# Halifax Grounds Planning Atlantic Winter Fair

HALIFAX (CP) — Plans to hold an annual Atlantic Winter Fair on the former Exhibition grounds were announced Tuesday.

Don Oland of Halifax, a former chairman of a committee appointed by the Halifax Forum Commission, said the committee will hold its first meeting Oct. 4 to produce a draft constitution for the fair.

The Forum commission, a civic organization, manages the Forum, now used mostly as a sports arena, as well as other facilities in the old provincial exhibition grounds in north-end Halifax.

The committee expects to hold the first fair in November, 1963. The region has been without a major international exhibition since fire destroyed the buildings of the Maritime Winter Fair in Amherst in 1958.

Attempts by the Maritime Stockbreeders Association, sponsors of the Maritime Winter Fair, to revive the fair have been unsuccessful.

A proposal that the provinces pay close to \$1,000,000 to build a genuine \$10 bill, although rejected and the association has been unwilling to make an invitation to hold the fair elsewhere, including Halifax.

## Maritime Stockbreeders Still Want Their Own Fair

SAINT JOHN, N.B. (CP) — George McLeod, president of the Maritime Stockbreeders Association, said Tuesday that the association was pleased that an annual Atlantic Winter Fair is being planned at Amherst.

But he said the stockbreeders would continue to press for re-establishment of the Maritime Winter Fair, if possible, at Amherst.

He was commenting on the announcement Tuesday by Don Oland of Halifax, interim chairman of a committee appointed by the Maritime Fair Board, which intends to establish the Atlantic fair at the old Amherst site of the fair.

Mr. McLeod said the announcement was "in accord with newspaper publicity that has been coming out." However, the Maritime Winter Fair had "nothing particularly to do with this."

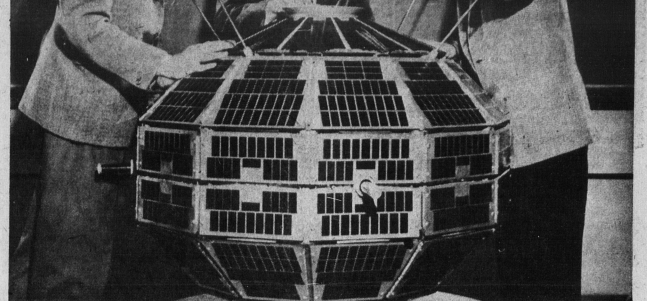

He said it was possible because of the favourable offer of the two farms because Mr. Oland also is "one of our directors in the Maritime Winter Fair, which is sponsored by the stockbreeders association."

VERY MUCH ALIVE — The Association is "very much alive. It hasn't disappeared," Mr. McLeod said, moving his hand about a month to consider a report by the Maritime Fair Board.

"The old location in Amherst was as good as central as you can get," Mr. McLeod said. "Moncton also would have been suitable. A 'satisfactory' historical effect has been brought down because of its great distance from other major Maritime centres."

Mr. Oland had "worked hard and was most anxious to have an establish in Halifax and was trying to do it on our behalf."

But (Mr. Oland) had felt the "shortage" of money and stockbreeders would wish him and the new Atlantic Winter Fair organization to have "the very best" in their project.

## Scientists Check Canadian Satellite

Three key members of the Defence Research Board team responsible for designing and building the Canadian satellite Alouette discuss features of the prototype model. From left are Dr. Colin Franklin, K.R. Brown and Dr. John Barry. The satellite, scheduled to be launched into space by a U.S. rocket within days, is designed to study mysterious forms of energy which bombard the earth's outer atmosphere.

## Trade Commissioners Visit To Province Set For Friday

Eight junior assistant trade commissioners interested in learning the products of the province will arrive in Charlottetown Thursday evening on the training tour of Canada for assistant trade commissioners, 1962-63 class.

They will learn something of potato production and marketing and get information in the fisheries field during panel discussions at a brief-air forum Monday conducted by provincial marketing director, Reid Sangster, at the Charlottetown Hotel, Friday morning.

A tour of a potato farm and a visit to a youth fair and amalgamated dairies and creameries will leave for Halifax Saturday afternoon.

The other half of the 1962-63 class is touring western Canada.

BUENOS AIRES (AP) — Spreading among the armed forces Tuesday to President Gaito's efforts to impose his freshly won civilian authority on the military.

There was obvious dissension in all three services over Gaito's new military appointments. A flood of uncommitted reports said a large number of anti-Gaito officers had been arrested. It was just such a shakeup in the military high commands last August which touched off last week's brief but bloody rebellion.

Brig-Gen. Cayo Antonio Alzola, air force commander, and Gen. Juan Carlos Onganía, the rebellion leader and now army commander-in-chief, within their own forces and on the navy to pledge support of Gaito.

19 OFFICERS RESIGNATIONS — The navy, which took no part in the fight last week that gave Gaito a victory over one set of military bosses, said it had not received an army-air force demand to clarify its position.

Brig-Gen. Cayo Antonio Alzola, air force commander, and Gen. Juan Carlos Onganía, the rebellion leader and now army commander-in-chief, within their own forces and on the navy to pledge support of Gaito.

Tax Incentives Study Planned For Maritimes — MONCTON (CP) — A Scottish economist is to begin work early in the new year on a study of tax incentives in the Atlantic Provinces.

The Atlantic Provinces Research Board has reached agreement with Prof. Thomas Wilson of the University of Glasgow to conduct the study of the types of tax incentives which would be most effective in helping to stimulate economic activity in the Atlantic Provinces, it was disclosed Tuesday following a board meeting here.

The professor is expected to start work after Christmas and visit the region after Easter. It was expected his report would be done in time for the annual meeting of the Atlantic Provinces premiers late next summer.

BUZZ US PLAN — BERLIN (Reuters) — United States Air Force aircraft Tuesday was approached by two Soviet fighters in the air corridor about 45 miles southwest of West Berlin's Tempelhof Airport. U.S. Army officials said they said the Soviet fighters flew across the American aircraft's flight path at a distance of 300 feet.

## Road Stabilizing Method Used In Paving Program

SUMMERSIDE — The road stabilizer, owned by Tri-Mix Company of Summerside with a Bureau of Kensington at the controls is seen in action Monday afternoon in the Mont Carroll area where it has stabilized about five miles of highway during the past week preparatory to laying asphalt.

The machine improves the stability of the roadbed by mixing cement, water and sand, providing a seven-inch base that is much more durable and cheaper than the former bed of sandstone and gravel. The machine can stabilize about a mile-and-a-half of highway a day.

The operation, unfamiliar to most Islanders as yet, begins with graders equipped with sensors for loosening the earth on which a layer of cement is placed.

The stabilizer, followed by a water truck, then takes over mixing the three ingredients together and pushing the mixture into the rear of the machine. The water truck is equipped with hoses which are attached to the stabilizer.

Graders again come into action following the base mixture, which machines equipped with steel rollers and finally rubber rollers compact the road bed. After a grader slaves the bed smooth, a thin layer of emulsified asphalt is laid down to seal the moisture.

## Counterfeit Bill Is Found In S' Side

SUMMERSIDE — A counterfeit \$10 bill was spotted by an alert clerk Monday at Boates Pharmacy in Summerside and it's believed it was passed by a local man who recently returned from Montreal unharmed.

It is speculated the bill was part of a counterfeit lot that was circulating in Montreal earlier this year.

David Campbell, a pharmacy employee, spotted the bill on opening the cash register to make a deposit. The bill was lying on top of other bills and Mr. Campbell immediately noticed the photo of the Queen was not as sharp as usual.

The proprietor, Roy Boates

## S' Side Mail Delivery Service Needs Proper Receptacles

SUMMERSIDE — With Summerside's postal delivery service getting a final check-out before commencement of the new service on Oct. 1, Summerside Postmaster W. F. Griffin said yesterday he would appreciate the cooperation of patrons of the Summerside office who have not yet arranged for proper mail facilities at their premises.

Noted there are still some locations where mail receptacles, either a letter slot or box, have not been provided. Mr. Dougall, Pictou, N.S., husband of Wilma Boehner, daughter of the late Ernest Boehner, Mrs. Boehner of Pictou, and formerly of Charlottetown, Pictou, will take place Friday morning at 9 o'clock to Stella Marie Church, Pictou, N.S.

WHITEHEAD — At the Prince Edward Island Hospital, Tuesday, Sept. 25, 1962, Mrs. John W. Whitehead of Clinton, aged 73 years. Remains will be forwarded from the Davison, Funeral Home to the home of her daughter, Mrs. Don Taylor, Clinton this Wednesday evening. Funeral will be held from St. Margaret's Church, Thursday, with service commencing at 2:30 p.m. Burial will be in the New London cemetery. Please omit flowers.

OBITUARY — Inserted by friends and relatives as a tribute to the deceased.

MR. JAMES T. MCCAUGHY — The death of Mr. James T. McCaughy occurred at his home on Sept. 25, 1962, in his 78th year.

The late Mr. McCaughy was born in 1884 to James Lawrence McCaughy and Mary Anne Condon McCaughy. He enjoyed good health until about a year ago when he became ill. He was a member of the St. John's Church and was a member of the St. John's Club.

GARD OF THANKS — The family of the late James T. McCaughy wishes to thank sincerely relatives, friends, and neighbours for their acts of kindness and all others who so kindly helped, also for masses, eulogies, and services.

## Maritime Show Prospects 'Good'

BY NEIL A. MATHEON — Provincial and Farm Editor of the Maritime Mirror, said the proposed Maritime Championship show which would alternate between the provinces, and we have suggested it be held here in 1964, when we celebrate our 100th Centennial." Acting Premier Andrew MacRae said yesterday.

MacRae and his deputy minister, S.C. Wright, met Nova Scotia and New Brunswick ministers in Charlottetown, along with some directors of the Maritime Stockbreeders Association, which made the proposal.

AGREE TO PROPOSAL — The ministers agreed to the proposal to far as recommending the necessary money appropriation to their legislatures early next year, is concerned. "I think the legislatures should vote the money, because it's not a large sum and we've less than the money they formerly voted each year to the old M.W.F.," Mr. MacRae said.

It has been suggested that the prices should be higher than they used to be because there will be fewer classes.

"We suggested" the acting president's five appointments: Liberals 2; Conservatives 2; Independents 2; Independent-Liberal 1; vacant 6; total 102.

Population Of Province Said 106,000 — OTTAWA (CP) — Canada's population at June 1 was an estimated 10,700 persons, an increase of 331,753 over June 1, 1961, when the last decennial census was taken.

Population figures, released today by the Dominion Bureau of Statistics, show the largest increase during the year. That province gained an estimated 106,700 residents to bring its population to 5,366,000. Ontario's population was estimated to have increased by bringing its count to 6,342,000 at June 1.

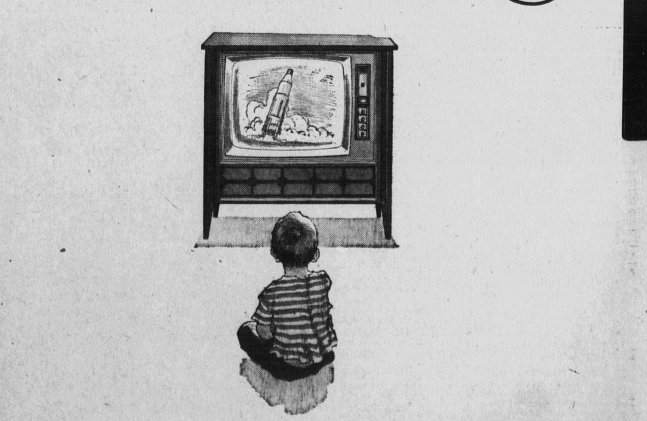

Population in the other provinces, with census figures in brackets: Newfoundland 476,000; Nova Scotia 746,000 (737,007); New Brunswick 697,000 (697,588); Prince Edward Island 104,000 (104,020); Manitoba 983,000 (921,991); Saskatchewan 930,000 (925,181); Alberta 1,070,000 (1,031,944); British Columbia 1,669,000 (1,629,082).

The Yukon had a population of 15,000, up 372 from a year earlier, and the Northwest Territories 24,000, up by 922.

The figures show Canadian males continue to outnumber females—9,774,000 to 9,952,900. The preponderance of males was reflected in all provinces.

5 NEW — (Continued From Page 1) cabinet. He was re-elected to the House of Commons in 1961. In 1961, Mr. Fournier was elected to the Commons in a by-election in British Columbia. He was defeated in this year's general election. Mr. Fournier stands following

## Philips TV takes the time to build the best

This new 1963 Philips TV will still be working by the time he is (Monitor Control is the reason why)

His first job is a long way off. Yet you can be sure that when the day arrives and he's off to work, your Philips Monitor Control TV set will be working too. What's the reason behind this dependable service? A new TV discovery.

Philips electronic experts decided to do something about a common household fault that often results in premature failure of the picture tube and other expensive TV parts. This common fault is power surge. To lock this problem, our experts developed the

MONITOR, a small but incredibly sensitive electronic device which prevents these power surges reaching and damaging the expensive parts of your Philips set. Because of this added protection Philips has increased its picture tube warranty to 2 full years. Your nearby Philips dealer will be glad to show you Philips Monitor Control TV... and you'll be glad to meet him. We picked him for his courtesy, his integrity, his ability, and his willingness to provide responsible "Follow-Through" service. See your Philips dealer today.

NOW WITH TWO YEAR PICTURE TUBE WARRANTY
