CHIMNEY FIRE — A flue fire at the residence of Harold McGaugh, 376 North Market Street, resulted in a fire alarm last evening, but no damage was done to the home.

ICY ROADS — Roads in western Prince were dangerously icy Saturday night but as far as can be learned no accidents occurred. A number of cars were unable to make the icy hills at Bloomfield and near Coleman and in several cases the vehicles were abandoned until yesterday. Travelling conditions were blamed for the non-arrival of the Milton Hornets for an exhibition game with the Alberton Regals. A large crowd of hockey fans waited until ten thirty before giving up and leaving for home. Road conditions were improved yesterday.

Y'S MEN SERVICE — The weekly Y's Men's hymn sing was held in St. Mary's Hall last evening. Singing was led by Rev. Keith Hobson, with Mr. Albert Huselt at the piano, and a large attendance. Next week's hymn sing will be at the Church of Christ on Central Street with Y's Don Adams leading the singing.

Important Points in Placing Your Lamps

by PEGGY LIDSTONE
Home Lighting Specialist

Two important factors to remember in arranging lamps are one, they need to be decoratively right with the room furnishing, and two, they need to have sufficient light for its intended activity. Therefore, the versatility of three-lamp (50/150 or 100/300) are very useful because they can be adjusted to suit your requirements. Then, there are places where light is wanted mostly for its decorative qualities. Foyers, hallways and dining nooks are most apt to have neglected spots which you can lift from drabness to beauty with the addition of an attractive lamp.

If you want further information on modern lighting tips write to me, Peggy Lidstone, c/o Lighting Institute, Canadian General Electric Co. Ltd., 163 Dufferin Street, Toronto, for a FREE illustrated booklet.
