

MONTAGUE HAS PITCHING MACHINE

A machine designed to relieve the strain on elbows of young pitchers and to give them a chance to practice on their swings and get their batting eyes in trim has been purchased for Montague little leaguers. John Sullivan examines the pitching machine and like most little leaguers are hoping the field dries up soon so they can give this mechanical pitcher a workout. The machine is reputed to hit the strike zone practically every time and can be adjusted to pitch at varying speeds. One team of little leaguers using a similar machine ended a season with a .410 batting average. The pitching machine is the first in this province.

Membership Drive Planned By Souris Recreation Group

SOURIS — The recent 101 committee meeting last night in St. Mary's Hall, Souris, decided that its most immediate problem is the lack of members. A drive to secure new members is to get underway, it was announced.

It was also decided to hold a general meeting in the parish hall next Thursday night.

The chairman, Edmund Lavie, urged that all adults, especially the parents, be in attendance.

"The people in this town do not take enough interest in the activities of their children, and leave it in the hands of a few to supervise and organize recreational activities for the children," the chairman stated.

A new slate of officers will be elected at the next meeting, and a nominating committee selected to bring in a proposed slate.

is Stewart MacAnlay, George Webster and Elmer MacLeod.

The meeting went on record as approving the hiring of a baseball coach for the coming season. The present executive is to forward this suggestion to the incoming executive.
