

Douglas Bros. and Jones Are Pleased To ANNOUNCE They Have Been

APPOINTED
A

Fawcett

DEALER

With A Complete Line Of Fawcett Oil Ranges, Furnaces And Oil Heating Equipment

Henry MacWilliam

We are pleased to announce the appointment of MR. HENRY G. MACWILLIAM as head of our Warm Air Heating and Sheet Metal Department.

Mr. MacWilliam brings to this firm 17 years experience in the design and engineering of Forced Warm Air Heating and Winter Air Conditioning Systems, twelve years with the Charlottetown firm of Crockett & Storey Ltd., and previously five years on the engineering staff of Enamel and Heating Products Ltd., of Sackville, New Brunswick, the manufacturers of Fawcett cooking and heating equipment.

Henry, or "Mac" as he is better known by many people, has specialized in the designing of Forced Warm Air Heating systems for large homes, schools, churches theatres and commercial buildings, both in this province and throughout the Maritimes. The largest field for Warm Air Heating, however, has been the average size home where the comfort and convenience of modern warm air heating may be enjoyed at very reasonable cost.

Mr. MacWilliam sees an ever widening popularity for Forced Warm Air Heating with the introduction into residential heating systems of new automatic humidifiers, year around air conditioning, and new electronic air cleaners. These miracle "air filters" purify the air and remove dust particles as small as pollen and smoke, thus providing relief to hay fever, asthma and allergy sufferers as well as cleaning the air so effectively that drycleaning and house-cleaning bills are almost eliminated.

With the present facilities of our sheet metal shop, our newly expanded oil burner service department, the quality Fawcett heating equipment, and Mr. MacWilliam's wide knowledge and experience in the design and engineering of Warm Air Heating, we are equipped to provide you with the best in heating comfort and satisfaction.

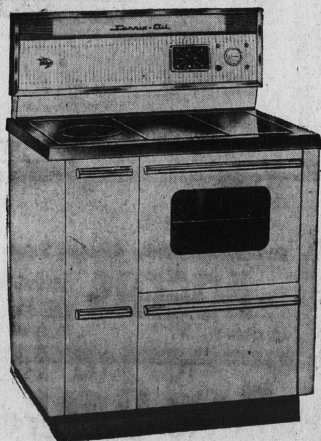

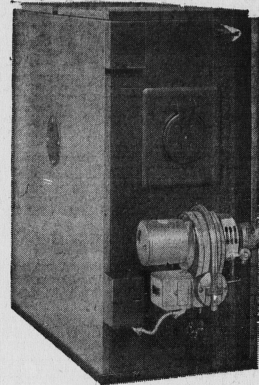

Complete Forced Warm Air HEATING SYSTEM

Complete forced warm air heating system . . . You can enjoy the carefree comfort of automatic oil heating in your home at less cost than you think. The "Fresh Air" in your home can be fresher and healthier than the air outside with air filtering, automatic humidification, gentle air circulation.
