AN action for slander has been instituted against Carroll, the Earl of Limerick's rent warner, by Dr. Connolly, who asserted on Carroll's information that the doctor had conspired to murder him. Their report characterizes the cells as "chambers of horrors." THE store of Mr. Charles Murray, at Campbellton, was entered by burglars Monday night, and about \$50 worth of goods stolen. The burglars searched the till and desks, but found no money. Mr. Murray has obtained a search warrant, with the view of searching the premises of a suspicious character, who has figured in burglaries before. VERY destructive fires are reported in the woods at Fifteen Point and other places west. It is said that quite an amount of fencing and so small quantity of grain have been destroyed at the above place during the past week. The cause of the fires having gained such headway has been of course the extremely dry weather. A SPECIAL from Macon, Mo., says the town is greatly excited over a tragic event growing out of a late scandal. George Stewart met Walter Tracy on the street and shot and killed him. Both were well known. The murder grew out of the refusal on Tracy's part to live with Stewart's sister, whom Stewart compelled Tracy to marry a few weeks ago. Stewart escaped. CRICKET.—The match at Newcastle on Wednesday between Moncton and Newcastle Cricket Clubs, resulted in an easy victory for the former. In the first innings Moncton scored 101 and Newcastle only 59. The game was accordingly decided on the first innings. In the meantime the journalists will visit St. John, Halifax, Charlottetown, Summerside, Shediac, Moncton, etc. MR. JOAQUIN MILLER says that he sighs for a city where "the cruel civilization of modern empires is unknown," and where there is "rest and quiet and peace to suit the hour of dreams"; a city "hedged in from bustle and feverish rush for gain," a city "placid as the moonlit lake and natural as a maiden's blush"; a city where "a poet may seek and find content, genial ears and healthful hearts"; a city where "ambition slumbers and nature yields the sceptre over all." Mr. Miller had better come to Charlottetown. A TRIO OF TRIPLETS.—A number of ladies at Philadelphia and New York spending the summer at Island Heights are actively engaged in raising donations of money and clothing for a Mrs. Johnson, who has just given birth to the third set of triplets. The latest arrivals are three chubby, crowing children, the very picture of health—and all girls. The only way that they are distinguished from each other is by their clothes, which some of the ladies had mischievously marked Faith, Hope and Charity.—Ontario Paper. MESSRS. MANCHESTER, ROBERTSON AND ALLISON, of St. John, N. B., will have an exhibition at the St. John Centennial Exhibition a Model Working Dairy, with all appliances necessary for the making of butter. The London Times states that the management of the American railway system causes general distrust in Europe, weakens the market for railway securities, and restricts the aiding of American enterprise by English capital. The Emperor William reviewed the Guards at Berlin on the 29th, instead of on the occasion of the anniversary of the surrender of Sedan. It is reported that it is out of deference to the feelings of the French that the Emperor decided to thus change the day of review. A despatch from Victoria, British Columbia, announces the adjustment of the misunderstanding between that Government and the Dominion. The railway is to be constructed, the grading dock to be Dominion property, and the railway lands to be thrown open to actual settlers. There was a man, he had a clock, His name was Matthew Mears; He wound it regular every day For four-and twenty years. At last his precious time-piece proved An eight-day clock to be: And a madder man than Mr. Mears You'd never wish to see. At Salmon River, eighty miles from Halifax, there stands a small saw mill, built and operated by Bill Thompson. He got the lumber out of the woods, cut it up, made the frame, put it together, and got it up—all by his own labor and without any assistance from any one, save an hour's help one day from one of his brothers. This is probably the only instance of the kind in Nova Scotia. A despatch from Settinge says a reign of terror exists in the village of Kossovo, Albania. The Arnauts are murdering the Christians. All the latter who can get away are fleeing. The Turkish officials connive at the outrages, and have arrested and exiled a number of priests. In the Ipek district ninety-two persons were murdered. A Halifax woman appeared before the Stipendiary Magistrate of that city on Tuesday morning, and desired that something be done with her husband. She complained that he had not lived with her for a number of years, and in the meantime had been married to two or three other women. He is a Frenchman, and a short time ago was before the court, charged with attempting to blow up a house with dynamite. As he is at present residing at Windsor, the Magistrate did not think he could do anything in the matter, and the woman departed, remarking that she did not think her husband was a safe man to be allowed at large. The treaty of peace between France and Annam allows France to station residents in all the chief towns of Tonquin, who are to be accompanied by the necessary number of troops. France may also construct forts on the banks of the Red River. The French resident at Hue is to have a privilege, which has formerly been refused, of private audiences with the sovereign. Cochin Chinese money is to have currency throughout Annam, and commercial customs and system of taxation are to be regulated by a conference, to attend which the French envoy is about to go to Hue. The Annamites, having requested that French legation at Hue be reopened at the earliest possible day. M. Champlanx has been appointed to proceed thither and assume charge of affairs. Decorations and presents for the King and the Annamite ministers will be sent to Hue shortly. The blockade between the Island of Hong and Paklong will be maintained for the present. The treaty also stipulates that Annam shall recover 2,500,000 francs annually from customs receipts. A VERY interesting marriage took place in a Methodist church, at Montreal, on the 27th ult., three ministers of that faith taking part in the ceremony. The youthful bride was a daughter of a well-to-do Indian in Oka, and the bridegroom the schoolmaster of the village, and a native also. The bride was elegantly dressed in silk, and is said to be quite attractive looking and well educated. It used to be the festive grasshopper, the potato bug, the army worm, the hog cholera. This year it is floods, earthquakes, and cyclones. Men constantly need reminders that they are not here to stay. A YOUNG man writes: "I have used Mack's Magnetic Medicine and am much pleased with the result. It has cured me after doctors and other medicines had failed." See advertisement in another column.
