

Fact and Rumor.

Mrs. Capel is said to have discovered that American women are better educated than their husbands.

An exhibition of "incoherent art," contributed by French painters who have established a reputation for eccentricity, has been opened in Paris.

Webster's Spelling Book, still in use in some United Schools, has been in print 100 years. The sales to date amount to 75,000,000 copies.

"There are souls in my church so small," said Mr. Talmage to a reporter. "So infinitesimal, so mean, that fifty of them could dance a schottische on the point of a cambric needle without touching each other."

The milk cure is one of the institutions of Baden. People are supplied with fresh foaming milk at any hour of the day, by the man who has a quiet little establishment, with a sunny garden and tables at the front, and at the back stalls stocked with goats and cows.

Nordenskjold, notwithstanding the fact that his men penetrated the interior of Greenland to the distance of 230 miles, and found only fields of ice, and mountains of snow, still considers it possible that there may be snowless and fertile regions in the centre of the country.

The little one-story house in which the late inspired Joseph Smith dictated the Book of Mormon to his scribes, Harris and Cowdry, is still standing on the north bank of the Susquehanna River, in the little Pennsylvania city of that name. It is, however, in such a dilapidated and rickety condition, that it threatens to fall down about the ears of the present occupant.

The Scientific American declares that hot bread is poison, and launches its thunders at muffins, waffles, hot biscuits, and many other articles of diet that render life delightful. Now that the season of buckwheat cakes has been fairly ushered in, it is painful to reflect that everything good in the world is from a scientific standpoint, so extremely bad. Nothing is healthy but science.

The Emperor of Austria was considerably surprised a few weeks ago, at receiving from one of his subjects, a Galician peasant, the following telegram:—"To His Majesty, Francis I, Vienna: My wife, mother of six small children, sentenced to six days imprisonment. Implore pardon. Answer prepaid." The Emperor forthwith instructed the judge who had imposed the sentence to forward a special report of the case.

Mr. Ruskin savagely says of fashionable love matches: "There are no words strong enough to express the general danger and degradation of the matters of mob courtships, which have become the fashion—almost the law—in modern times; when in the miserable confusion of candlelight, moonlight, limelight—and anything but daylight—in indecently attractive and insanely expressive dresses, in snatched moments, in hidden corners, in accidental impulses and dismal ignorances, young people smirk and ogle and whisper and whimper and sneak and stutter, and fumble and blunder into what they call love."

Three men and two women, representing one of the savage tribes of Brazil, have arrived in New York. The men are less singular in their appearance than their companions, who seem much annoyed by the curious glances passed at them. They are specimens of a tribe whose women add to their beauty by cutting slits in the lower lip and stretching it over a piece of hard wood. The treatment is begun in childhood. At that time the wooden disc is of small dimensions. As the child grows the disc is changed from time to time, each disc being larger than its predecessor, till it is fully three and a half inches in diameter and about a quarter of an inch in thickness.

AYER'S PILLS.

A large proportion of the diseases which cause human suffering result from derangement of the stomach, bowels, and liver. AYER'S CATHARTIC PILLS act directly upon these organs, and are especially designed to cure the diseases caused by their derangement, including Constipation, Indigestion, Dyspepsia, Headache, Dysentery, and a host of other ailments, for all of which they are a safe, sure, prompt, and pleasant remedy. The extensive use of these PILLS by eminent physicians in regular practice, shows unmistakably the estimation in which they are held by the medical profession.

These PILLS are compounded of vegetable substances only, and are absolutely free from calomel or any other injurious ingredient.

A Sufferer from Headache writes: "AYER'S PILLS are invaluable to me, and are my constant companion. I have been a severe sufferer from Headache, and your PILLS are the only thing I could look to for relief. One dose will quickly move my bowels and free my head from pain. They are the most effective and the easiest physic I have ever found. It is a pleasure to me to speak in their praise, and I always do so when occasion offers."

W. L. PAGE, of W. L. Page & Bro., Franklin St., Richmond, Va., June 3, 1882. "I have used AYER'S PILLS in numerous instances as recommended by you, and have never known them to fail to accomplish the desired result. We constantly keep them on hand at our home, and prize them as a pleasant, safe, and reliable family medicine, FOR DYSPEPSIA they are invaluable."

J. T. HAYES, Mexia, Texas, June 17, 1882. "THE REV. FRANCIS B. HARLOWE, writing from Atlanta, Ga., says: 'For some years past I have been subject to constipation, from which, in spite of the use of medicines of various kinds, I suffered increasing inconvenience, until some months ago I began taking AYER'S PILLS. They have entirely corrected the constive habit, and have vastly improved my general health.'

AYER'S CATHARTIC PILLS correct irregularities of the bowels, stimulate the appetite and digestion, and by their prompt and thorough action give tone and vigor to the whole physical economy.
