Grain

WINNIPEG, Oct. 10—(CP)—
Coarse grain prices were irregular today on the Winnipeg Grain Exchange, with an easier tone showing most of the session.
Barley displayed the best trend, with the October and December contracts closing higher. Commercial demand was thin, with shippers on the buying side of both oats and barley. Processors also bought barley.
Rye recovered from early sharp losses when American buying came into the market in the late stages.
Export business over the holiday included a cargo of 350,000 bushels of Canadian wheat shipped to Switzerland, 175,000 bushels to the Republic of Ireland, and 130,000 bushels to the United Kingdom.
Class two wheat and I.W.A. prices dropped one-quarter cent from Saturday.
Close:
Oats: Oct 89 1-8B; Dec 78 3-8B; May 77A.
Barley: Oct 1.35 5-8; Dec 1.19 1-2; May 1.13 5-8.
Rye: Oct 1.45 3-8B; Dec 1.43 7-8B; May 1.47 7-8.
Flax: Oct 3.77B; Dec 3.68A; May 3.65 1-2N.

Control is Urged On Newsprint Costs

NEW YORK, Oct. 10—Price controls on newsprint "must increase if Canadian producers insist on raising the price of the paper as the result of freeing the Canadian dollar to achieve higher valuation, it was declared here today by Representative Emanuel Celler, Democrat of New York. Mr. Celler recently headed an investigation of monopoly in the newsprint industry.
Mr. Celler asserted that an increase in the present \$100-105 a ton for any reason would be unjustified, and he would actively seek price controls. He commented that the higher price would particularly hurt smaller newspapers. Newsprint exported from Canada to the United States must be paid for in American dollars. This Canadian regulation had given the mills a 10 per cent extra margin of profit after devaluation of the Canadian dollar to 90 cents above a year ago, but the mills have contended that higher costs reduced this. With the Canadian dollar rising in value on free exchange, the margin is further reduced.
