"She Looketh Well"

to the ways of her household." Yes, Solomon is right; that's what the good housekeeper ever does, but particularly in Canada.

But her ways are not always old ways. In fact she has discarded many unsatisfactory old ways. For instance, to-day she is using

the New Shortening, instead of lard. And this is in itself a reason why "she looketh well" in another sense, for she eats no lard to cause poor digestion and a worse complexion.

COTTOLINE is much better than lard for all cooking purposes, as every one who has tried it declares. Have you tried it? For sale everywhere.

Made only by N. K. FAIRBANK & CO., Wellington and Ann Sts., MONTREAL.

SUMMER SCHOOL OF SCIENCE.

RESPECTFULLY SUGGESTED BY MR. KENNETH JAMES BODD.

Tune—"Charentaise."

"The Summer School of Science is exciting a wide-spread influence through the Maritime Provinces."—Dr. Hall.

To a city in the Island Where the cats grow evermore, When the hare and potatoes Flourish on the happy shore.

Cho.—Oh, the land of the Blessed, Blessed in living life in peace; Oats and horses grow forever, And potatoes never cease.

To the city named for Charlotte, "Old Queen Charlotte" as we say, Came a school—the School of Science—Thoughtful, earnest, bright and gay.

Cho.—Oh the School—the School of Science, Gay and earnest, thoughtful, bright. She's a star—she's a daisy. She's a star—a beacon light.

In the land of Nova Scotia, After Glasgow went away, Digging coal both night and day.

Cho.—Oh the land of Nova Scotia! Very grievous was the sight. All the people black with coal dust, Dug forever, day and night.

Started then the School of Science, Like a gem of ray serene, Shining through a fog of coal dust, Very quickly changed the scene.

Cho.—Oh the School—the School of Science, Shining brighter day by day. Pierced the gloom of Nova Scotia, With its intellectual ray.

In the Province of New Brunswick, All the people day and night, Hewed the mighty pines and spruces, Fought the bears in endless fight.

Cho.—Oh the people of New Brunswick! All their labor was in vain. Bears and wild cats roamed their forests, And the trees grew up again.

Came a School—the School of Science, Took direction of affairs, Botanized the pines and spruces, And dissected wolves and bears.

Cho.—Oh New Brunswick—bright New Brunswick! Farms are smiling fresh and fair, Where thy lofty pines and spruces, Sheltered wildcat, wolf and bear.

To the Island—happy Island, Scientific like its peers, Commerce comes and manufactures, And depression disappears.

Cho.—Oh the Island—happy Island! I have made a liberal allowance, and I think \$15,000 would represent a correct amount which would be saved to the revenue of Canada.

In the lap of Nova Scotia, She the lovely Island lies, Stern New Brunswick bends above her With a love light in his eyes.

Cho.—Oh! the countries by the seaside, Three in one and one in three, Fair Acadia stands united In a blessed unity.

In the ships of old New Brunswick Coal from Nova Scotia floats, Knowledge comes and wisdom with her, And the Island sends her oats.

Cho.—Oh! the Island, Nova Scotia, Oh! New Brunswick stern and grand; Brain is wealth and knowledge power, Science comes to rule our land.

Notes.—Glooscap was the Nova Scotia Hiawatha. The Islanders in the Indian language are called Abegweits.

SENATOR FERGUSON'S SPEECH

Public Works & Winter Communication.

(CONTINUED.)

Hon. Mr. Ferguson (P. E. I.)—I think as a native of the Maritime Provinces my hon. friend knows very well that the potatoes of Prince Edward Island are famous for their good quality.

Prince Edward Island possesses a soil in which they can be grown in very great abundance and at a cheaper cost than in any other portion of the Province.

Hon. Mr. Kaalbach—Why do they not ship them to Nova Scotia?

Hon. Mr. Poirer—Because they would be frozen at that time of the year.

Hon. Mr. Ferguson (P. E. I.)—We do ship them to Nova Scotia. The state of matters is this—the western counties of Nova Scotia ship their potatoes abroad and we supply the eastern part of Nova Scotia with potatoes, and I believe we supply a large portion of the western counties of Nova Scotia with potatoes.

But owing to the geographical situation and other circumstances, we are naturally the suppliers of the eastern part of Nova Scotia including Cape Breton and Halifax, while the western counties of Nova Scotia from their proximity to Boston and the West Indies, send their potatoes to those markets.

The undersigned having been appointed sole selling Agent in the Province of Prince Edward Island for the above Company's Mines in Cape Breton, are now prepared to issue orders for Round, Slack and Run of Mines, and will keep a stock of each kind of Coal on hand to supply customers at lowest prices.

After Taking Hood's Sarsaparilla

Cured of a Serious Disease.

"I was suffering from what is known as Bright's disease for five years, and for days at a time I was unable to straighten myself up. I was in bed for three weeks; during that time I had been applying and deriving no benefit. Seeing Hood's Sarsaparilla advertised in the papers I decided to try a bottle. I found
