

**EXPLOSION RIPS STREET**

An explosion blamed by police on leaking natural gas, ripped up 100 feet of pavement at Yonge and Adelaide streets in downtown Toronto early Monday. Police said if the explosion had taken place at rush hours hundreds would have been killed or injured. Flying chunks of concrete shattered building fronts and store windows at the intersection.

**Record Water Shipments Of Coal Expected In 1964**

SYDNEY (CP)— Dominion Steel and Coal Corporation expects 1964 to be a record year for coal shipments by water out of this port. Shipments by rail, heavy during late 1963, are also expected to be at a high level next year. The biggest factor in Dosco's sale of coal to Ontario Hydro, marking the first time Nova Scotia coal has been shipped on a large scale west of Quebec. Federal transportation assistance in the form of subventions helped Dosco swing the deal for 2,800,000 tons of coal, to be supplied over a five-year period. This contract, signed last October, carried the possibility of an extension at the end of the five-year period, said Dosco President A. L. Fairley, Jr. A fire at the International Piers here this year could have proved disastrous for Dosco and its coal shipments, Mr. Fairley told the annual shareholders meeting. But at the time of the fire, a new push-button pier was being planned and now is well under way. AUTOMATIC LOADING "The pier will be able to dump 2,000 tons of coal as they are loaded into a highly automatic operation that will be in sharp contrast to the makeshift system forced upon the company by the fire.
