—ICE CREAM SOCIAL, TRYON Presbyterian church grounds Thursday evening, Aug. 28, in aid of Sabbath school Library. Interesting program. If stormy first fine evening following. Come early. 472-8-26M21

—TEN PACERS to face the wire in that 2.25, pace stake, at Montague, tell you Fred will have his hands full to get that bunch away, and such pacers did you read the list, Angus Dillard, Queen Catherine, John R., Keenah Aubrey, Oma, Ed. Locanda, Commodore K. Christie Dillon, Lady Kip, and Dongola, I wouldn't bet on any one of them, there has been no such class of green pacers ever started together in this country, why that race alone will be well worth going all the way to see, let alone the whole programme. Do you remember the last race meeting here, why every horse that was on the score card, started 23, of them, no fakers down there and this year there are racing as a member of the National Trotting Association, so you may be sure of good clean sport. 520-8-27M41.

—Relief for the Depressed.—Physical and mental depression usually have their origin in a disordered state of the stomach and liver, as when these organs are deranged in their action the whole system is affected. Try Parmelee's Vegetable pills they revive the digestive processes, act beneficially on the nerves and restore the spirits as no other pills will. They are cheap, simple and sure, and the effects are lasting.

—*A GRAND SUCCESS.—The G. W. V. A. tea-party held at Souris was one grand success. Although held in the middle of the busiest time of the year many people made great sacrifices to participate the returned boys and help them along. The splendid sum of sixteen hundred dollars was realized which will go towards the benefit of the members of this Branch. All returned men of the surrounding district who do not already belong to this Association are here by invited to join at once and avail themselves of their share of the benefits to be derived therefrom.

—The use of Miller's Worm Powders insures healthy children so far as the ailments attributable to worms are concerned. A high mortality among children is traceable to worms. These sap the strength of infants so that they are unable to maintain the battle for life and succumb to weakness. This preparation gives promise of health and keeps it.

CANADIAN PENSIONS

New Pension Act Becomes Effective September 1st.

The announcement from Ottawa that Bill 158 or the "Pension Act" as it will be known, has finally become law, should be received with satisfaction everywhere. The Special Committee, appointed early in the last Parliamentary Session to prepare a bill dealing with war pensions, obtained from every quarter, expert evidence dealing with the various aspects of present day pension requirements. The evidence submitted, after careful sifting, was embodied in various recommendations to Parliament, many of which are now reflected in the new Act. Canadian Pensions have, since early in the war been considerably higher than those paid in any other country, and the new Act contains convincing proof of Canada's intention to maintain this aspect.

It should be noted that the Act does not become effective until the "first day of the second month" following its sanction, and will therefore come into operation on September 1st, 1919.

The Clause which probably will be most widely welcomed is that which provides for the granting of a bonus, for one year, to the lower rank. A twenty per cent. increase—intended to offset the present high cost of living—is allowed for ex-private, and approximately a thirteen per cent. increase for those who held the rank of sergeant, or a corresponding rank in the Naval Forces. Thus to the total, disability pension of \$600.00 per annum for an ex-private there will be added a bonus of \$120, payable for one year only, making a total of \$720.00. The totally disabled ex-sergeant's pension of \$637.50 is similarly increased to \$720.00 by the addition of the thirteen per cent. bonus, previously referred to. A substantial increase in the pension for the first orphan child of a deceased soldier is also provided for. Under the new schedules such a child will be entitled to an award of \$360 per annum instead of \$238.00 as at present.

present. Where there is more than one orphan child in a family, pension for the second child will be at the rate of \$240.00 per annum, and at the rate of \$192.00 per annum for the third and each subsequent child. Pensions for orphans are usually paid to a guardian for administration, the Board of Pension Commissioners being responsible that fit and proper persons are appointed to act in this capacity.

It is hoped that this Act, based on actual experience with pension problems both in this and other countries, will be broad enough in its scope to effectively provide for all matters connected with pensions for several years to come. (Further articles in explanation of the new Pension Act will be published in these columns. It is thought that they will prove interesting to subscribers in view of the importance attaching to all matters which affect the return of our discharged soldiers to civil life.)

and he has diagnosed your case, what do you do with his written prescription? Do you act in the "hit or miss" style and take it anywhere to be filled, or do you take it to a druggist in which you have absolute faith in his honesty, his skill, and the purity of his drugs?

Our Prescription Department is constantly being restocked with the freshest full strength drugs possible to obtain. Here our work is carefully checked and rechecked, so that there will not be the possibility of a mistake.

We do not pay any doctor a commission to write prescriptions for our store, nor do we pay them to boost our store in any way. We solicit your prescription business on merit, honesty, skill and by using the purest drugs obtainable. It does not matter who writes your prescriptions or where they are written, we can fill them.
