GREAT BOOM!

Away Ahead!

IT IS A FIRST-RATE PLACE TO BE, and as we undoubtedly possess the ability to keep ahead, we can afford to lend a helping hand to our numerous struggling competitors. As we have attained to the proud position we now enjoy as leaders in our art, through years of toil and hard work, we would say to our competitors, DON'T BE DISCOURAGED. Step by step, if you persevere, perchance may find you approaching our present standard. BUT REMEMBER! you will not find us there. Perfecti n is our Standard, and nothing short of that will satisfy our ambition to present a faultless garment upon a faultless gentleman.

To supplement our own natural skill, we employ artists who acknowledge no superiors in the Dominion of Canada. Thus equipped with superior heads and unequalled hands, and Goods of the finest quality, we feel safe in saying that we are prepared to fill the bill every time.

The Favorite

Medicine for Throat and Lung Difficulties has long been, and still is, Ayer's Cherry Pectoral. It cures Croup, Whooping Cough, Bronchitis, and Asthma; soothes irritation of the Larynx and fauces; strengthens the Vocal Organs; allays soreness of the Lungs; prevents Consumption, and, even in advanced stages of that disease, relieves Coughing and induces Sleep. There is no other preparation for discharges of the throat and lungs to be compared with this remedy.

"My wife had a distressing cough, with pains in the side and breast. We tried various medicines, but none did her any good until I got a bottle of Ayer's Cherry Pectoral, which has cured her. A neighbor, Mrs. Gienn, had the measles, and the cough was relieved by the use of Ayer's Cherry Pectoral. I have no hesitation in recommending this

Cough Medicine

to every one afflicted."—Robert Horton, Foreman Headlight, Morrilton, Ark.
"I have been afflicted with asthma for forty years. Last spring I was taken with a violent cough, which threatened to terminate my days. Every one pronounced me in consumption. I determined to try Ayer's Cherry Pectoral. Its effects were magical. I was immediately relieved and continued to improve until entirely recovered."—Joel Bullard, Guilford, Conn.

"Six months ago I had a severe hemorrhage of the lungs, brought on by an incessant cough which deprived me of sleep and rest. I tried various remedies, but obtained no relief until I began to take Ayer's Cherry Pectoral. A few bottles of this medicine cured me."—Mrs. E. Coburn, 19 Second st., Lowell, Mass.

"For children afflicted with colds, coughs, sore throat, or croup, I do not know of any remedy which will give more speedy relief than Ayer's Cherry Pectoral. I have found it, also, invaluable in cases of Whooping Cough."—Ann Lovejoy, 1257 Washington street, Boston, Mass.

Local and Other Items.

DEMENT.—The report of disorderly conduct on the part of a student at Mount Allison is denied.

CORRECT.—Marshal Thibideau, of Moncton, has begun a crusade against the disorderly houses there.

SCARLET FEVER.—Scarlet fever is prevalent at St. John, and as a result there is a small attendance at the schools.

Cleans the scalp from scurf and dandruff; keep the hair soft and of a natural color by the use of Hall's Vegetable Sicilian Hair Restorer.

MILITARY.—Seventy graduates and ex-cadets of the military college, Kingston, Ont., have secured commissions in the Imperial army since 1880.

COMING UP.—It is said that next year Amherst will pay taxes on about \$1,000,000 more property than it did last year. The amount includes about \$650,000 income.

FOUR DOLLARS A YELL.—John Elliott was before the Stipendiary yesterday. He had felt an overpowering desire to shout and yell, which he did to the disgust of the residents of Waterloo street. John's amusement cost him \$4.—St. John Telegraph.

BILLIARDS.—Harvey McKenna, the billiard champion at the three-ball cushion "cannon" game, is in Atlanta, and has given several exhibitions of his skill with the cue. He is in bad health and on his way to Florida. He is booked for several exhibitions in Macon.

THE TONSURE.—On Monday, the 3rd inst., the ceremony of tonsure was conferred on Mr. Frank C. Kelly, of the Diocese of Chatham, a son of John Kelly, Esq., Water Commissioner, of Charlottetown, by His Lordship Bishop Boguin in the chapel of the Grand Seminary, Chicoutimi, P. Q.

The harsh, drastic purgatives, once deemed so indispensable, have given place to milder and more skillfully prepared laxatives; hence the great and growing demand for Ayer's Pills. Physicians everywhere recommend them for costiveness, indigestion and liver complaints.

BURGLES IN A CHURCH.—One night last week some persons broke into the Roman Catholic Church at Fairville, St. John. The poor box contained at a fair collection, but the money was not touched. It is supposed the burglars were frightened off before they had a chance to break open the box.

STILL THEY COME.—At Montreal on Friday William Fahey, aged 18 years, an inmate of the Boys Home, while playing with a revolver, shot a younger lad named William Foley. The ball entered Foley's body an inch below the heart, and at latest accounts had not been extracted. His condition is critical. Fahey is in jail.

FOUND DEAD.—Mr. Joseph Orr, butcher, was found dead in the woods, near Cow Bay, C. B., a few days ago. He was last seen driving a number of cattle along a road through the woods. The body was found only a few feet from the road, while the horse was standing in the middle of the road. The cattle were scattered through the woods.

MEANS BUSINESS.—A Washington despatch says that action has been taken by Secretary Whitney which leaves no doubt as to the policy of the government with regard to the American steamer Hayti Republic, recently seized at Port au Prince, Hayti. The release of the vessel has been demanded through the proper diplomatic channels, and if the demand is not complied with within a reasonable period of time steps will be taken to enforce it.

TEACHERS' RIGHTS.—Says the Yarmouth, N. S., Times:—The police court on Saturday was occupied in hearing an assault case at Lower Arzyle. A school teacher was charged by a parent with assaulting his boy who attended the school. The assault complained of consisted of a punishment administered in school. After hearing considerable evidence, Judge Hilton dismissed the case, stating that a teacher had the same right to chastise a pupil at school that a parent had to punish his child.

STEAMED EGGS.—This is a dish that can be eaten by invalids with impunity, and the eggs are much richer than when cooked in the shell, as then they often taste of the lime contained in the shell, and when broken into water it destroys the flavor entirely. But in a tin dish (or patry-pans) and break in your eggs, set in a steamer over a kettle of boiling water, and steam until the whites are cooked. They are more ornamental when cooked in patry-pans, as they retain their form better. The whites of the eggs when cooked in this way are tender and light, not tough and leathery as when cooked by other methods.

A VALUABLE CARGO.—The brig, Peeres, McLeod, master, sailed on Saturday for Hamilton, Bermuda, with the following cargo: 317 sacks oats, 57 half-sacks do, 5 brls turkeys, 1 brl celery, 6 tubs butter, 1 coop turkeys, shipped by Horace Hazard. 212 bags oats, 277 brls potatoes, 15 brls turkeys, 1 brl oatmeal, 1 brl pearl barley, shipped by B. Horne and the owner, Mr. H. C. Outerbridge, and 16 horses shipped by W. F. Robbins and others. Her cargo is valued at \$7303.

The following were the passengers: J. E. Grant, Miss Tixott, H. Baker, Mrs. N. McCormack, Miss L. McDonald, S. Roberts, D. McLeod, E. O'Brien, J. Down.

ADVISE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. [April 1 '88]

Odds and Ends.

A Berlin scientist says salt is conducive to longevity.

A man was recently arrested in Maine who had wives in half a dozen states, including a state of indignation.

A Philadelphia man boasts that his wife is mistress of five tongues. The average man doesn't ask that his wife be mistress of more than one.

In Chili, during one storm in September, it is estimated that at least thirty-six inches of water fell, causing much damage in Valparaiso and the surrounding districts.

"Ma," inquired Bobby, "hasn't pa a queer idea of heaven?" "Well, I think not, Bobby. Why? "I heard him say that the week you spent at the seashore seemed like heaven to him."

The latest feature in ocean steamship building is the turn screw. The new addition to the Hamburg-American line has this new attachment which it is thought will greatly add to her speed.

The inferior physique of a large portion of the British Army is attracting attention in Great Britain. The health of the home troops is so much below the proper standard that a reform is needed.

The chiropodist is a humble individual. In the profession he begins and is content to remain at the foot. The barber, on the contrary, is ambitious. He begins at the head and stays there. Next.

The charitable donations and other bequests to commemorate the occasion of Emperor Francis Joseph's Jubilee, amounting to \$15,000,000, which will be devoted to the erection of hospitals, schools and churches.

Two little girls who were playing church. One said: "Now, we are to have prayer. You kneel down and be a 'real Christian'; I'll just sit down and put my hands up to my face. I'm going to be one of those 'stylish Christians'."

They have queer ways of getting money for charity, out West. One of them is a dainty bazaar occupied by five pretty girls and adorned with the following legend, "Drop five dollars into the slot and the girls will throw you five kisses."

The coal barons of the United States are beginning to squeeze the mines of Pennsylvania. Three thousand miners have been thrown out of work in order that the barons may squeeze a dollar more for coal a ton out of the poor people of the great cities of the United States.

A new device for bicycles allows the use of those machines upon the ice, the little wheel being converted into a runner, while the large wheel is provided with clips that prevent sliding on the ice. In New York parties are now being formed to go up the Hudson for a tournament as soon as the river freezes over.

Young mother—Doctor, there doesn't seem to be any indication yet of baby cutting her teeth. Do you know what is the matter? Young Physician—Well, I must confess, I don't mean, unless it is—or—that a good many children are cutting their teeth just now, and, perhaps, there ain't enough teeth to go around.

Dan Cunningham, of Virginia, who has been doing his level best to bring the Hatfield-McCoy gang to justice is fond of apples. At the trial of the exterminators in Roane County last week, an apple charged with strychnine was put in Dan's pocket, Dan is very fond of apples, but he controlled his appetite and still lives.

Magazine Editor—"Did you pay the artist who illustrated that great poem 'Christmas Chimes,' on our first page?" Secretary—"Yes, sir. Sent him a check for \$250." "Good. How much did you pay the engraver?" "I sent him \$75." "Yes. Is there any money left?" "About seventeen cents." "Very well. Send it to the man who wrote the poem."

It is known almost to a certainty that Rev. W. J. Parker, Episcopal clergyman of Oswego, N. Y., who mysteriously disappeared recently, committed suicide. He was seen on the sea wall, near the river, on the day of his disappearance, and a hat, which has been identified by his family as belonging to him, was picked up in the river on the same day. It is said he was pressed hard by creditors.

The long continued illness of John Bright without a favorable turn, threatens to terminate his life. His eloquent words and the liberal and progressive measures to which he long lent his able support have made his name a household word wherever the English language is spoken. His illness has become a matter of grave concern throughout an equally wide field. He is now advanced in years, but until his recent attack his friends had hoped for him a further period of useful activity. It is remarked that he has been three times seriously ill with intervening periods of about 18 years of health. In 1851 and 1870, he was dangerously sick, and now after a like period he is apparently on his deathbed.
