SHE'S WORTH TWENTY MILLIONS.

Miss Mary Garrett, Daughter of the late James Eastwood King. Fancy a woman about 33 years of age, quite stout and of medium height, dressed in rich but somewhat gaudy, pale face, blue eyes and gold-rimmed spectacles, and the James Miller Monthly says, you will have a fairly good idea of Miss Mary Garrett, of Baltimore, daughter of the great railroad king and sister of the present head of the Baltimore and Ohio Railroad system.

HOW TO BATHE.

Follow these instructions and Gains Health. A bath is cooling or stimulating according to the friction applied. An authority on this subject gives the following prescription for a cool or summer bath: A dip into cool water, white soap if the skin needs cleansing; mop dry first with a sponge and then with a soft towel.

Aphorisms.

A wise and good man will turn examples of all sorts to his advantage. A good he will make his patterns, and strive to equal or excel them. The bad he will by all means avoid.—Thomas à Kempis.

Vienna Coffee.

Into an ordinary coffee pot Pour your water boiling hot. Cover it closely. Boil for one minute, then pour it into a glass. Add a pinch of salt. Put one pint of sweet cream, and don't touch it. Keep the water boiling under a cover. Add a little of each egg and beat, and when a stiff froth forms, lay crushed almonds, then add of cold milk three tablespoonfuls. See if cream is settling; when it proves to be, remove from fire, add white of egg and milk. Stir briskly till it smooth and fine as silk. Then serve to table with care and art. The Vienna coffee is safe and all.

Her Majesty's Private Lawyer.

Little is known by the ordinary public of the late Sir Arnold White, private solicitor to Her Majesty and other members of the Royal family, but he was a man who exercised a considerable influence in the private affairs of eminent personages. The Telegraph says that those quiet rooms in Great Marlborough street, which Sir Arnold White occupied for so many years, could tell many an interesting tale were their walls endowed with the gift of speech.

Aluminum Neckties.

Aluminum neckties are not exactly a craze, but they are made. They are frosted or ornamented, naturally are not heavy, and can be easily cleaned. The best use for aluminum in the clothing line is for helmets. The weight is so small compared with what it is intended to supersede that it is expected that a large demand will set in.—Hard-ware.

The Doctor Passed Him.

GRAVESEND, Sept. 18.—About a year the newspapers contained of the curious case of Sam Murray, a railroad brakeman of this place. He was paralyzed, as a consequence of an injury received while coupling cars, and for two years was unable to work. Several doctors, among them some Toronto specialists, pronounced him incurable and his case hopeless. The Grand Trunk Railway Company paid him his full disability claim, and the Brotherhood of Railway Trainmen was about to pay a similar claim, when Murray astonished everybody by a return to health. It was proven at the time, beyond the possibility of a doubt, that Murray's recovery was due to Dodd's kidney pills. A few days ago Murray applied to a life insurance company to take out a policy on his life. Two physicians have just examined him, pronounced him a desirable risk, and recommended the company to issue a policy. That's the kind of work Dodd's kidney pills do.

A Comfort Sometimes.

When health is far gone in Consumption, then sometimes only ease and comfort can be secured from the use of Scott's Emulsion. What is much better is to take this medicine in time to save your health.

The Fisher Case.

STANLEY, Oct. 2.—Everyone in this section knows Valentine Fisher, of Collingwood, and nearly everyone knows that years ago he was deformed and crippled by sciatica, and endured unendurable suffering. The account of his complete restoration to health by means of Dodd's kidney pills, recently published in the Collingwood Bulletin, were read here with intense interest, because of sympathy for Mr. Fisher, and because of the marvellous cure of a man whom everyone considered doomed to certain death, and at an early day. As a result of the publication of Mr. Fisher's story, many in this vicinity have used Dodd's kidney pills, and always with the best results. People are awakening to the fact that disease of the kidneys, in many cases, are the cause of u.r.t.g. which are ascribed to dropsy, rheumatism, sciatica and other diseases.

W. H. ROGERS. AMHERST, N. S., May 27, 1893.

THE GROSSER DYSPEPSIA CURE CO. GENTLEMEN.—I am 71 years of age. Have been afflicted with sick headache most all my life, which developed into Dyspepsia of a mild type during the past twenty years, and has continued to grow worse until during the past seven or eight years I have not been able to take a drink of cold water or milk, as they would produce severe pains and sometimes vomiting. I have been subject to severe pains in the chest, with dizziness, which have been more frequent during the past three or four years. My mouth was furrowed up in the mornings, accompanied with bad breath. My case was yearly growing worse.

During all this long period I have tried many popular medicines, as well as prescriptions from the regular medical practitioners, but without producing any improvement. In the fall of '92 I concluded to try a bottle or two of your medicine and such were its effects that I continued it and now I can drink cold water or milk with as much ease as a baby's. In short, your medicine has cured me and I am sure that all Dyspepsia can be cured by its use. (Signed) W. H. ROGERS, Late Inspector of Fisheries for Nova Scotia.

Edison, F. Hopkinson Smith, H. H. Boyesen, Alphonse Danter, Camille Flammarion, Edward Everett Hall, Professor Graham Bell and many others, have furnished material for especially prepared interviews, which will appear fully illustrated in this magazine.

HENRY M. STANLEY will contribute, especially for young readers, a story of AFRICAN ADVENTURE.

NATURAL HISTORY AND ADVENTURE.—There will be several articles written by Raymond B. Blakely, who has been called by Mr. W. T. Stead the best interviewer in England, from material furnished him by Carl Hagenback, of Hamburg, the great animal importer and trainer. These articles deal with the Capture of Wild Beasts, the Training of Wild Beasts, the Transportation of Wild Beasts, the Adventures and Escapes of Carl Hagenback. The illustrations will be illustrated by an English artist of great skill in drawing animals.

JOHN BURROUGHS, C. F. HOLDER, DR. C. C. ABBOTT, and other writers famous for their work in this field, will contribute to the Magazine.

Of interest to both Young and Old will be PROF. R. L. GARNER'S AFRICAN EXPEDITION TO THE GOBILAS. Arrangements have been made, in connection with a leading English review, to publish Professor Garner's letters descriptive of his present expedition to Africa. Professor Garner is noted the world over for the curious and interesting investigations he is making in the speech of monkeys. He sailed for Africa last September for the purpose of further pursuing his studies in the native haunts of the gorilla. The illustrations of these articles will be from photographs taken by Prof. Garner in Africa.

McCLURE'S MAGAZINE also contains most interesting articles under the heads: The Edge of the Future, "New at Knowledge," "Knowledge of Immediate Value," The Present Hour, "Stranger than Fiction," etc.
