SOLOMON SLOW'S ADVICE

What I Would Do or Have Done if I Were Boss.

I would, if I were Stipendiary Magistrate, make the police arrest all known corner loafers, on summons to court, and arrest all persons who leave horses untied on the street.

I would like to have Sir Louis answer a few of the questions the farmers have been asking him.

I would keep the poor house tramp out of the city.

I would make people who have relatives in the poor house pay for their support.

I would have our Premier fence off or cover up that dangerous hole at the end of Prince Street wharf.

I would like to know if Sir Louis thinks the farmers are all fools when he tells them he is going to have a majority of 1000 in the country.

I would ask Sir Louis if he was honest in telling the people of Cavendish Road that he would have 1000 of a majority in the country polls and only 250 in the city. Poor Sir Louis, only 250 in the city! Where is the 500 in the city he used to talk so glibly about?

I would not congratulate our railway Superintendent on the general train arrangements on the P. E. I. Railway.

I would let some person who knows something about running trains and the requirements of the country make a time table. I would if I knew how, but I admit it is one of the things I don't know.

I would be sorry to see Sir Louis lose his election; but the hand writing is on the wall and says that he must because he has not kept any of his promises.

I would like to know why track master Houle's secretary is like the fly on the wheel, and ask Sir Louis to answer the conundrum.

I would congratulate the editor of the Guardian on the fact that there still remains small glimpses of honesty and independence. But I am afraid he does not mean it. Why does he not hunt out and condemn the political job being perpetrated at the Provincial Building?

I would have the Guardian come out honestly and force the Provincial Government to enforce some of their laws. But what can you expect of a Gair journal that sometimes tries to pose as an independent.

I would like to know why men without a family of their own are appointed to the position of school trustee.

I would make the City Surveyor open up the street drains during wet weather.

I would prevent the cutting away of street crossings, &c. before the bad fall weather gets its work in in good shape.

SOLOMON SLOW.

"The blood is the life." Science has never gone beyond the simple statement of scripture. But it has illumined that statement and giving it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. No one can be well balanced in mind and body whose blood is impure. No one can have a whole-some and pure life unless the blood is pure. Foul blood may be made pure by the use of Dr. Pierce's Golden Medical Discoverer. When the blood is pure, body and brain are alike healthy and life becomes a daily happiness.

GREET'S PAUL PRY.

Good morning, brother Paul Pry. I hope you will uphold the moral and religious end of the stick; I will try and uphold the reform end of it. Keep at the good work, brother. Hit hard at the nuisance of young girls and boys round the Post Office at night. Some of the mothers of this city are very remiss in their duty. Do away with the Curfew Bell force, or enforce the law.

Your brother in good work,
