LOCAL AND OTHER ITEMS.

FRANK OF THE SEASON.—The Citizens' Band played in the public garden last evening.

FRANCE.—Professor Arsenault's French class will meet this evening at half past seven o'clock, in A. A. McLean's law office.

FORESTERS' ATTENTION.—All Foresters are requested to attend regular meeting of Court Aquilone to night at 8 o'clock. Payment of monthly dues.

SENIOR SOCIETY.—The Senior Society of the P. E. Island S. S. Association opened in Zion church this afternoon at 2 o'clock. A large number of delegates have reported.

POLICE COURT.—This forenoon John Kelly, a sailor, was fined \$2 or 10 days, the fine not to be imposed if he should leave the city within twenty-four hours. Another drunk was fined \$2 or 10 days.

PARSONS.—The Rev. Mr. Woodford preached his farewell sermon in the church at Souris on Sunday evening last. He closed for his text the words, "Whosoever a man loveth that shall he also love."

FOR THE HARVEY HOTEL.—Duncan McMillan, who was yesterday sentenced to two months' imprisonment for violating the Canada Temperance Act, will pay his respects to Mr. Harvey this evening about seven o'clock.

LACTURE.—Rev. W. W. Weeks, of Montreal, will lecture in the Charlottetown Baptist Church on Tuesday evening, Oct. 23rd. Mr. Weeks is well known as one of the best platform speakers of the Province. Subject and other particulars later.

FROM BOSTON.—The steamer Halifax arrived from Boston about four o'clock this morning, bringing a miscellaneous freight and the fall wing passengers: George Cole, William H. Trainer, Peter Mackenzie, Master Douglas, Mrs. E. McSweeney, Mrs. J. L. Marshall, Minnie Coady, Annie Walker, Gertrude Hoar, S. E. Butcher. The Halifax will leave on return to Boston this evening about six o'clock.

THE FIRE AT SOURIS.—The burning on Saturday evening of James McCormack's barn and contents at one time threatened the destruction of adjacent buildings, which might have resulted in a general conflagration of the eastern part of the town. Mr. George Pyke, of Halifax distinguished himself in preventing the spread of the fire. Only one man and a few other brave and active men present, the result would undoubtedly have been much more disastrous than it was.

THEIR ARMS INJURED.—On Saturday night, according to the Standard, a horse driven by Mr. Hugh J. McNeill, Agent of the Temperance and General Assurance Company, took fright at a cow near Travellers' Rest and ran away. Before Mr. McNeill could get the animal under control, he ran into Mr. John Connors' team, which was coming in the opposite direction. Both gentlemen were thrown from their carriages, and Mr. McNeill had his right arm broken just below the shoulder. It is said that Mr. Connors' arm was also injured.

POCKETED THE INTEREST.—It is not so long ago since the city treasurer of Philadelphia was found to have pocketed the interest on all the city monies deposited in the banks, and that official is now doing time in the State Prison for his offence. The lesson taught by his experience does not appear to have been heeded in other Pennsylvania cities. In Pittsburgh, for example, it has just been found that \$50,000 has been pocketed by city officials in the same way, and they are now under legal awaiting the action of the grand jury. It is an offence that seems to be catching in Pennsylvania municipalities.

ENGINEERS' INSPECTION.—The Engineer corps, under command of Captain Webb, were inspected at Victoria Park yesterday afternoon by Lieut.-Col. Moore, D. A. G. After receiving the inspecting officer with a general salute they "marched past" and the company were put through manual and firing exercises and company drill by the captain. All the movements were performed most creditably. The barrel firing in the drill shed after the work on the park was concluded was especially well performed. The inspection throughout was most thorough, and the manner in which all concerned acquitted themselves was in the highest degree creditable.

THE PRICE OF POTATOES.—A. P. E. I. correspondent notes that the Sun's quotation on potatoes has been unchanged at 80c to \$1 for some time past and thinks it should be lowered. A leading dealer, discussing the subject on Saturday, said that the quotation might be changed a little both ways. It might be possible to buy potatoes at 75c per bush, and there were others, choice kinds, from certain sections, that could not be got for less than \$1.10. He added that P. E. Island potatoes would not bring as much as our own, and when the home crop was large, as it is this year there was no use in loading up with the others. The St. John market is limited, and there is no export demand.—St. John Sun.

PERSONAL. Rev. J. J. McDonald, of Kinkora, is in town today.

Rev. D. J. G. McDonald, of Summerside, is in the city.

Dr. Ross, of Vernon River Bridge, is a guest at the Queen Hotel.

Rev. Alan J. Macdonald, of Fort Augustus, is in town.

Mr. T. Tate, of Montreal, a well-known commercial ambassador, is at the Hotel Duquesne.

Mr. M. J. McCurdy, of Halifax, is visiting the Province. He is registered at the Queen Hotel.

Mr. Frank Chipman, of Halifax, is acting as purser on the Halifax this trip, Mr. Cook having laid off for the run.

Mr. Lyman Dennison, purser of the steamer Olivette, is making the round trip on the Halifax. The Olivette is laid up in Halifax.

Mr. C. H. Query is here in the interests of F. B. Matly's, of Montreal, a leading dealer in dry goods. He is registered at the Queen Hotel.

Mr. and Mrs. Joseph McCurdy, of Charlottetown, were registered at the Dalmen Hotel, St. John, on Saturday. They left for Boston on Monday.

Mr. L. H. Davies, Q. C., has gone to Ottawa to attend the session of the Supreme Court. The Maritime Province cases will be taken up tomorrow.

The Rev. L. G. MacNeill, of St. Andrew's Church, St. John, entered upon the tenth year of his pastorate on Sunday last. The rev. gentleman is a Prince Edward Islander.

The Misses Monk, of London, England, daughters of Lord Monk, the first Governor-General, are in Montreal on a pleasure trip through Canada. They were in Charlottetown a week or two ago.

Rev. Thos. Corbett, who on his return from the Synod in Charlottetown spent a few days in Truro, on Tuesday returned to his home in Kirkland, N. B., accompanied by his daughter, Miss Jessie Corbett, and Miss Lillie Crowe.—Truro Sun.

Rev. J. S. Arsenault, U. S. C., of St. Joseph's College, Menamouco, who has recently passed through a severe attack of fever, arrived at Summerside on Saturday evening week, on a visit to his parents at Egmont Bay. He was accompanied by Rev. Father Lable, of the same College, who returned to the mainland on Monday.

Mr. William Reynolds, field organizer of the International Sunday School Association, also arrived last evening with the same steamer. He is the guest of Benjamin Hartz, Esq. They will live at addresses on Sunday School work in Zion Church to-night.

The Boston correspondent of the St. John Sun says: There have been a number of changes in the Atlantic and Plant Steamship line lately. E. W. Elphinstone, who has been passenger and freight solicitor for the past two years, has severed his connection with the company. On the last of this month Fred Robin, the travelling passenger agent of the same company, will no longer be in its service. It has been decided to dispense with a travelling passenger agent and a solicitor during the winter months, business not warranting the company in maintaining those offices.

BUSINESS NOTICE.—Mr. G. V. Moore has secured the services of Mr. James Redmond, of Charlottetown, lately of Boston, where he has served several years in the tinsmith's art.

BORN. At Pictou, Oct. 7th, to Mr. and Mrs. M. T. Crowley, a son.

Always Busy!

WHY? Because there's a right way and a wrong way to do business. There are High Prices and Low Prices. Our way is to sell GOOD GOODS at LOW PRICES. What's the use in paying fancy prices. Your economical neighbors don't do it. We have a discrimination trade, and they appreciate our method of doing business. A "political pull" can't be compared to the drawing qualities of our New Fall Stock of Sensible FURNITURE for Sensible People; at our Sensible Prices.

BEER BROS.

Blowing Their Horns!

Lots of people in our lines make a big blow on their horns to the old tunes of "25 per cent. discount," "33 1/3 per cent. discount," "No one can buy as cheap as we do," "No Furs like ours and the One Price Plan!"

and lots of other such rubbish. Don't you believe in Talk is cheap. Blow, brag and bluster may catch the ear of the buyer for a time, but it won't keep his trade.

The people who advertise in this way is tell and to satisfy. Their reputation is almost as good as the average circus—almost promise and very little show. These are not

WEEKS'

methods of doing business. We believe in marking our goods at prices that will not allow big discounts. We are able to say, without "blowing," that our stock is CLEAN, FRESH and NEW; and although we had no big discount sale or collection of rubbish as a side show the past week, we were as busy as niggers, and our sales have been larger than ever. The public has confidence in our way of doing business, and that is

WHEN STORMY WINDS DO BLOW.

It seems strange, perhaps, but it is true, that the first cold autumn days seem to raise more gorse flesh and be more productive of serious colds than the severe frosts of winter, when the system seems used to the cold. It is the miserable "winds" which one feels the worst, and it is a good thing to know that a layer of Fibre Chamois in the body or sleeves of a person's wrap or coat will actually keep the wind entirely out, no matter how raw or clammy it may be. This is the surest and simplest way of keeping comfortably warm in any weather, and of avoiding the coughs and colds so easily caught, but hard to shake.

ST. PETER'S HARBOR NOTES

Farmers are about through potato digging and the crop is an average one. The starch factory began operations on Friday. Mr. L. Phillips, the efficient manager, will handle most of the tubers, as the merchants do not appear to be in it. Dane minor has left our school for a teacher, Mr. Aylmer McEwen, is about leaving us to attend Prince of Wales College, preparatory to entering one of the higher institutions of learning. Mr. McEwen has had charge of our school for the last four years, and during that time has not only done great work educationally but has also won for himself the admiration of all.

The cheese factory has closed after having done a very successful work. Mr. Kelly has proved himself to be the right man in the right place.

How Much is a Name. There may be a good name on the label, and a very bad wine in the bottle. Have you not found it so? And you paid sweetly for the label too. Are you aware of the fact that splendid wine, sound, wholesome, old, can now be obtained for \$3 and \$4 per dozen quarts? Claret, Medoc, Burgundies, Sauternes? Or say, half the price formerly asked. The public will no longer pay these long prices. Good wines are now within the reach of the people. Formerly, the classes drank wines. Now, the masses will drink the light wines of France, eschewing the more ardent and acid liquors, which are hurtful to the whole.

Like a miracle, but it is really very simple, direct and large importations. Address—Bordeaux Claret Co., 30 Hospital St., Montreal. Oct. 15, 24 6.

THE SCHOOL SYSTEM.

Stn.—The article which appeared in Saturday's issue concerning the school system, ought to be enough to settle the question in favor of the two sessions, without further discussion. Of course there are two sides to every subject, and numerous ideas, objections, &c. to bring forward, which when considered make things appear in a different light.

One correspondent objects to the two session system on account of the children coming home and going back to school with damp clothes on, the time allowed not being sufficient to have them thoroughly dried. On the other hand they come home at noon, and after they have had their tea they stop indoors until their clothes are dry? If they did so during the winter months it would be almost dark before they went out again. Now where is the difference? It is not much better to go back to school where it is warm than to stop out in the cold with their damp clothes on? As for considering the convenience of the teachers as previously mentioned, let us see, there is a class of workers who have more leisure hours and holidays at their disposal? They have from the last of June to the first of September or thereabouts to do their pleasure, and being paid at the same time, while others are working hard in stores and in other places. Why, it would be a grand change, if only for the purpose of keeping them employed.

As parents suggest, let the majority rule. As a matter of fact that will be the termination. But how are we to find out on which side the majority lean? I would suggest that at the next council election the matter be settled by a plebiscite being taken. In the meantime let us have more public opinion. Come out, parents, and give us some points to consider.

HOW TO PRESERVE AMIABILITY.

Nothing is harder on the temper, not to mention one's constitution, than the cold, comfortable, blue-lipped feeling caused by the nipping wind, which seems to find its way in and out of every crevice of your anatomy. But there is an easy way for everyone to keep comfortably warm in spite of wintry blasts. Just have a layer of Fibre Chamois put in your coats or jackets and then go out and defy the blindest winds and raw, damp air.

You will find that it proves a perfect protection and keeps in the natural heat of the body, keeping out the cold entirely, and all without adding weight or bulk.

THE big fight is off. We don't mean the dry goods fight, the Corbett-Fitzsimmons. There is no legislature in this country can prevent us from making the toniest, and best fitting suits in town. Try us and see what we can do.—McKay Woolen Co., Sewell Tailors.

Thoughts for Thoughtful People!

How Would the Following Ad. Sound to Reasonable People?

50 tons of hay worth \$18, our price \$14. 900 bushels potatoes, usually sold from 25 to 30 cents, our price 16 cents.

200 pounds butter, all cream, extra good quality, only 14c, better grade 16c, sold by other farmers for 18 and 20 cts. 135 bushels carrots, usually sold at 40c, our price only 25c. 100 bushels wheat, worth \$1.25, for 75c.

A few ends of farms, worth \$135, our price \$62. 23 good milk cows, sold at \$15, our price \$30. 60 sheep, good quality, \$5.25 to \$6.25, our one low price \$3.25 and \$4.25.

Oats! Oats!—Fine goods, all oats, 25c a bushel, worth anywhere 35c, some say 40c—our price only 28c—no better goods offered anywhere.

Direct from the Farm:—250 bushels turnips, fully 4 pecks to the bushel, worth 20c, our one low price 14c.

Believing the one price has the confidence of the people, we don't put 35c per cent on and take 25 per cent off. Strictly one low cash price on our farm. We are not working this farm for ourselves, but simply for the people who buy the stuff we have to sell.

If a farmer came to us talking in that style, we would immediately suspect that his hay was MUSTY, his oats SANDY, and his potatoes had the DRY ROT, and we think the people now know that kind of bunkum is ROT of the worst kind.

We ask the people to trade with the boys who sell goods for what they are worth, and don't keep them until they are worthless, and then state what they were worth ONCE in the DARK AGES.
