EXHIBITION AND RACES.

There is, no doubt, ground for the prevailing opinion that the exhibit of live stock (pigs and poultry excepted) was not up to the mark of some former years.

How to avoid the necessity of keeping cattle upon the grounds for four days is an interesting problem.

As to the alleged falling off in the quality of the horses and cattle, it may be that the charge is not true.

The impetus which the Dominion Government has given to the cheese-making industry will naturally result in the breeding by our farmers of improved milk cows.

Little to be desired, except more articles in the gallery. Everything shown there was good and creditable.

There are no products of complete or accidentally imperfect combustion, there is not even a slight loss of heat into the room or up the flue.

Advertisements under this heading charged for at the rate of ten cents per line.

USE SKODA'S DISCOVERY, the great food and nerve-tonic.

NOTES AND COMMENTS.

HUMANITARIAN SIDE OF RELIGION.

It was noticed as coming from a member of one of the great established churches of the world that he should declare that true religion does not consist of religious forms and rights and prayers and songs of praise.

HAYING LEASED

QUEEN HOTEL,

Halifax, Nova Scotia,

The Lessee takes great pleasure in announcing that the rates are:

Upper Floors, two in room, \$1.50 per day.

Single Rooms, \$1.75, \$2.00 and \$2.50 per day, according to location.

This great reduction in rates will not in any way impair the present efficiency of the Hotel either as regards the service or cuisine.

A single trial will convince any one of the fact.

M.P.P. MALTO PEPTONIZED PORTER. THE GREAT REMEDY SO HIGHLY RECOMMENDED BY THE MEDICAL PROFESSION FOR Invalids, Consumptives and Dyspeptics. M. P. P. is especially adapted to the following cases: A. Convalescence from acute diseases such as Typhoid Fever, Cholera, etc. B. In Atonic Dyspepsia its effects have been most marvellous, enabling patients to take all kinds of food with comfort that would not otherwise be retained by the stomach. C. In persons of Consumptive tendencies it has been found to be a most perfect substitute for Cod Liver Oil, the extract of Malt supplying the fat-producing elements necessary to the supply of wasted tissue, besides the tonic and stimulating effects. D. In the treatment of cases of unnatural craving for Alcoholic Stimulants or Alcoholism it has been found to answer admirably in allaying the irritation, vomiting, and consequent desire for stimulants of an unhealthy nature. E. It is especially adapted for administration to Nursing Mothers. F. In Wasting diseases of Children. G. Where there is sleeplessness from flatulence, over-taxed brain and nervous system.
