Mr. C.P. McCarthy, B.A., Tignish, Addressed The Graduates—Review Of Year's Work By Rev. Dr. Murphy, Rector Of S.D.U.

"Gentlemen graduates, although this is essentially your day, and you are justly entitled to the congratulations that are being extended to you, and in which I heartily concur, yet this day, it must not be forgotten, has more significance for you than the mere celebration of a worthy event, the realization of a long-deferred hope," Mr. C. P. McCarthy, B. A., Tignish, said in his address to the graduating class of St. Dunstan's University at the 82nd annual commencement yesterday. "It marks a turning point in your lives," the speaker continued, "a milestone toward which you have directed your common course, a goal that has been attained not solely through your own individual efforts but aided by competent guidance and direction and whence you must now journey forth alone."

The speaker then went on to "review briefly conditions as they exist today and more particularly as they apply to the land we live in." Summing up the situation he told the graduates that "if constitutional government is to survive, it is clear that something must be done to restore the prestige of citizenship and protect the rights of the masses. We must repudiate the triple alliance of graft, greed and selfishness and substitute therefore the virtues of honesty, self-denial and charity. In a word, we must develop a new national ideal founded on the spirit of Christianity and with the avowed intention of putting the State above party and to ensure that the power which has so immense an influence for good or evil on the lives of our citizens shall not be at the mercy of a political clique, or the servant of class interests."

The text of Mr. McCarthy's address is given in full below. Other speakers were, His Excellency Bishop J. A. O'Sullivan, Hon. J. P. McIntyre, acting premier, His Worship Mayor P. W. Turner, Hon. Mark MacGuigan, Minister of Education, Dr. W. J. P. MacMillan, and Dr. James MacDougall, Rumbold, Maine, formerly of Grand River, Prince Edward Island. Rev. J. A. Murphy, D. D., rector of St. Dunstan's University, delivered his annual report reviewing the work of the institution for the past year. Special mention was made by the Rector of the study clubs which were sponsored throughout the year by the University. Rev. Dr. Murphy's report appears in full in this issue.

The prize alumni essay was read by Mr. John A. McDonald of Cardigan and the valedictory by Mr. Joseph O'Hanley of St. Peters. Both the essay and the valedictory appear in this issue.

King Edward Will Unveil Vimy Memorial

(C. P. by Guardian's Special Wire)
OTTAWA, May 26—King Edward will unveil the Vimy memorial on July 26, Premier Mackenzie King announced today in the House of Commons. The President of France also will be present.

Church Called To Lead Slum Clearance Synod Is Told

HALIFAX, May 26.—The church was called to lead a new crusade against "ugly mills" and "scathing slums" Bishop John Hackett today told clergy and laity attending the 60th annual meeting of the Church of England Synod of Nova Scotia and Prince Edward Island. "We need a realization that the secular civilization built up by our immediate forefathers is worse than wicked," he declared in his annual synod address. "Notwithstanding its material luxury—its pride of intellect—its vast pretension—its advertised superiority over all that has been—we need to know and to admit that it is very hideous and very inadequate. . . . We need to feel the impulse toward a new crusade, in God's name, and for real men and women, amid our ugly mills, our scathing slums."

QUEEN MARY BEGINS MAIDEN VOYAGE TODAY

Thousands of Sight-seers Gather In Southampton to View Giant Liner.

(A. P. By Guardian's Special Wire)
SOUTHAMPTON, May 26—Tens of thousands poured into Southampton tonight to watch with pride and awe the greatest event in modern shipbuilding—the departure at 4.30 p. m. tomorrow (12.30 p. m. A.D.T.) on her maiden voyage to New York of the 80,773-ton liner Queen Mary.

More than 500,000 of them will jam the docks and the decks of excursion steamers while every detail of the great liner's departure, from the embarkation of passengers to engine room sounds, will be broadcast to the Empire and the world.

To better the time of the French liner Normandie the Queen Mary must attain an average cruising speed of more than 30.35 knots an hour, the record set by the French vessel on a return voyage to New York. On that run so far, the Queen Mary has steamed 32.84 knots, faster than any liner ever has gone before, but only a fraction above the top speed of 32.3 knots achieved by the Normandie.

The ship will carry 2,650 passengers to New York in four days time. There will be a call at Cherbourg. In length and size the Queen Mary yields to the Normandie. Recent structural alterations give the latter a gross tonnage of close to 82,000 tons. The Queen Mary is 1,018 feet long; the Normandie 1,029. The 118-foot beam of the Queen Mary compares with 119 feet for the French liner.

\$200,000 Grant To Aid Fishermen Of Nova Scotia

(C. P. By Guardian's Special Wire)
HALIFAX, May 26—Unanimous decision that Nova Scotia's 15,000 fishermen did not want the dole was expressed at a provincial conference today called by Premier Angus L. Macdonald.

Dr. F. R. Davis, minister of health, presided and congratulated the representatives who came from coastal sections of the province on "the fine spirit shown by men engaged in the industry."

Rescued From Drowning

HALIFAX, May 26—After being submerged almost five minutes, Gordon Perrier was saved from the waters of Halifax Harbor by Jerry Holland and rushed to hospital where his name was placed on the danger list tonight.

Change In Radio Broadcasting Set-up Recommended

Replacing Of Canadian Radio Commission By A Corporation Advocated By Committee Report

(C. P. By Guardian's Special Wire)
OTTAWA, May 26—Sweeping changes in the form of administering radio broadcasting in Canada, without departing from the principle of ultimate public ownership and control were envisioned today in the report of the special committee on radio tabled in the House of Commons by Chairman Arthur L. Beaubien (Lib., Provencher). The report was unanimous and brief, detailing only the framework of the proposed new set-up.

Parliament is invited by the report to enact legislation placing radio administration in the hands of a corporation with all the powers of that body and some additional authority. The corporation would be embodied in an honorary board of nine governors who would place at the head of Canadian radio activities a general manager and an assistant general manager serving full time.

The Canadian Radio Commission, a three-man body which has been at the head of broadcasting activities since nationalization of this utility began in 1932 was subjected to some criticism in the report, particularly in its handling of last fall's political programs. "We are forced," the committee said, "to the conclusion that there was a loose administration of commission affairs."

Particular emphasis is placed on the need for restrictions on political broadcasts, co-operation with private stations during the period of transition from partial to complete nationalization, and for co-operation with The Canadian Press in the arrangement of news broadcasts.

The committee urges Parliament to enact the necessary legislation carrying out its recommendations during the present session of Parliament. Motion for adoption of the report will be moved at a later date when members of the House have had an opportunity to digest its contents.

No Definite Date Fixed For Coronation

(C.P. Cable By Guardian's Special Wire)
LONDON, May 26—A proclamation setting a date for the coronation of King Edward probably will be issued on Friday, it was learned on reliable authority tonight.

It has been announced that the ceremony will take place in May 1937, but no definite date in that month has been set. May 27 was reported today as a likely date.

Name Delegate To F.W.I. Conference

(C.P. By Guardian's Special Wire)
OTTAWA, May 26—Mrs. Elizabeth Bailey-Frize of Vancouver has been appointed the official representative of the Federated Women's Institute of Canada to the third triennial international conference of the Associated Countrywomen of the World at Washington May 31 to June 7. It was disclosed today. More than 1,000 delegates from 37 countries are expected to attend.

Over 50,000 Workers Involved

(A. P. by Guardian's Special Wire)
NEW YORK, May 26—Police and National Guard officials were asked tonight to take precautionary measures in more than a half dozen sections of the United States where thousands of industrial and agricultural workers were on strike.

At least 50,000 were involved in the walkouts, according to labor estimates, and thousands more were involved in disputes of a varying nature which threatened to cause strikes.

There were few instances of trouble in the strike centres, the most serious being clashes between strikers and non-strikers in the California vegetable fields where three men have been shot.

William Green, President of the American Federation of Labor, declared the strikes were "a manifestation of what was bound to follow the Supreme Court's decisions destroying such great principles as the NRA and the Guffey Act established."

At Akron, O., 30 union workers of the Goodyear Tire and Rubber Company awaited trial on charges of violating a state anti-rioting statute. Three National Guard officials watched the plant.

At Portsmouth, N. H., an affidavit was filed in municipal court charging a special guard for the Wheeling Steel Corporation with directing company guards to fire 40 or 50 shots at a group of pickets early Tuesday. The guard was Al Bridwell, 48, former sheriff of Scloto County, National Guard officials investigated strikers' reports.

TWO VICTIMS UNIDENTIFIED

ROUYN, Que., May 26—Poor flying weather kept pilots Bill Rissigler and Gath Edwards grounded tonight and postponed to tomorrow at least the departure of a party for Lake Pushketamika to identify the last two of six men killed in an air crash.

Orders to stay on the ground came from Capt. Roy Brown, president of General Airways Limited, at Amos, 72 miles away. All day and during the early part of the night the two pilots had stayed close to their machines ready to take-off on the 140 mile trip to the scene of the crash when weather cleared.

Capt. Brown, piloted by Stuart Hill, left for Amos at dusk to check weather conditions before leading the party into the heart of Quebec's mining country where the six men perished. He messaged word to his pilots here to stay on the ground and said he would join them tomorrow if the weather cleared.

The known dead are pilot Wilson H. Clarke, 33, George Millham, 23-year-old junior pilot-mechanic, Leo Springer of Ottawa, a prominent mining man, a mine worker named Lucien DesGagnés and two others.

Pilots Bill Rissigler of Proctors Airways and Gath Edwards of General Airways meanwhile stood by here, waiting news of favorable weather conditions before taking off.

GREAT BRITAIN RE-INFORCES GARRISON

Arabs And British Troops Engage In Skirmish
PROBE ORDERED
Royal Commission To Investigate Cause Of Disorders.

(A. P. By Guardian's Special Wire)
LONDON, May 26—Great Britain has substantially re-inforced her military garrison in Palestine in an effort to curb outbreaks there, the House of Commons was told today by Malcolm MacDonald, temporarily assuming the duties of Colonial Secretary.

A royal commission is to investigate the cause of disorders in the Holy Land, partial responsibility for which is laid by the British press upon Italian anti-British propaganda. Representations have been made to Rome.

"Throughout the Near East," one official here said recently, "Italian broadcasts have for months told the people the British Empire was dying, and Italy's star in the ascendancy. Peoples all through there have been told to assert their rights, and throw off the domination of British oppression."

(Italian spokesmen have vigorously denied responsibility for the Arab outbreaks.)
The London Star in a recent editorial asserted: "By bribery and other methods disaffection is being fomented among the Arabs with an eye to the embarrassment of Britain. Similar methods with similar aim are at work in Egypt."

JERUSALEM, May 26—Rifles barked across the Biblical Jezreel Valley today in a brisk skirmish between British-officered troops

(Continued on Page 5)

(C. P. By Guardian's Special Wire)
Moderate to fresh winds; fair and rather cool. Followed by showers at night.
