince Edward Island is an agricultural province. I fought the Dairy Industry Bill every time my honourable friend brought it before the house, and I am still of the opinion that margarine is injurious to the agricultural industry of the Dominion of Canada, and particularly to that of Prince Edward Island. My honourable friend is looking to the welfare of the consuming public in the larger centres in Canada, and I do not blame him for doing so, but it could be sold at a lower price. I feel that the removal of the sales tax of 8 per cent on margarine would be injurious to the agricultural interests of this country, and particularly to those of Prince Edward Island."

Scout News and Notices

On Thursday evening, May 4th, a Scouters' Social was held in Zion Hall. The evening began by showing a couple of films which were thoroughly enjoyed by all. This was followed by a short meeting and discussion of plans for spending June 6th at Camp Buchan. The discussion was carried on over lunch and ideas were exchanged regarding new entertainment for the Scouters' Club socials. An outside activity was planned for the next meeting. The meeting was brought to a close by the singing of the National Anthem.

Credits Cow With Saving His Life

LINCOLN, Neb., May 9—(AP)—K. B. Gilmore, caught in a flood last night, credits a cow with saving his life.

Gilmore was driving to Lincoln with Norman Prucha when high waters sent Gilmore's car swirling off the road into a ditch.

The men got out of the car through the windows. The water picked Gilmore up and started washing him across a field. Then, he said, he saw the cow.

"I threw my arms around the cow's neck and hung on. That cow saved my life," Gilmore told rescuers.

Prucha grabbed a telephone pole and held on.

The shouts of the men attracted a National Guard rescue crew. The guardsmen reached and rescued the men in a "duck", an amphibious military vehicle.

CHARGES EVIL ORGANIZATION

MILAN, Italy, May 10—(AP)—Idelfonso Cardinal Schuster, Archbishop of Milan, charged today that a Communist-sponsored youth organization deliberately trains children to curse volubly and to acquire "evil habits." The Milan Prelate threatened with excommunication any Roman Catholic parent permitting children to enroll in the "Italian Pioneers," a movement sponsored by the Communist Party and its Allied Union of Italian Women.
