Thunder and Lightning.

During the thunder and lightning storm yesterday morning, three horses were killed at Freetown, and the house of Mr. Dickieson, at Summerside was struck but no one was injured.

The killing by lightning, of Ambrose Albee of Whitneyville, recently was one of the most shocking affairs that ever occurred in Maine. During the short but terrific shower at his home, Mr. Albee was struck by a bolt on top of the head, which passed through his body and entered the ground. He was instantly killed, a gash three or four inches in length having been made in the top of the head, and the flesh burned from the body. His clothing was torn into fragments and his shoes into shreds.

News Notes.

The best authorities estimate the wheat crop of the present season in Dakota and Minneapolis at one hundred million bushels. The harvest is now in progress. The value of the crop to the Northwest is put at \$90,000,000 at the lowest.

Unless some new technicality of law shall be allowed to interfere, the death sentence of William Kemmler will be carried into execution at Albany, N. Y., some day this week. The new State law for executing capital criminals by electricity requires that the precise day and hour of the taking off shall be kept from the public. It is not unlikely, however, that Kemler will be executed to-day or tomorrow.

The Arch-Duke John of Austria, who some time ago cast aside the insignia and renounced the titles of his lofty rank, will have a good opportunity of studying modern democracy under one of its most lively manifestations, as he happens just now to be at Buenos Ayres.

Next Wednesday is Declaration Day in Queen's County. High Sheriff Curtis will open his court at 11 o'clock.

Chamberlain Speaks Out.

HE CRITICIZES THE GOVERNMENT, THE TEMPERANCE CRANKS AND GLADSTONE.

BERMINGHAM, Aug. 4.—Joseph Chamberlain, in a speech here Saturday night, said the government had made a tactical mistake in introducing the licensing bill during a session that was crowded with business.

The intentions of the government, however, were good, and their proposals were reasonable and beneficent, and ought to have commanded the support of every temperance man. The proposals had, in fact, secured the support of the moderate friends of temperance, but the government had been balked by the unexpected hostility of the temperance fanatics, who were represented by the leaders of the United Kingdom alliance, and, above all, by the unexpected development of a party spirit that sought every occasion to damage the government in power.

Stallion Race.

SIR.—I am glad to see by THE EXAMINER that the horses are improving so much on the track. It must be pleasing to breeders of trotting stock to learn that we are to have a stallion race this fall, so as to let the people see what animal has the most speed and the greatest powers of endurance.

The Legislative Council Election.

It is now beyond doubt on the part of any person,—even the most extreme of the grits—even the Patriot—that four Liberal Conservatives were elected in the Legislative Council election, the Leader of the Government in the Council standing at the head of the poll, and that only three Oppositionists were elected.

May we now hope that the false reports sent abroad to the effect that five Oppositionists were elected, and that the Leader of the Government in the Council stood at the foot of the poll, will be contradicted? These false reports have misled the press and people of the whole of Canada.

It has been argued by the agitators that the returns indicate the trend of public opinion to be more strongly than ever against the government of Sir John Macdonald. The opposite conclusion may with far stronger reason be drawn.

At the last Legislative Council election five grits were elected and but one Liberal Conservative elected and but three oppositionists. A significant change! Liberal-Conservatives have in the meantime been in office both at Ottawa and Charlottetown.

The opposition press and the opposition publications, have all the while made the most of every action and occurrence in which either the Government at Ottawa or the Government at Charlottetown were involved, to create dissatisfaction and discontent throughout the length and breadth of the country.

But the result of the Legislative Council election proves that, so far as Prince Edward Island is concerned, their efforts have been in vain. The Liberal Conservative party is, in point of fact, gaining strength.

The property-holders of Prince Edward Island have shown that they appreciate the excellent administration of affairs which has characterized the period in which the Liberal Conservative party has been in power.

Arguing upon the false premises found in the false telegrams sent from Charlottetown, the Ottawa Free Press says:

"This election has a special significance from the fact that at the last session of the provincial legislature the legislative council passed resolutions favoring unrestricted reciprocity and condemning the government for refusing to take part in the interprovincial conference held in Quebec in 1887.

The great mass of the legislative council voters are farmers. At elections for the assembly, every man over twenty-one years of age is entitled to vote, but only owners of real estate worth \$325 or upwards can vote at legislative council elections.

Hence it may fairly be claimed that the farmers of Prince Edward Island, by their votes on Wednesday, endorsed the resolution of the legislative council in favor of unrestricted reciprocity with the United States.

May we not, with greater force,—in view of the actual result—argue that the farmers of Prince Edward Island have, by their votes, condemned the resolution of the Legislative Council in favor of Unrestricted Reciprocity with the United States?

Of this we are, at all events, quite sure: As soon as the farmers of Prince Edward Island understand that Unrestricted Reciprocity means restricted trade with Great Britain and the rest of the world, as soon as they appreciate fully the fact that Unrestricted Reciprocity with the States must inevitably lead to the severing of the filial bond which binds them to the Motherland, they will signify their condemnation of it in such a way that everlasting confusion will rest upon the heads of the grits.

—The Montreal Gazette remarks that the Globe, whose editor-in-chief is Mr. Farrar, the moving spirit in the inception of the Equal Rights agitation, reads a severe lesson to the Mail, whose editor-in-chief was Mr. Farrar, the said moving spirit, because of its habit of collecting and re-printing all the violent utterances of the ultra French-Canadian papers, and attributing the prejudices therein exhibited to the whole French-Canadian people.

It was under Mr. Farrar's management that the Mail inaugurated this system of quotations, which did much to provoke and excite the extreme feelings shown by the Equal Righters. Now, we are learning from Mr. Farrar's paper how wicked Mr. Farrar's other paper was when he conducted it.
