ANTIGONISH, N. S. (CP) — Eastern Co-Operative Services Limited will construct an agricultural plant in the Sydney area, it was announced here Wednesday.

The Co-op announced at its annual meeting that construction will begin immediately. The plant will include a poultry slaughterhouse, egg-grading station, processing facilities for fruits and vegetables, cold storage rooms and administrative offices.

The Co-operative has received a \$50,000 Federal subsidy and provincial assistance is reported pending. Agriculture Minister Haliburton told delegates from six eastern Nova Scotia counties that the loan will not be made until after Premier Stanfield returns from his present trip to Europe.

In its annual report, the Co-op reported a 1957 profit drop of 13,000 from the previous year. Sales slipped from \$4,400,000 to \$3,800,000.

Claim Yank On Rebel Bomber

JAKARTA, Indonesia (AP) — The army said Tuesday night it has captured a former U.S. Air Force officer who had been piloting a rebel bomber. He was identified as Allan Lawrence Pope, 30, of Miami, Fla.

An army spokesman said Pope and an Indonesian bailed out of a rebel bomber shot down May 18 in a raid on a government convoy near Ambon Island.

The army spokesman, Lt.-Col. Pirngadie, said Pope was brought to Jakarta and is being held at an undisclosed place.

U.S. Embassy officials said they knew nothing about Pope and had not been told of his capture.

OTTAWA (CP) — Canadian dairy processors plan an extensive advertising and sales campaign next month in an effort to boost Canadian consumption of a record-breaking 17,000,000,000 pounds of milk expected to be produced this year. The national dairy council said Friday the campaign will be the biggest ever undertaken.

APPEARANCE ISN'T EVERYTHING

Whenever things seem a bit dull in Hollywood, some press agent comes up with a story about a movie queen who has just bought herself a new convertible finished in some weird color intended to match the color of her handbag, her nail polish, her French poodle, or what-have-you.

I don't suppose many people really believe such stories, and fewer still could see any sense in such antics, if they really did happen.

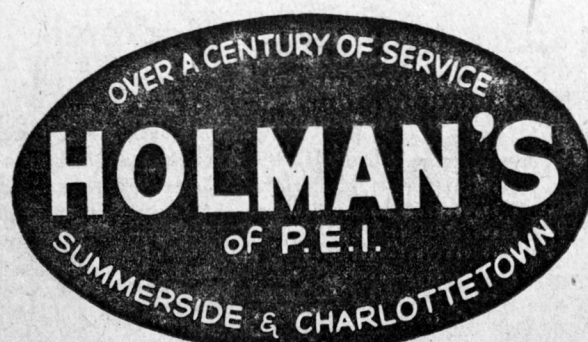

But it is easy, mind you, to be taken in by appearances, particularly if we are buying something where appearance will count for a lot during its day-to-day use. That's especially true of fabrics, for instance, which can be quite deceiving in appearance if given a finish or sizing intended to make the fabric appear better than it really is.

A resin sizing, for example, is sometimes added to give an impressive appearance to some fabric, such as taffeta. Unfortunately, such a sizing has other characteristics that are not so impressive. Often it will prove readily soluble, and the fabric will shrink when it is cleaned.

Another source of trouble is the linen that is heavily starched when new, giving it a lovely crisp appearance. After one or two washings, the starch is gone and the linen is limp and lifeless.

You can detect this overabundance of starch in new linen by rubbing it between your fingers. If you get a trace of white powder, that's warning enough.

In other fabrics and garments, look for labels showing that they have been pre-shrunk. And if there are no such labels, don't be afraid to ask a few blunt questions about cleanliness or washability, as the case may be.
