Midsummer Examinations.

SPRING PARK SCHOOL.
The closing exercises of this school took place on Thursday. The school was beautifully decorated with flowers and ferns. The pupils were in high glee, and, judging by the manner in which they acquitted themselves, the school is progressing favorably. The teachers deserve the highest praise. The number of visitors was small, compared with other years; every Trustee should have been present instead of one. The entertainment was good. The dialogue, "Playing School," the recitation, "Washing the Doll," by Carrie Saunders, and the duet by Annie Elliott and Annie Burhoe, are well worthy of mention. The prizes were awarded as follows:

MISS LAWSON'S DEPARTMENT.
First Class—General Proficiency—Edmund Higgs, Arithmetic, Geo Purdy, Composition, Margaret McFadyen.
Second Class—Reading—John McFadyen, Writing, Reading and Drawing, Annie Elliott; 2nd Drawing, Alfred Chappelle, Industry, Benj. Simmonds.
Third Class—General Proficiency—1st, Mary Dickson, 2nd, Rhoda White. 1st Reading, Annie Burhoe; 2nd, do, Hurdus McLean. Arithmetic—Junior Division—Hentie Colwill, Reading, do, Humphrey Higgs.
Fourth Class—General Proficiency—Lawrence Long, Writing, Frank Pickard, Drawing, Hettie McDougall.

MISS STUMBLE'S DEPARTMENT.
First Class—1st, Reading, Carrie Saunders; 2d, do, Minnie Groom. Spelling, Albert Colwill, Drawing, Lydia White, Willie Ashton, Geo McDougall, Writing, Albert Colwill, 1st Arithmetic, Class First, William Ashton; 2d, do, Ella Godkin.
Second Class—Reading and Spelling, 1st, Ethel Simmons; 2d, Arthur Ferguson.
Third Class—Reading and Spelling, R Cahill, Spelling, Frank McGuigan, Arithmetic, 1st, Frank Simmons and Nathaniel Corney, equal; 2d, Agnes Elliott.
Fourth Class—Reading and Spelling, Maud Ferguson.
The hearty thanks of both teachers and scholars are due to the following ladies and gentlemen for their kind donations of prizes: Mr. John Saunders, Mr. John Elliott, Mr. and Mrs. George Simmons, Mr. Alexander McDougall, Mr. John Dickinson, Mr. Wm. Henry, Mrs. Hornsby, Mr. and Mrs. Robert White, Mrs. R. Maynard, Mr. Donald McKenzie.

Additional prizes in West Kent School. The prizes of L H Davies, Esq., for reading, were awarded as follows: In Mr Miller's department, "Tom Brown at Oxford," to Wellington Nelson; in Mr Duncan's department, "Tom Brown's School-days," to Henry Anderson; in Mr Seaman's department, a valuable prize by Mrs B Rogers to John Lewis; in Mr Miller's department a valuable prize by Mr T A McLean, was awarded to William Brehaut, being third highest in number of marks made during the year; in Mr Duncan's department, a prize, "William and Mary," a tale of the siege of Louisburg, was awarded by Mr Silas F Hodgson, to Hedley McKinnon, for progress.
In Thursday's report of West Kent St. School, it should have been stated that the prize obtained by John Weldon, for Algebra, was awarded by His Honor the Lieutenant-Governor.

Alberton School Examination.

The closing examination of the Alberton Grammar School took place on Friday morning, the principal personages of the town attending. The classes were examined by the Rev. Father Burke, James Larkins, trustees, and the teachers. The school was found to be in a flourishing condition, the pupils answering the difficult questions put to them with great ease and proficiency. At the close, Principal Hunter gave the yearly report, which showed a splendid result. An address of adieu was made to the Principal, who responded with much feeling. Father Burke made complimentary remarks, and promised prizes for next year's work.

Telegraphic Tips.

ST. LOUIS, June 27.—The proposed big tobacco trust has fallen through on account of the refusal of Drummond of this city to enter the combination.
LONDON, June 27.—The Earl of Aberdeen will preside at the grand banquet to be given to Parnell at Edinburgh during his visit there in July.
SAN FRANCISCO, June 27.—Schooner Annie, Captain Jacobson, with a crew of eleven, left this port last February on a fishing voyage in Behring Sea. Nothing has been since heard from her, and it is believed she is lost.
WASHINGTON, June 27.—Consul Reimer, at Santiago de Cuba, in his report, estimates the sugar crop of that country at over one hundred and fifty million pounds, half of which has already been shipped to the United States. This, in view of the fluctuating sugar market, is considered important here. A serious scarcity of labor is complained of, and prices have advanced nearly 100 per cent. Deputy Consul Wood at Batavia reports great damage has been done to the sugar crops there by a new disease known as "sereh," which affects the cane in the form of blight. It spreads rapidly and reduces the quantity as well as injures the cane. The planters at that place have subscribed liberally to secure European specialists to investigate the cause of the disease and report the best method possible to counteract it.
DIED.
At Crapaud, on June 21st, 1889, Cecil Robert, infant child of Samuel and Ellen S. Sherren, aged one year and two months.
Oh, Cecil, dear, it was so hard to part,
With you we loved so well,
But Jesus parted with his life,
That we in heaven might dwell.

Local and Other Items.

I. O. O. F.—St. Lawrence Lodge holds its regular session on Monday evening next, for the installation of officers and other business.
BEAUTIFUL.—The work in the interior of Oldfellows' Hall is about finished, and it is now one of the handsomest Lodge Rooms in Canada.
ATTENTION!—If you desire a fine head of hair of a natural hue and free from dandruff, Hall's Hair Renewer is the best and safest preparation to accomplish it.
TEA AT ST. PETER'S.—The Presbyterians of St. Peter's Bay intend having a monster tea meeting on or about the 17th July. Look out for an advertisement next week.
THE FATAL NOVEL.—The Moncton Times says that a girl employed for two years past at the Commercial Hotel, has gone insane through novel reading, and was taken to the asylum.
SERIOUSLY BURNED.—Mrs. James Wonnacot, of Halifax, was seriously burned by her clothes catching fire from a spark from a stove. In extinguishing the flames her husband was also badly burned. Both were taken to the hospital.
EARLY PEAS.—A valued correspondent at Alberton forwards THE EXAMINER a sample of green peas, a luxury, he says, the people of that enterprising place have been enjoying for the past ten days!
A FAMILY MAGAZINE.—The Domestic Monthly magazine for July is at hand. It is always full of that which is ever interesting to the ladies. Several of the articles in this number are exceptionally good.
GRAND DIVISION.—The Grand Division, S. of T. of P. E. I., will meet in quarterly session at Alberton, on Wednesday, 17th July. Rev. R. Alder Temple, M. W. P. of the National Division, will be present, and an interesting time is expected.
COAL GOING UP.—A New York despatch says that at a meeting of the sales agents of six great coal companies it was decided to advance prices, the advance to take effect July 1st: Grate, 5 cents; egg, 15 cents; stove 10 cents; chestnut, 15 cents.

A DOUBLE ELOPEMENT.—A Winnipeg despatch says that two German girls, lately from the old country, working in the Manitowish village, eloped with a couple of young Monnonites. When last heard from the quartette were bearing for Fargo, Dakota.

THE MARKET YESTERDAY.—There was a fair attendance at the market yesterday, both inside and out. Prices ranged much the same as last week. Cucumbers appeared for the first time this season, and sold at ten cents each. Green peas also made their first appearance this season. They sold at 30 cents per quart.

THE RISE IN SUGAR.—The Nova Scotia Sugar Refinery advanced their prices $\frac{1}{2}$ of a cent per lb. all round, on Tuesday last, making the cost price in 100 barrel lots laid down here: granulated, 9 $\frac{1}{2}$ cts; Y. X. C. 8 cts., and C. Y. C. 7 $\frac{1}{2}$ cts. The item in yesterday's issue, taken from the Halifax papers, was, therefore, not correct.

AT THE POINT.—A correspondent of the Moncton Times reports that business and shipping is particularly lively at Point du Chene. There are at present some 8 or 10 large vessels in port, all of which are taking lumber, coming by rail. The freights by steamer are good, and the passenger traffic is increasing as the season advances.

IMPORTANT.—Do not forget that the Provincial Tea at Alberton takes place on the 18th July, and that it will eclipse all previous affairs of the kind held there. The committee of management have made arrangements with the railway authorities for special fares, and expect a large attendance from all along the line. All amusements usual on such occasions will be provided, and those who attend cannot fail to enjoy themselves.

THE EVENT OF THE SEASON.—The Convent Bazaar and Strawberry Festival, to be held in the Market Hall on the 3rd and 4th July next, will, without doubt, be the most successful affair of the kind ever held in this Province. The ladies entrusted with the management have been hard at work for some time past preparing for the event, and are leaving nothing undone that would tend to make it successful. The fancy tables will be well filled with useful and fancy articles, and the refreshment tables, etc., cannot fail to please the most fastidious. Make a note of the dates: July 3rd and 4th.

DEADLY LEMONADE.—A farmers' picnic at Woodstock, Ont., a few days ago, came nearly having a disastrous wind-up. Just as the people were about to start for home a number began to complain of symptoms that were undoubtedly those of poisoning. A doctor who was present administered emetics, and this brought a certain amount of relief. Probably forty persons were thus affected. The disturbing element was traced to the lemonade, and from what has since transpired it appears that in some way a quantity of tartar emetic had been introduced into the vessel containing it. Some of the victims are reported in a low condition, but it is hoped there will be no fatal results. A great many suffered intense agony before relief came.

CROPS IN ONTARIO.—Recent reports from several parts of Ontario show that the damage done by the recent rains is neither as extensive or as serious as at first feared. In high lands there is good prospect of a full yield of wheat. In low lands much damage has been done, reducing the probable yield in some places by fifty to twenty-five per cent. and in others only retarding the growth. Root crops have suffered most, particularly potatoes, which in places are a total failure. Much depends upon the next few days. A continued wet season will increase the percentage of loss enormously, while fair weather between now and harvest would retrieve much of the damage done and ensure at least a fair general yield.

Local and Other Items.

PHILHARMONIC.—A meeting of the Philharmonic Society, for practice, will be held this evening at 8 o'clock.
MILITIA DISPLAY.—The volunteers now in camp at Brighton, will parade on Monday next at 12 o'clock. A salute will be fired from Fort Edward. This will be followed by a *feu de joie* and a grand march past of the troops.
SAVED.—A fine family of children, were all afflicted with scrofula. Two died early; the rest would soon have followed, but for the timely and persevering use of Ayer's Sarsaparilla, which built them up into a healthy and vigorous manhood.
THE MIRAMICHI.—The steamer Miramichi arrived at 5.30 o'clock last evening with 375 barrels of flour and other merchandise. She sailed again this morning, shortly after eight o'clock, with a cargo of lobsters, starch, potatoes, etc. She had no passengers either way.
TIME WILL TELL.—A Michigan girl who wanted a melodeon acquired the necessary sum by raising 350 bushels of onions. Only time will tell whether the peeling of the melodeon will extract more tears than the peeling of the equivalent of onions.
WHAT THE WOMAN DID.—A letter proposing marriage to a Castile, N. Y., girl remained in the coat-tail pocket of the proposer for eight months, he supposing it to have been mailed. When he finally did mail it she was married, but she gave her husband the shake and eloped to Connecticut.
THE CUSTOMER WINKED.—A Baltimore lawyer has laid before the State Department the case of a citizen of Hayti who recently entered a drugstore in Baltimore, asked for a glass of soda water, and was refused by the clerk. The druggist's lawyer is preparing an elaborate reply, in which he contends that the Haytian winked, and that the druggist had none of that kind of soda water in stock.

AN EXPLANATION.—In reference to a paragraph in yesterday's Sun, it is explained that regarding the item of \$173 in the conference contingent fund report, claimed on account of special personal affliction, which was under discussion, and which was referred back to the committee, the expression "plead for money to soothe their lacerated feelings," used by one of the speakers, was not intended as a reflection upon either of the gentlemen whose claims are represented in the amount stated, but had reference to a past event in conference history.—St. John Sun.

Mr. W. W. Clarke has been offered and has accepted the agency in this city and district of the London Masonic Mutual Benefit Association, the only Canadian institution doing business amongst the Masonic fraternity throughout the Dominion. The general agent, Mr. E. C. Davies, attended the Grand Lodge here and reports very favorably on his visit amongst us. Class B is graded, and the payments are filled in such a way as not to press heavily upon the insured. Give Mr. Clarke a call; he has already begun to write applications.

LECTURE.—A correspondent writes: Mr. L. A. Cook, of Ontario, delivered one of his famous lectures, "Out of the Valley of Death," in New Glasgow Hall, on the 26th inst., which was a complete success. He pictured the evils of intemperance in an able and comprehensive manner, though this sense towards those instrumental in the repeal of the Scott Act in Ontario, called forth an eloquent and able defence, by Mr. James Coulstun who vindicated the steps taken by the Christian denominations of Ontario, in the recent Scott Act repeal. Messrs. George Smith, W. Laird and A. McKay, spoke very highly of the lecture.

INTER-PROVINCIAL BAND COMPETITION.—A circular says that a musical band competition open to the maritime provinces will be held in Halifax on the afternoon and evening of the 7th of August next. The competition will take place in the Exhibition building, under the management of the Royal Blue Amateur Athletic Association, of Halifax. Each band will choose its own music and play but two pieces. Prizes will be awarded to the successful bands as follows: To the one having the highest number of points, \$200; to the second highest \$125; to the third highest \$75. Special prizes are also likely to be offered in addition to these. The entries, which will close on Monday, the 25th July, must be made through Wm. A. Emmerson, chairman of band competition committee, 10 Smith street, Halifax. Each band competing will be expected to take part in the carnival procession.

CHARLES WATTS.—This able speaker lectured at St. John, N. B., on Thursday evening last. The Telegraph ends a notice of the discourse thus: Mr. Watts' conclusion was that science had triumphed over theology as an agent in civilization. Science was the white-robed messenger of love; theology, the dark-robed demon of fear. Science was the day, full of health and joy; theology, the night wrapped in darkness and gloom. Science was a mantle adorning the living present; theology, a shroud covering the dead past. Science was the saviour of man; theology, the weapon of the priests. Science was the handmaid of progress; theology, the knell of stagnation. Let us then, he said, guard its potency, appreciate its grandeur and amalgamate with science all the practical truths of all the religions in the world, and thus become free from the trammels of creeds and dogmas. His motto was: "Bound to no party; to no creed confined, The world's our home, our brothers all mankind. Do good, love truth, be just and fair with all Exalt the right, though every ism fall." At the close of his discourse, an opportunity was given for discussion, but no one rose to speak, and the audience rapidly dispersed.
