## Sun Energy In Bottle Is Shown In Schools

A possible means of getting energy from the sun, producing synthetic rubber in 60 seconds, and frying eggs without heat are only three of many outstanding demonstrations being presented in schools throughout the province in a forty-minute stage show.

"Previews of Progress" is the title of the scientific show which is presented by a two-man team. The men touring this province are Warren Abbot and Ray Sheremeta who presented shows at Kinkora and Kensington yesterday.

Their itinerary for the remainder of the week is tentatively as follows: Miscouche this morning and O'Leary this afternoon, Tignish on Wednesday, Souris and Montague on Thursday, Prince of Wales College Friday morning and Summerside High School Friday afternoon.

The scientific show is presented by General Motors and has a world wide audience. Some twenty-two teams have already performed before 18 million people.

One of the highlights of the show is the amazing GM Sunmobile, the miniature car that actually runs on the power of the sun. It depends upon eight photo-electric cells located on its hood for its operation. These cells convert light energy into electrical energy which in turn powers a small electric motor to move the car.

In the previews show, the demonstrator uses a 300-watt lamp to duplicate the sun's rays. As the light strikes the cells, the 15 inch blue and white Sunmobile moves smoothly across the table.

The Previews audience will see yet another example of sun power in the fascinating fuel cell. This device converts chemical energy of distilled plants into electrical energy with four times the efficiency now obtained by burning coal, oil or natural gas.

LIQUID SUNSHINE  
In the show, a few drops of "liquid sunshine" provide sufficient energy to operate a portable radio. If a method of making the fuel cell practical were ever found, this device would have a tremendous economic impact and greatly add to the life of coal and oil reserves.

In addition to sun power, the previews audience will see a visual history of the jet engine in "capsule" form. Beginning with a working model of the first jet—which dates back to 200 B.C., this sequence is climaxed by the running of a miniature gas turbine engine with a miniature roar. This type of engine may power automobiles of tomorrow.

Food-loving spectators will be intrigued by the stove which fries an egg in a matter of seconds but always remains cold. This is an unusual application of induction heating displayed and explained in the show.

Science proves quicker than a magician's sleight of hand in the Previews sequence in which synthetic rubber is produced in only 60 seconds. The demonstrator simply mixes two liquids in a pop bottle and a forty glob of rubber 15 times the volume of the bottle leaps out above it.

Other Previews sequences include vivid demonstration of the gyroscopes which will guide space ships of the future to their destination just as they control guided missiles, ships and planes today and a fascinating dramatization of the microwave relay which sends television programmes and long distance telephone calls across the country.

Previews of Progress already has been presented to thousands of persons throughout Canada. The Previews team carries 1,000 pounds of stage equipment in its panel truck.

THE YOUNG man is holding "bottled sunshine", with which he converts chemical energy into enough electricity to operate a portable radio all day. Using a new, high efficiency energy converter called a "fuel cell", he also can make a "drop of liquid sunshine", lift weights, spin wheels, flash lights and ring bells. It is all part of General Motors of Canada Previews of Progress science stage show.

times the efficiency now obtained by burning coal, oil or natural gas.

## Borden CN Railway Foreman Honored By Fellow Workers

Mr. and Mrs. Kenneth MacInnis, Borden, were very pleasantly surprised on Friday evening when a large group of friends, representing fellow CNR employees of Mr. MacInnis, all along the line, gathered at their home to honor Mr. MacInnis on the occasion of his retirement after 42 years of service with the railway. The last seven and one-half years of which time were spent as section foreman at Borden.

Clarence Ramsay, Borden, in a few words, stated the purpose of the gathering. Peter Nicholson read a congratulatory address and Leo Warren, Borden, Charles MacCarville, acting foreman at Borden and Stirling Noonan, Albany, presented gifts including

a beautiful easy chair, a smoker's stand with pipe and a can of favorite tobacco, and a lovely box of chocolates for Mrs. MacInnis.

Mr. MacInnis in expressing his sincere thanks to the men, stated that the kind thoughts and good wishes behind the gifts of his fellow employees were appreciated by him even more, if that were possible, than the lovely gifts which he would cherish with pride as a constant reminder of their goodwill towards him.

A social evening, with cards and refreshments, was enjoyed before the "boys" left for home after expressing their personal wishes to Mr. and Mrs. MacInnis for a long and happy retirement.

## Third Crash At Corner

SUMMERSIDE—For the third time in recent months a collision occurred at the intersection of Central and Convent streets yesterday afternoon resulting in major damage to both vehicles. No one was injured.

A 1957 Dodge driven by Mrs. Leticia MacDonald of Bradshaw was going west on Convent Street and entered Central Street where she collided with a 1959 Dodge driven by David Noseworthy, Summerside. The Noseworthy car was going south on Central Street, which is a through street.

The impact swerved the noseworthy car into a telephone pole located at the intersection snapping it off at the base.

Damage to the new Dodge was estimated at \$700 and to the MacDonald vehicle at \$300.

## Devotions End Tuesday Evening

The Forty Hours devotion opened at the Church of the Most Holy Redeemer Sunday at the 11:30 mass. Celebrant was Rev. Francis P. Conroy, C.S.S.R. Special preacher for the three-day devotion is Rev. Thomas Traynor, C.S.S.R., who was recently appointed to the Holy Redeemer staff.

Evening devotions will close the period Tuesday at 7:30 p.m. Morning masses are at 7 p.m., 7:30 p.m. and 9 o'clock with an afternoon mass at 5:30 p.m.

## Island CWL Represented

Provincial president, Mrs. Joseph MacDonald of Tignish, and Mrs. Fred MacMillan and Miss L. Arsenault of Charlottetown, will represent the Catholic women of Prince Edward Island at the national convention of the Catholic Women's League which opens at Saint John, N.B. this

## WEATHER

## SAFE DRIVER RECEIVES TROPHY

A skillful driver, Cpl. D.J. Bernard of the RCAF Station at Chatham, N.B., won the Maritime Area safe and skilled drivers championship at RCAF Station Summerside on the

weekend. Contestants came from all the RCAF Stations and depots in the Atlantic Provinces. Second was Cpl. P. J. Orth of No. 5 Supply Depot, Moncton and Cpl. P. Doiron

## Spud Pickers Are Located

SUMMERSIDE — Potato pickers from many points in the Maritimes arrived in Summerside last evening and were handled with great dispatch by the employees of the Unemployment Insurance Commission who processed them immediately on arrival and waded them off to the farms with their employers who were waiting for them.

On hundred and seven pickers arrived yesterday to work on Prince County farms, coming by regular bus, train and chartered buses, the major portion of these being from Cape Breton.

U.I.C. officials stated yesterday that orders have been received for more than 400 pickers with many special orders being received by farmers who prefer to have last year's pickers return to their employ.

However in many cases this is not possible as many of last year's pickers are unavailable.

Potato pickers are expected to arrive daily for the next two weeks with the peak number slated for October 5th.

## Retired Teacher Dies In Toronto

TORONTO (CP) — Professor Frederick Clyde Auld, 66, leading adult educationalist and professor of law at the University of Toronto from 1936 to 1953, died at his Toronto home Sunday.

Prof Auld was a former treasurer of the Canadian Association for Adult Education and vice-president of the labor research council. For many years he was on the executive of the Workers Educational Association.

A leading writer on legal matters, he edited a 20-volume digest of Canadian case law. In 1943 his charges that Nazi and totalitarian philosophies were being propagated in many Canadian education centres brought vigorous denials from universities.

Born in Charlottetown, he practiced law there after graduating from McGill and Oxford Universities. During the First World War he served with the 10th Canadian Siege Battery in Belgium and France.

Survivors include his wife, the former Elizabeth Brisbane Kier of Malpeque, P.E.I., one son and three daughters.

## ISLAND BRIEFS

### VISITING CITY

Mr. and Mrs. John H. Wells, Alberton, are spending some time in Charlottetown with their son-in-law and daughter, Mr. and Mrs. G.G. Hughes.

### RESUMES STUDIES

Carl Reynolds recently spent part of his vacation in Montague visiting relatives. Prior to his arrival here he visited his mother and brother who reside in Wheaton, Maryland. Carl returned last week to Fredericton, N.B. to resume studies at UNB where he is in his final year of applied engineering.

### LATE NOTICES

(Also see announcements in columns adjoining Classified Advertising Section.)

ROBERTSON — On Sunday Sept. 27, 1959, Mrs. Annie Robertson in her 102nd year. Her remains were transferred from the Charlottetown Funeral Home Monday afternoon to her late residence from where the funeral will be held Wednesday morning to St. James' Church, Georgetown, for Requiem High Mass at 9 o'clock. Interment in the church cemetery.

MacLEAN — At the Prince Edward Island Hospital Monday, Sept. 28, 1959, Cleaver J. MacLean in his 71st year. Resting at the MacLean Funeral Home. Funeral from the Baptist Church tomorrow (Wednesday) services commencing at 2:00 p.m. Interment will be in the Floral Hills Memorial Gardens.

## Elderly Lady Passes At 101

MONTAGUE — Mrs. Ann Robertson, Georgetown's grand old lady passed away at her home Sunday Sept. 27th. In her 102nd year.

Mrs. Robertson was up and about her home until quite recently and would have been 102 on Christmas. She was the former Ann Richard, of River Bougainville, N.S., and moved to Prince Edward Island when she was 20 years of age.

She was a lady of very high Christian ideals and was a devoted member of St. James' Roman Catholic Church. Her husband the late Joseph R. Robertson predeceased her in 1912 and was 85 years of age.

She leaves to mourn: three daughters, Mary (Rev. Sister St. Alexandria) of the Congregation of Notre Dame in Montreal; Annie and Ada at home and one son, John.

The funeral will be held from St. James' Church at Georgetown on Wednesday, Sept. 30th at 9 a.m.

St. Mark's A.Y.P.A. Plan Activities

St. Mark's A.Y.P.A. Kensington, opened the season's programs with a supper for its members in the parish hall, Monday evening, with an attendance of 41 members, including 10 new members.

Following the supper the president, William Pidgeon extended a welcome to all, and especially the new members, expressing his hope that they would continue to come back. He then called upon the secretary, Laura Jollimore, to introduce them.

The 1st and 2nd vice presidents, Gordon Mill and Clair Sudbury were called on to officially open this year's programme with the associations prayers.

Clayton Mill, past chairman of the P.E. Island's Deaconry Conference, commended the group for the splendid showing they made at this year's conference, having won the banner for the third consecutive year. He expressed a desire that they would continue to show the same loyalty to their branch meetings as they have in the past.

On Monday night, Sept. 29th, the annual meeting is to take place in the hall. A nominating committee consisting of John Rogers, William Paynter and Laura Jollimore was appointed to bring in a new slate of officers. The

## Alberton Church Holds Rally Day

ALBERTON — Sunday was flower Sunday and rally day at Alberton Presbyterian Church. During singing of the opening hymn eight boys and girls brought in baskets of flowers which were placed at the front of the church.

Those taking part in this ceremony were Clayton Matthews, Janice Irving, Barbara Horne, Beverley Horne, Anne Clark, Sheila Horne, Maurice Tugwell and Kenny Bell.

Worship was led by the minister, Rev. J.Y. Garrett, who also preached the sermon. Members of the Sunday School assisted in the worship, of which the theme was "What is the Church?"

The old testament lesson was read by Wayne Bell. Prayer was offered by Maurice Tugwell, a reading, "Good Neighbours" was given by Anne Clark, Kendrick Horne and Raeburn Matthews received the offering.

The choir selection was "Fair-est Lord Jesus."

PAPAL CEREMONY  
VATICAN CITY (Reuters)—Pope John Saturday performed the third wedding ceremony of his reign when he officiated at the marriage of Count Eugenio Faiva and Countess Albalisa Roncalli di Montorio in the Pauline Chapel of the Vatican. The bride is not a relative of the Pope although she has the same name, Vatican sources said.

home" speech with a cry rarely heard in Moscow and greeted with prolonged applause. "Long live Soviet-American friendship."

## Brother Passes In Portland, Ore.

Mrs. John H. MacDonald of New Dominion recently received the news of the death of her brother, Arthur Betts, of Portland, Oregon.

Also surviving is a sister (Mary), Mrs. Robert Compton, Lexington, Mass., and three brothers, Silas of Chilliwack, B.C. and John and Alexander of Vancouver, B.C.

Food-loving spectators will be intrigued by the stove which fries an egg in a matter of seconds but always remains cold. This is an unusual application of induction heating displayed and explained in the show.
