GOV. TOWERS

(Continued from Page 1)

take certain responsibilities for the betterment of the Province. "I hope that the Government may be relieved of these responsibilities by private citizens," he added.

Voices Appreciation

Mr. Towers expressed his appreciation of the great kindness his party had received during their visit on the Island. He recalled the work of the late Mr. LeRoy Holman, former director of the Bank of Canada and expressed his approval of Mr. Alfred Pickard as the Island's representative on the Bank's board of directors.

He reviewed the duties and activities of the Bank since 1938. The first duty at that time was to try and eliminate the financial impediments to recovery, he stated. The bank had to make money available to credit worthy borrowers.

Among the newer duties of the bank he listed the forming of a Foreign Exchange Control and the setting up of an Industrial Development Bank as a subsidiary of the Bank of Canada to meet the needs of firms who were looking for long term loans and to provide funds for little known institutions.

The Industrial Development Bank has loaned about $50,000,000, he stated. He stated that in thinking about the amount of work the bank has done, he considered the number of firms which the bank has helped. It has financed about 750 firms he added.

As an illustration of the size of some of the routine work done by the Bank of Canada, he pointed out that last year the bank handled about 250,000 notes. About 23,500,000 coupons on Victory and Canada Savings Bonds came in during the year and over 1,000,000 interest cheques were sent out for bonds.

In reviewing the administration of the Bank he pointed out that it was owned by the Government of Canada and was created by parliament to perform certain functions. The responsibility for the fulfillment of these functions falls on the directors and management, he added.

He recalled that the Bank had met with many new and untraditional problems during the war years. The best that could be hoped for was that large amounts of the costs of war would be paid from taxation and genuine savings he stated. This did not do the whole job and the amount of credit and currency had to be increased so that an inflationary situation developed. This general inflation movement seems to be over, he said.

He stated that in many European countries there has been an attitude that the capitalistic countries could not avoid a boom or bust situation. The willingness to do things by the Canadian and American peoples will avoid this bust, he said. The doubters of democracy must be proved wrong if democracy is to retain its vitality and appeal.

His Honor Lieutenant Governor J. A. Bernard moved a vote of thanks to Mr. Towers for his explanation of the work of the bank.

Mr. Hesler, visiting director, confirmed Premier Jones' remarks for the need of improved transportation in the Maritimes. He was detained for three hours on his trip to the Island when the engine of the train was derailed in New Brunswick, he stated.

Mr. E. J. Tarr, of Winnipeg, extended thanks on behalf of the Manitoba citizens for the help which this Province has extended to the people in the flood swept Winnipeg area. Mr. W. D. Black of Hamilton, Ontario, expressed pleasure at the reception the visitors had been given in the Province.

Other speakers were Mr. Alfred Pickard, Dr. Lloyd Shaw, Director of Education, Dr. Cyrus MacMillan and Brigadier William Reid, Director of Physical Fitness.

C.E.A. Secretary On Visit To P.E.I.

Mr. F. K. Stewart, secretary of the Canadian Education Association in Toronto, is in Prince Edward Island on a regular annual visit. After calling on Hon. F. A. Large, Minister of Education, he was taken on a short visit to several schools in the Province yesterday by Dr. L. H. Shaw, the Deputy Minister and Director of Education.

Dr. Shaw is President of the CEA which is an unofficial liaison office for the ten Provincial Departments of Education and the Education Departments of other nations.

Mr. Stewart visited the New Brunswick Department during a brief stop-over in Fredericton enroute here. Tomorrow he will visit his native city, New Glasgow, N. S., and will go from there to Halifax before returning to Toronto next week.

The CEA, whose upkeep is looked after by the ten Education Departments, does a variety of things including educational research which is carried out in cooperation with the Canadian Manufacturers' Association and the Chamber of Commerce.

Later this year, Mr. Stewart will take advantage of an invitation from the United Nations Educational, Scientific and Cultural Organization to visit Geneva and study a plan for the international exchange of teachers.

shore of Prince Edward Island. If it is outside the 14-mile limit I would not have much to say about it. If it is just outside the three-mile limit, it will be the ruination of the best fishing-grounds on the north side of Prince Edward Island, which provides a living for a thousand families. I would like the Minister to give definite assurance to the fishermen of Queen's County in Prince Edward Island as to where the bombing-range is to be placed this coming summer."

Claxton Replies

In reply to Mr. McLure's representation about the bombing-range, Mr. Claxton said his Department was working in conjunction with the Department of Fisheries on the matter "to try to secure an area which will be adequate for bombing and firing practice, and which will not destroy the best fishing territory off the Maritime Provinces."

When Mr. McLure pressed as to whether the new range would be within the three-mile limit or outside the 14-mile limit Mr. Claxton said his Department was working on that question at the present time.

On the subject of armories in Charlottetown, Mr. Claxton said the last time he was in Charlottetown he got the impression the army units there were well off because the armored unit had been moved out of the gun park and the other units were able to use the space left and found it ample. He emphasized that this was not a long-term solution but that his Department felt that having regard to the needs of other places that appear to be greater, Charlottetown was in relatively good condition for army accommodation.

Anniversary Of Bishop Nelligan

WINDSOR, Ont., June 8 — (CP) — Ceremonies in Assumption Church here today marked the 25th anniversary of the ordination of Most Rev. Charles L. Nelligan, senior Roman Catholic chaplain of Canadian Forces in the Second World War.

A pontifical high mass was conducted by Most Rev. John C. Cody, bishop of the diocese of London.

Born in Prince Edward Island, Bishop Nelligan was educated at St. Dunstan's College, Charlottetown, and the Grand Seminary, Quebec. He was at one time rector of St. Joseph's Cathedral, Edmonton, and in 1937 was consecrated Bishop of Pembroke diocese.

He now is teaching at Assumption College here.

Eighteen Diesels Now In Operation

In the very near future Prince Edward Island will say goodbye to the old steam engines which pulled its trains for so long. When two more of the new diesel engines arrive the Island will be the first railway division in Canada to be completely dieselized. At present there are eighteen engines here, sixteen large type and two of the smaller shunting class.

This move will mean many changes in the C. N. R. installations here. Gone will be the open piles of coal and the enormous roundhouses which serviced the old engines. In their place will be storage tanks for the diesel oil and a modern servicing plant for the engines.

The fuel oil is received at Borden from tankers where it is kept in large storage tanks. There are also reserve emergency deposits in all the main railway centres.

Youth Sentenced To Hang For Murder

VALLEYFIELD, Que., June 8— (CP) — Gervin Patenaude, 19, of nearby Huntingdon was convicted of murder today and sentenced to be hanged Aug. 25.

Patenaude will be hanged the same day as his companion, Kenneth Bevin, 18, who was convicted last week.

Both were convicted of the hammer slaying last Dec. 11 of Lucien Brunette, Huntingdon taxi driver.

The jury today deliberated less than 30 minutes.

Patenaude stood calm, showing no signs of nervousness while sentence was passed.

Both youths are now serving a four-year sentence for robbing the Canadian National Bank at Ormstown of $1,400 the day after they murdered Brunette. They were sentenced last January when they pleaded guilty.

Evidence given during the trial showed that the pair murdered the taxi driver in an attempt to rob him of $40. His body was hidden under a bridge but the youths later told police of its whereabouts.

Urges Repairs To Halifax Airport

OTTAWA, June 8—(CP)—Accusing the government of "lack of thinking" over the airport near Halifax, Clarie Gillis (CCF-Cape Breton South) called in the Commons today for the spending of around $2,000,000 to put it in shape.

Mr. Gillis said the field, used as a base for naval flying and for civilian air services, had been neglected and its runways were breaking up.

He spoke during consideration of defence estimates, and asked Defence Minister Claxton for "definite assurance" that something would be done about the base.

Anthony Eden Granted Divorce

LONDON, June 8—(AP)—Anthony Eden testified today that his wife had deserted him, and won a divorce.

The former Foreign Secretary's wife, living in New York, did not oppose the breaking up of their 27-year marriage.

The political fortunes of the 53-year-old deputy Conservative leader—Winston Churchill's lieutenant—may or may not have been spoiled by the result of the five-minute hearing before Justice Francis Hodson.

The stigma of divorce is virtually an unsurmountable obstacle to leadership in the British Government—a leadership which for Eden could eventually mean the post of prime minister if the Conservative party returns to power.

While some predicted that Eden's divorce has ended any chances he might have had of ever becoming prime minister, others said his high position in British politics might break the unwritten rule against divorced persons.

Eden told the court that his wife insisted on visiting the United States in 1946, that he accompanied her, and that she refused to return. She had spent most of the time since then in the United States and Bermuda.

Eden was the only witness. Some letters to him from Mrs. Eden were produced in court but not read. Eden refused to comment as he left briskly after the verdict.

One of their sons was killed in the war action with the R. A. F. The other is a university student.

In New York, Mrs. Eden said "haven't seen him in three years and a bit, you know."

She did not think the divorce would harm Eden's political career.

New "Language" Tough On Parents

WINCHESTER, Mass., June 8—(AP) — Thabis abis aba sabample abof thabe nabew "AB" labanguage wabich abis drabivabing pabarabents crabazaby.

(Translation: This is a sample of the new "AB" language which is driving parents crazy).

The teen-agers in this and several other Boston suburbs are indulging almost exclusively in this jabberwocky. And the grown-ups —teachers included — are going dabaffaby (daffy).

The kids rattle it off a mile a minute, even sing in the "language." The popular song, "Music, Music, Music", gets the treatment under the title "Mabusabic, Mabusabic, Mabusabic."

Here's how the "language" is talked: The syllable "AB" (pronounced "AHB") is inserted before each sounding vowel and before "ye" at the end of a word. In each case the "AB" is accented. Teachers say some of the more proficient youngsters speak it as rapidly as they do English.

"If your kids haven't taken it up, don't let 'em read this. They'll go for it and you'll go crabazaby.
