EASY-OFF OVEN CLEANER—Cleaning your oven is easy with Easy-Off. It's a non-flammable, clean smelling "miracle" jelly that you simply spread on, let stand, then wipe off with warm water. Easy-Off ends the drudgery of scraping and scrubbing; it loosens and removes even the most stubborn, encrusted, baked-on grease and caked carbon that formerly required a chisel to chip away. Use Easy-Off on porcelain enamel, iron and steel surfaces. It sticks to interior surfaces including vertical side-walls, and dissolves black, hard-crusted grease. Easy-Off leaves your oven, rack and burners clean and sparkling. Chappell and Co. 161 Queen St. Dial 825.

B. Of Montreal Has New High In Deposits

MONTREAL, Revealing new high records in deposits, loans and investments, the Bank of Montreal shows a growth of a quarter-of-a-billion dollars in resources in its 18th annual statement covering the twelve months to October 31 last, issued today. Thus, total assets at \$2,796,174,064 were the highest in the bank's long history. Maintaining its traditionally strong liquid position, the B of M reported quick assets of \$1,730 million, which is equal to 65 percent of all its public liabilities. Contributing heavily to this position is the large investment portfolio, valued at \$1,214 million which notwithstanding the enlarged demand for credit shows an increase of \$44 million over the total for investments a year ago.

ONE BILLION IN LOANS
The very substantial increase in loans is noteworthy, inasmuch as total advance have now passed the billion dollar mark. Commercial and other loans rose \$134 million and government loans by \$11 million. A. were up from 10 to 15 million dollars, while call loans, reflecting lessened activity in the securities market, showed a decline of \$21 million. As a whole, loans rose \$154 million to a total of \$1,057,444,000. Most notable of the increases in the items making up the balance sheet is the rise in deposits to \$2,591 million, up from \$2,365 million a year ago.

With the completion during the year of subscriptions to the new issue of the bank's capital to a paid-up total of \$45 million, the amount of the shareholders' equity has again shown substantial enlargement, running now to \$139,134,215. This is made up of the rest fund of \$92 million and undivided profits of \$2,134,215, in addition to the paid-up capital of \$45 million.

INCREASE IN EARNINGS
After providing for taxes of \$7,043,000, the B of M reports earnings of \$8,042,146 for 1955, compared with \$7,344,274 a year ago. Most notable of the increases in the items making up the balance sheet is the rise in deposits to \$2,591 million, up from \$2,365 million a year ago.

Profits after dividend payments amount to \$1,528,876, which, added to the balance of undivided profits from 1954, brings the total to \$4,134,215. From this, \$2,000,000 has been transferred to rest account, leaving a balance of undivided profits of \$2,134,215.

Japanese Cutie Wins 160,000 Yen Question
TOKYO, (AP)—A cute Waseda university coed, Friday became the first winner of the 160,000-yen question, Japan's version of the American television show, "64,000 Question."

Midori Nakayama, 20, was asked in her 10th and final question to name the positions of four New York Yankee players. Grim, Weisler and Turley—and something they all had in common.

Miss Nakayama is a baseball fan, and the Yankees have just completed 16 exhibition games in Japan.

"They're all named Boh," she replied promptly. "Grim is an outfielder, the other three pitchers."

Because of tax complications, the actual prize is a plush motor scooter. Its 160,000-yen value is \$450, about 10 months' wages for a skilled workman.
