SACKVILLE, N. B.

Freetown and Vicinity

Mrs. Clifton Matheson and bright young children Mary, Malcolm and Ross are summering at their cottage at Bedeque shore.

Miss Emma Reeves spent the past week visiting relatives in Charlottetown and Hampshire.

Friends of Mrs. Jonah Lewis are pleased to see her out again and hope that she will continue to enjoy good health.

Congratulations are being extended to those students of the community, who were successful in the recent Matriculation Examinations. Special mention might be made of Miss Frances Cairns, daughter of Mr. and Mrs. Frank Cairns. Miss Cairns had the high total of 608. Credit too is due their teachers under whose skilful supervision those students attained such an high standing. May the same success follow them throughout their college years.

There was a large attendance at the Freetown United Church on Sunday night and Rev. Mr. Hoddinot delivered a thought provoking sermon. Rev. Mr. and Mrs. Hoddinot are strangers among us but we hope that as time rolls us that Prince Edward Island and its people will become very dear to them.

Mr. and Mrs. Austin Scales and family have returned from a very enjoyable visit to other parts of Canada.

Miss Enid Lewis, our amiable nurse is at present in Summerside on professional duties.

Her friends regret to hear of the illness of Mrs. Florence Jardine in the Prince County Hospital, and all hope for an early recovery.

Mr. and Mrs. Alfred Reeves, Lower Freetown, are receiving congratulations on the arrival of a lovely baby girl.

Miss Hughes, Charlottetown, is the guest of Mr. and Mrs. Daniel Murphy, Noroboro.—F.

Canadian Jesuits Released By Japs

MONTREAL, AUG. 18—(CP) — Rev. Joseph Courchesne and Rev. Rosario Renaud, Montreal Jesuits held by Japanese authorities since Aug. 8 for alleged anti-Japanese activities have been released, according to word received here today by Rev. A Papillon, provincial of Canadian Jesuits.

The release was announced, Father Papillon said, in a brief cable from the order's house in Suchow area where Father Courchesne and Father Renaud were arrested.

(Reports reaching Shanghai last Wednesday said the Japanese accused Father Renaud of being the president and Father Courchesne the secretary of an anti-Japanese society which allegedly held meetings at the missions.)

In Memoriam

MRS. BOYD HARDING

After a lingering illness of almost a year Mrs. Boyd Harding aged 61 years, one of French River's most highly respected neighbors passed on to the great beyond on Sunday, August 13th at the Prince County Hospital, Summerside, having entered only three days prior to her passing for treatment.

Of a genial and loving disposition she enjoyed a wide circle of friends throughout the province, who will hear of her death with their sincerest regret.

Mrs. Harding was the daughter of the late Mr. and Mrs. James Hiltz, of French River. She was a devoted member of the Anglican church and a staunch supporter of its many activities, a woman of the highest moral attainments, kind and hospitable and departed this life as she had lived, sustained by an unfaltering faith in the Christian hope.

Those left to mourn her passing in addition to her sorrowing husband are three daughters, Mrs. J. MacRae, Mrs. Adams, Mrs. L. Campbell all of French River, four sons, Harry of Detroit, Mich., Heath Cecil, Preston at home and one brother, Mr Alexander Hiltz of Kensington, to all of whom their many friends extend their heartfelt sympathy.

The funeral services were conducted on Tuesday, August 15th at her home in French River by Rev. Mr. Phillips assisted by Rev. Mr. Pitcairn. Mr. William Semple and Mr. Roscoe Walker in a duet sang that beautiful hymn "Beulah Land". The remains were laid to rest in Springbrook, cemetery. The pallbearers being Messrs. Wm. Delaney, Everett MacLeod, Wilfred MacRae, Harry Hardy, George Simms and Samuel Bernard and funeral arrangements were under the supervision of Mr. Joseph Davison ,undertaker, Kensington.

New Engine To Give Bombers 400 M.P.H. Speed

(By DEVON FRANCIS)
(Associated Press Aviator Editor)

NEW YORK, Aug. 18 —(AP)— An aeronautical engineer yanked a tarpaulin unceremoniously off an exhibit in the aviation building at the New York World's Fair today to uncover the most powerful high altitude aircraft engine ever built.

Tested by both the United States Army and Navy, it will make possible speeds above 400 miles an hour for bombing planes for the first time since the feverish quest for higher speeds began incident to the worldwide rearmament.

The engine, with a rating of 1,600 horsepower above altitudes of 20,000 feet, is highly supercharged. Streamlined in accordance with specifications of the National Advisory Committee for Aeronoutics, it is bullet-like, compact and narrow of profile to reduce wind resistance. At the Fair, it is mounted in a display wing.

Military men attach high tactical value to high-speed bombers. In war time they could not only elude defending pursuit planes but also would make difficult targets for anti-aircraft fire.

Unofficially, it was said that no world power had yet produced a bomber which would approach within seventy-five miles an hour the speed made possible by the new engine.

Produced by the Pratt and Whitney Division of United Aircraft Corp. and supercharged with the aid of the Naval Bureau of Aeronautics, it contains 18 cylinders in two "banks" which are cooled both by a frontal blast of air and by wing ducts which deliver air to the rear cylinders.

To reduce 'drag" on head resistance, the engine is smaller in diameter than any engine of similar horsepower ever built.

It is on open display at the Fair, with transparent plastic coverings in place of metal streamlined cowlings, but little can be seen by spectators except the general outline. Guards patrol in front of it and will stay on duty as long as it's on exhibition.

Virtually all of the rice, vanilla and pepper and 84 per cent of the cocoa used in France last year came from French colonies.

The number of horses and mules on United States farms has been estimated at 11,163,000, about one half as many as 24 years ago.

The legs and four stools that accompany a new picnic table can be packed in the top of the table, which is carried like a suit case.

Inman Picnic At Bedeque

The Inmans from all parts of the Province as well as from Florida, Concord, N. H., Jamaica Plains, Mass., Haverhill, Mass. and Boston, assembled on Thursday afternoon, Aug 10th on the beautiful lawn of Mr. T. J. Inman, Bedeque to celebrate the one hundred and twentieth anniversary of the landing of their forefather, John Inman and his wife, Rebecca Duke with their five sons, John, Mark, William, Thomas, Robert and daughter Mary at Hampton beach. The day was ideal and the party sat about the spacious lawn on seats provided by their host under the shade of the huge spreading trees enjoying one another's friendship. The president Mr. T. J. Inman formed the party one hundred and thirty-five in all into a large circle and introduced the guests of honor, Mrs. Mary A. Inman, Mrs. Grace Stordy and Mrs. Hannah Inman, aged ninety-seven, ninety-five and ninety years respectively, who were received amid loud applause. These young, old ladies are enjoying excellent health, the latter (Mrs. Hannah Inman) travelling from as far south as Florida to be present at this gathering which is held every two years. Regret was expressed that the other two members, Mrs. Thomas Tuplin, Margate, who also has attained four score and ten years, was detained on account of illness, and Mr. John T. Inman, Hampton, who was also absent and in his ninety-first year. The others were also each in turn introduced by the President and thus all became acquainted and the hours wiled away in pleasant conversation until supper was announced. A row of tables prepared by the host under the shade of the trees fairly groaned under the weight of the good things prepared by the ladies.

After supper games were indulged in by the young folks under the direction of Mr. Mark Cameron and prizes awarded the winners. Short addresses were then given by the following:—Mr. T. J Inman, Bedeque, Mr. John M. Inman, Concord, N. H., Mrs. James Inman, Florida, Miss Lillian McFarlane, Jamacia Plains, Mass., Mr. Wm. Callbeck, Bedeque, Mr. S. B. French, Charlottetown and Mr John T. Inman, St. Catherines.

A feature of much interest to all was the family chart in the form of a huge wheel to which is attached names of the various generations now numbering seven, also the original deed owned by pioneer John Inman from the government in 1820 and bearing his signature. This property is now in the possession of his great great grandson, David Cameron, Hampton.

Officers were appointed for the next two years as follows: Mr. S. B. French, acting as chairman—President, T. J. Inman, Bedeque (re-elected), Vice president, T. H. E. Inman, Summerside, Secretary-Tres., Mrs. Warren Inman, Hampton (re-elected). Music Committee—Mrs. Clark McQuarrie, Summerside, Mrs. T H. E. Inman, Summerside, Mrs. Charles Merlin, Haverhill, Mass. Sport Committee—Robert Inman, Summerside, Ray McKinnon, North River, Mervin Inman, Lot 16, Kenneth Muttart, Carleton. A hearty vote of thanks was extended the host and hostess, Mr. and Mrs. T. J. Inman for their kind hospitality and use of their lawn to which Mr. Inman graciously responded and invited all to meet again with them at Bedeque in August, 1941

Fire On Freighter Is Under Control

BOSTON, AUG. 18—(CP)— Fire which raged in the wool and cotton cargo of the American Freighter Labette today was brought under control by gas masked firemen.

Twelve streams of water were directed on the freighter by the fireboat Angus J. McDonald, but dense clouds of black smoke continued to pour from the vessel's No. 1 hold. The plates on the starboard side had begun to buckle and attempts were being made to flood the compartment.

Meanwhile, longshoremen worked to remove cargo from other holds.

The freighter, owned by the Lykes coastwide line, arrived last night from Gulf ports.

The Labette's bow sank perceptibly as water was admitted to the hold, which contained 900 bales of cotton and 500 bales of wool.

Canada—U. S. Sign Aviation Agreement

OTTAWA, Aug. 18 —(CP)—By an exchange of notes here, the Canadian and United States Governments today made effective a schedule of basic principles which will govern air transport services between the two countries after this.

The notes were signed by Prime Minister Mackenzie King as secretary of state for external affairs and Daniel C. Roper, United States Minister to Canada.

The reciprocal arrangement endorsed today was drafted last week by a civil aviation conference here representing the two governments. Details of the application of the principles laid down will be the subject of amicable adjustment between the competent aeronautical authorities of the two countries.

who tacked a 73 to a 72, and Ted Bishop, the Boston amateur, who blew from 69 to 76 as the magic went out of his woods. Bishop's was nothing to the blow kicked up by Phil Farley of Toronto, one of Canada's leading amateurs who couldn't do a thing right and came in with 80.

Somerville In Comeback

Top Canadian amateur with his first-round 70, Farley dropped behind Ross (Sandy) Somerville of London, Ont., who staged a fine comeback on the last nine for a two under 33, a round of 73 and a 36-hole total of 148. Sandy's disasterous 40 on the out nine included a six on the eighth where he had to take two strokes out of a deep sand trap when his ball caught the bottom ledge in an almost unplayable position.

Sandy also three-putted a green to the turn but coming home he had his game under control for the first time. He started back with a bogey and two pars before he knocked off two straight birdies with putts of eight feet and four feet on the 13th and 14th holes respectively. He bagged another birdie on the 16th. His iron work for which Sandy was always noted and which had failed for 27 holes was at his best on these holes where he had only short putts for the birdies.

Guldahl's rise to a 38, three over par on the last nine came suddenly and without warning. He had perfect weather, warm and with little wind, to work in and he had knocked off three birdies to the turn. He overshot the green for a bogey on the short 10th, sliced into the woods for another bogey on the 11th, three-putted the 16th and over-drove the 218-yard 18th.

He got his only birdie on the home nine at the 500 yard 14th where his bid for an eagle three missed by inches. He hit a 280-yard drive and a strong iron carried him to the back of the green.

Horne Continues Steady

Horne continued his steady play and said afterwards he thought he could do even better in the last two rounds. His chip shots and putts worked exceptionally well. A fourth iron shot that landed only seven feet from the pin on the 489 yard fourth left him a chance for an eagle but that was one of the few short putts that missed.

He grabbed another birdie on the 13th when another fine iron left him a three-foot putt. His worst trouble was on the ninth where he drove into the woods and overshot the green, leading to a bogey five.

A stroke back of Farley for amateur honors was Henry Martell of Edmonton, finalist in the Canadian Amateur and recent winner of the Ontario Open. Martell had 75-76—151 and had for company such good professionals as Bobby Gray of Toronto, 75-76—151, and Leo Diegel of Philmont, Pa., four times winner of the event, 75-76—151.

Martell went out in 40, five over, and like yesterday recovered on the home nine. He went two strokes over par on three holes, taking two sixes, and his only birdies, at the 13th and 14th, couldn't begin to overcome the stokes he already had yielded to par.

In the group with Farley were Clare Chinery and Bill Kerr, Toronto professionals and Jimmy Thomson of Shawnee-on-Deleware, blew himself to a 77 after a steady 73 in the first round. Jules Huot of Quebec had the same figures as Thomson but Bobby Alston, the pint-sized Ottawa pro, came home in 34 for a 72 that left him in good position to pick up some prize money with 147.

Duchess Buys Fall Wardrobe

PURCHASES 20 TRUNKFULS OF PARIS HATS, COATS AND GOWNS — DISLIKES BUSTLE DRESSES.

Paris, Aug. 17—The Duches of Kent, in a whirlwind buying tour in Paris preparatory to her autumn departure to Australia, has given the public a preview glimpse of coming winter fashions, including the disclosure that women's hats will not be quite so freakish.

If Paris is right, hats will look like hats again, with no more of the "clown hats" with ridiculous small crowns . Instead they will take the form of scoops or pirates' caps, or Robin Hood bonnets with bright quills piercing the hat.

The most popular hat colours are dark brick-red and hunting green. Hats are expected to change their fashions to make the hair shorter and less curly.

The Duke and Duchess of Kent were en route by motor for a vacation in Jugoslavia to-day, after the duchess had finished a shopping spree in Paris, during which she bought enough gowns, coats and hats to fill 20 trunksg.

Australian Wardrobe

The duchess completed her wardrobe to take to Australia this autumn, when the duke assumes his post there as governor-general.

The dressmakers interrupted last-minute preparations for their style shows to pin up hasty models from which the duchess picked plenty to take along, and earmarked others to be airmailed to Australia if she needs more "down under."

The duchess will need summer clother in Australia, where the seasons differ, but the dresmakers met that by adapting the winter lines to summer cloth.

Conservative Tastes

The duchess, the former Princess Marina, of Greece, generally chose conservatively, refusing the new bustle dresses for evening wear. She picked dozens of filmy evening dresses in chiffon and tulle, with narrow waists and full skirts. She picked dressy broad-rim hats with ostrich feathers as an Empire note.

It was still too early to predict what the definite trend of winter fashions will be, but it was already evident that women will no longer dress like 20th century schoolgirls but more like sophisticated grande dames.

Dresses are a little longer, but the line has not been changed greatly, and dressmakers show their originality in garnishings, some of which take the form of four leaf clovers or the ace of spades as pockets or decorations.

Some houses are setting strips of gold chain or braid in the shoulders. The most freaky decorations shown so far are feathered birds in bright colours, used in pockets on dresses, skirts and coats. Another dress has a turnover collar in matched feathers.
