VETERAN HORSE SHOWMAN

The oldest exhibitor of horses at the Prince County Exhibition in Alberton was Maxim Gallant of Pisquille, 81 years of age — above with the fast moving roadster which captured first place in her class.

Shaw Reveals Gov't Will Probe Turnips

Recommendations and suggestions aimed at preventing the decline of the turnip industry in the province, presented to the provincial government Thursday by representatives of the Atlantic Provinces Economic Council, will be investigated and acted upon where possible, Premier Walter R. Shaw said yesterday.

According to APEC, Island turnip exports showed an 80 per cent drop over a 10-year period.

Recommendations as to how the industry here can take steps to meet competition from other areas were advanced by APEC.

Agriculture Minister Andrew MacRae said yesterday morning "we concur with the findings of APEC but to a great measure, improvement in the late turnip industry rest with producers, and dealers — in other words, mostly within the industry itself"

Two meetings were held on Thursday to discuss the report and consider ways to aid the ailing industry. Island directors of the Atlantic Provinces Economic Council met at The Charlottetown Hotel following a noon meeting of APEC representatives with Premier Walter R. Shaw, Andrew MacRae, minister of agriculture, and others directly concerned with the turnip industry.

William Hayward, vice-president of APEC for P.E.I., presided at both sessions.

Among those included in the discussions were, S. C. Prescott, Halifax, chairman of the APEC food products committee; Robert Boutilier and Len Limpert from the council's Halifax office, and Lincoln Dewar, representing the P.E.I. Federation of Agriculture.

Island Food Plants Ship To Europe

Seven hundred tons of frozen food — mainly peas and french fries — will be shipped to England and West Germany next month, it was disclosed yesterday.

Prospects for further large orders later in the fall were also held bright.

Seaman Bros., of Canada located at New Annan will ship a 200 ton cargo aboard a ship late Sept. 1, and P.E.I. Frosted Foods in Charlottetown has a 500-ton shipment to leave by freighter due in Charlottetown Sept. 7.

Alaskan Eskimos Absorb Massive Radiation Dose

WASHINGTON (AP) — Evidence was reported here that Alaskan Eskimos have absorbed radiation doses exceeding at least average permissible limits — from eating reindeer and caribou meat containing unusually high concentrations of bomb-test fallout.

Another report from U.S. Atomic Energy Commission officials said Alaska has experienced "somewhat higher" fallout than any other state—primarily because it's the first region hit by the early fallout from Russian nuclear tests in polar latitudes.

H. M. Parker, manager of the AEC's Hanford Laboratories at Richland, Wash., who told of the Eskimo radiation findings, stressed that he did not believe they are in any danger.

But he added, in testifying at fallout hearings being held by the Senate-House Joint Committee on Atomic energy committee:

"This is not to say that in the long term it would not be dangerous . . . and if I were a resident there, I'd begin to look around to see how reasonable it would be to substitute some other kind of food (for reindeer and caribou.)"

Burglars Miss $351,875 In Safe

MADISON, N.Y. (AP) — An additional $351,875 in cash has been found in a wealthy widow's safe, from which an estimated $250,000 was stolen earlier this week, state police reported here.

Police said they had broken open an inner compartment in the five-foot-high safe and discovered the home of Mrs. Grove Hinman, the widow, said she had not known the money, apparently left by her husband, was there. Its discovery does not change the estimate of the amount missing, police said.

Thieves had knocked the outer door off the safe, stealing $250,000, apparently while Mrs. Hinman was away from home Sunday. Mrs. Hinman explained after the theft that she generally kept money at home because that's where her husband kept it.

Her husband, Ronald, 24, was taken to jail Wednesday. Both were sentenced to 28 days for contempt of court. They were married two months ago in defiance of a court order, granted to Patricia's parents, that they should keep apart. Her parents opposed the match because the pair are first cousins.

"Don't worry," Ronald told his bride before the prison gates clanged shut. "I'll get you. It will soon be over."

Parental consent is required for persons under 21 to marry in England. The couple forged a declaration of consent from Patricia's parents.

High Court Justice Neville Faulkes told the pair:

"I am instinctively revolted against sending you to prison. But once it is publicly known that such an order has been broken, the court must make it plain that such disobedience will not be tolerated."

Despite the forged consent form, the marriage is binding.

PRODUCTION UP

MONTREAL (CP)—The Newsprint Association of Canada reported Canadian newsprint production in July was 561,105 tons, compared with 527,463 tons in the corresponding month last year. Production rate in July was 78.5 per cent of the rated capacity, as against 78.6 per cent in July 1963.

BOSWELLS TAKE BANK TROPHY

The Canadian Imperial Bank of Commerce silver tray for the best group of three dairy animals any breed at the Alberton Exhibition was awarded to Ayrshire exhibitors, Keith Boswell and Sons of Victoria. The presentation was made to Bryce Boswell (right) by Arthur L. Tibbetts, manager of the bank's Alberton branch.

DAILY MARKET QUOTATIONS

SUMMARY

By THE CANADIAN PRESS

Toronto: Market higher; light trading.

New York: Market higher; heavy trading.

Montreal: Market remained higher; moderate trading.

CURRENCIES

MONTREAL (CP) — The United States dollar in terms of Canadian funds was down 1-32 at $1.08 3-32.

Pound sterling was unchanged at $3.03 3-16.

Proposed Livestock Yards Are Discussed

A four-man committee from the P.E.I. Beef Producers Association headed by President Daniel Gass, Cornwall met Thursday afternoon with Premier Walter Shaw and executive council members who are on the ARDA committee, to discuss with them the proposed livestock marketing yards.

The delegation was received courteously, the proposal discussed extensively and the committee was assured by the premier that it will receive the most careful examination and study.

The association hoping that the development—it will cost something close to $70,000, including the cost of land for the site, it has been estimated—may receive the assistance that is available under the ARDA program. The premier said Thursday, it was reported by committee secretary J.L. Dewar, that if the project is considered to be feasible after study, that it may very well be considered by the ARDA authorities.

Other association members present at the meeting were Lloyd Lockerby, Hamilton and Knud Jorgenson, Fredericton.

Retiring Army Officer Named To Red Cross Post

The national officers of the Canadian Red Cross Society have announced the appointment of Major-General Arthur P. Sherwood, C.B.E., C.D., M.Eng., as national commissioner of the society. He succeeds the late Dr. W. S. Stanbury, M.B.E., who died in December of November, 1962, while he was attending a Red Cross conference in Puerto Rico.

General Wrinch moves to the Red Cross post following over thirty years of service with the Canadian Army (Regular).

General Wrinch was born in Hazelton, B.C., and received his early education at Hazelton Public School and Prince of Wales High School, Vancouver. He graduated with honours from Royal Military College, Kingston in 1931, and in 1936 obtained his Bachelor of Science degree in electrical engineering from Queen's University.

In 1931 he was commissioned a lieutenant, Royal Canadian Signals. During his subsequent

MAJ.-GEN. WRINCH

distinguished army career, in which he rose to the rank of Major-General, he gained valuable experience in communications, natural and nuclear disasters, supplies and transport, and personnel, all of which will prove a distinct asset in his new position.

General Wrinch is married and has one son. He will assume the post of Red Cross national commissioner on October 15, following his retirement from the Canadian Army.

PM Praises Old Toronto

By JAMES NELSON

TORONTO (CP) — Toronto's old - fashioned stodginess, now giving way to the age of speed, has won praise from Prime Minister Pearson when he was given a civic reception in the city hall council chamber.

He is the third prime minister to be so honored and Lieutenant-Governor W. Earl Rowe—whom Mr. Pearson described as an old political antagonist and long - time personal friend — made his first visit to city hall for the occasion.

Mr. Pearson, who received a painting of rural Manitoba scene chosen by Mrs. Pearson, said Toronto has a reputation across Canada for its stodgy Anglo-Saxon base but this is rapidly changing with a broader outlook and a multi-racial population.

"We have gained something in speed, but we may have lost something in stability," the Prime Minister said.

Fired Clerk Wins Case With Bank

VANCOUVER (CP)—Marshall Bluck, a bank clerk fired almost two years ago, had accepted an out-of-court settlement of $24,794 from the Bank of Montreal, it was disclosed here.

Bluck, 47, head of the Bank Employees' Association, said the settlement "proves to bank employees that they have rights which can be enforced."

"I hope the bank employees can now go ahead and organize."

Bluck claimed he was fired for attempting to organize bank employees into a union. The bank denied this, saying Bluck was fired for incompetence.

Bluck, a Toronto native who worked for the bank 27 years, sued the bank under the Federal Industrial Disputes Investigation Act for wrongful dismissal.

A city magistrate upheld his suit, but a county court judge later threw out the lower court judgment and ruled the bank did not wrongfully dismiss him.

Bluck said he intended to appeal the county court decision before out-of-court talks began.

Walter Owen, counsel for the bank, said the settlement accepted by Bluck was the same he refused when asked to resign from the bank.

EMERGENCY OPERATION

John W. May, 13-year-old son of Professor E. May of the University of Toronto, underwent an emergency operation in the Western Hospital yesterday. Professor May and his son have been visiting Dr. and Mrs. G. Hellmich at Alberton.

HERE FOR WEEKEND

Mr. and Mrs. Wesley Oliver arrived yesterday from Munroe, Maine, to spend the weekend with relatives in Alberton.

WESTERN BRIEFS

Human Interest Evident During Exhibition Days

By ALICE GREEN

ALBERTON — "Looking backward" over the Alberton Exhibition days it is surprising to note how much of human interest centred about small things.

Typical of the happy atmosphere were three small children, who appeared to be two or three years of age. They were observed leaving the main building with arms about one another and singing a gay little tune.

Less happy, however, was the little lad of three or four who became separated from his adult companions. He was found in the big men barn in which the Holsteins were housed. An announcement was made over the public address system and before long he was united with those who had come with him.

HONEST BOY

An eleven-year.old boy from O'Leary found a lady's wrist watch on the grounds and brought it to the office. A few minutes after announcement had been made of the find, the watch was claimed by an Alberton lady. In appreciation of the lad's honesty, she left a small reward which he accepted with a big smile.

Boys and girls, many of them tourists, were fascinated by the copper enamelling demonstration by Mrs. Vernon England and by the gem stones with which Mrs. William O'Brien crafts jewellery.

One small local girl kept eyes on the kiln half a morning. A very young gentleman spent a considerable amount of time and thought in selecting a gift for his girl friend.

Especially to those who love farm life it was a delight to see boys and girls handling their calves in the show ring. One knew that behind that moment lay many hours of care and training.

PATIENT HANDLING

Show ring behaviour does not come naturally to young calves, it is learned during long hours of patient and affectionate handling. In the well filled classes there was opportunity for each exhibitor to learn to be a good winner or a good loser. It is comparatively easy to be a good winner but it takes good courage and a generous spirit to be a good loser.

The ponies and two small foals delighted everyone. One of these wee foals was trained to halter.

Out in the barns was the smallest and youngest member of the very large livestock family at the exhibition. It was a five day old Angus calf, with its very sturdy little 55 pound body atop four very short little legs.

The most exciting small thing, missed by most people, was a small fire in a booth where a french fries were being made. Perley Hardy and the fire truck were on the grounds so the fire was very quickly extinguished.

For a few of the many hundreds of people who attended the exhibition the most thrilling was a small flight. Mr. McIlwaine had his small plane on hand and a number of folks enjoyed their first experience in the air.

Burglar Gets Long Jail Term

CHARLOTTETOWN (CP) — Ronald Joseph Gallant, 20, of Charlottetown was sentenced to two years in jail Thursday after pleading guilty to breaking and entering the Charlottetown Co-operative Association Limited and stealing $1,000 worth of cigarettes.

Gallant was also charged with breaking and entering the Charlottetown Co-operative Association Limited and stealing $1,000 worth of cigarettes.
