

# Big appliance handsome gift

The most appreciated gift a homemaker could receive is the gift of convenience—in the form of a major appliance. With every step she saves, with every extra minute devoted to leisure, she'll think gratefully of her Christmas gift from the family.

Dad and the family should first determine Mom's needs when buying an appliance gift. Ranges, dishwashers, refrigerators, freezers and other major appliances, come in many different styles and models, to suit any kitchen dimensions.

One of Mom's most distasteful jobs, defrosting the refrigerator, can be eliminated with one of the new frost-free refrigerators or refrigerator-freezers, which keep foods cold, prevent sticking of frozen foods, and defrost automatically.

New models come in both vertical and upright models and new look counter-top styles, with a lighted work-space for food preparation. Double doors are another convenience incorporated into new refrigerators and freezers.

Automatic ranges are a boon to the busy homemaker, with unattended cooking and their outstanding features. A special control reduces the temperature when food is done, keeping it at serving temperature without drying it out or cooking it any further.

Top-of-the-range automation makes every pot automatic, reducing temperature or shutting off at the proper time. New eye-level and wall ovens save stooping and bending.

One new innovation is the electric range that cleans itself, saving Mom from that back-breaking chore.

From a luxury to a necessity—the automatic dishwasher has become one of the most popular household appliances, and one of the most work-saving. All Mother need do is scrape plates, glasses and pots—the dishwasher does the washing and drying. These are quite compact and the new slimline models fit into most any space.

To lighten Mom's washday drudgery, give her a new washer, dryer, or washer-dryer combination. Newest models have push-button controls for

## Music for the young

To give children Christmas presents with a future, consider musical instruments—a long with music lessons, too. For younger children there are instruments designed especially for small hands. At age eight or 10, standard-size musical instruments can be handled with comfort.

every washing step, eliminating much of the guesswork and time-consuming watching of older machines. Another consideration in picking Mom's Christmas appliance is color. Almost all major appliance companies offer color-coordinated appliance groups.

For the family with a small kitchen or budget, there is a bigger-than-ever variety of compact and portable models which incorporate modern efficiency and styling with small dimensions.

This Christmas more than ever, stockings provide Santa with happy solutions for present problems, as a galaxy of new styles, textures, colors appears on the fashion scene.

Diamonds are a fair lady's best friend—and not beyond Santa's pocketbook—when they are "diamonds," new patterns in seamless stockings of textured nylon.

Herringbone and ribbed patterns are other favorites. For a girl who loves dancing, a gift box of sheer, sandalfoot seamless stockings could be a happy choice.

### THE WORLD OF GIFTS

FOR CHRISTMAS

### RANGE FOR THE HOME

The holiday meal and many meals to come will be easier for Mom to prepare with a new electric range gift. New features, such as glass door, meat probe, automatic timers, save time and trouble with holiday feasts, big-batch baking or day-to-day cooking chores, help even a new homemaker produce perfect results. There are models to suit every need. Complac range by Philco.

# Man could help woman guild lily with beauty aids

Long a favorite on Christmas lists, beauty gifts are one of Santa's standbys when it comes to choosing something feminine for her, yet each year they're new and different.

From new developments in beauty products to fresh approaches in the way they're packaged, this gifts category always offers opportunities to please and surprise women of every age, along with the assurance that the presents will be welcome and used.

Types and prices of beauty gifts are varied, too. A beauty gift could well be her "big" present this Christmas—a portable hair dryer, for instance.

On the other hand, there's a wealth of little beauty gifts,

ideal for gifting her with the many small packages that add a lot of extra pleasure. Pursue spray cologne, fragrant soap, bath powder or bath mitt was just some of the possibilities.

And if Santa wants to make her beauty gift really different, how about false eyelashes—or a wig? Since Santa's a man, he may think such suggestions sound far out—but many a busy woman will tell him they're really practical!
