St. Patrick's Concert Held At Grand River

A most delightful and hilarious evening was enjoyed by the large crowd, who attended the Variety Concert held in Grand River Parish Hall on March 17, in honor of St. Patrick.

The concert was capably directed by Mr. Harold McIntyre who welcomed the crowd. Father Pius Murnaghan, parish priest, said he was glad to see such a large crowd and hoped all would enjoy their evening.

The participants of the concert consisted of some adults and the children of three surrounding school districts, Cross Rivers, Arlington and Bayside, all pitching in and doing their parts admirably, considering the short time they had to prepare it. Much credit is due to the school-teachers, Jerry McKinnon, Mrs. Lorne Morrison and Mrs. J. A. Brown for their hard work and sincere interest in training the very young and older pupils alike; credit is due also to Mrs. Joseph MacDonald for her help in training them and for designing all costumes.

Education Week was observed

Education Week was observed in Breadalbane Village School on March 12, when the teacher, Mrs. Ewen Todd, had "open house" for the parents and other interested friends. Grades one and two had a lesson in reading; grades three, number work and language; grade four, spelling; grade six, geography; grade seven, eight and nine, science and grammar. A nature study match concluded the interesting examination which was very well conducted by the teacher and much enjoyed by the visitors.

Mr. and Mrs. James Todd, Rose Valley, were guests of Mr. and Mrs. Ewen Todd during the week-end of March 7.

On March 17, Mr. John M. MacDonald, Rose Valley, was the guest of Mr. Charles Todd, Breadalbane. The occasion marked the 52nd anniversary of the date when these two gentlemen made their first trip to Portland, Me. They recalled the hardship of travel in March, 1902. At that time the regular boat the "Stanley" was icebound. Consequently the trip between Cape Traverse and Cape Tormentine was made by an iceboat which was reached by walking one mile. The iceboat was then hauled by the passengers until they were within three miles from Cape Tormentine where open water was reached; the crossing was completed by rowing the intervening distance.
