

WE WILL BE BUYING Tim-qbly Seed when a price has been established. Fraser and Anhear, Feed Service.

MONTAGUE School will reopen for all grades on Thursday, September 2nd. By order of trustees.

TRAFFIC DIFFICULTIES—Traffic has been having difficulties over the temporary bridge at Montague for the past two days owing to construction work being carried on at the south end by Blyth Construction Company, who are drilling the old concrete abutment so as to form a full abutment for the new slab. At the north end the Schurman Construction Company has been digging a trench to lay the drainage system which will run from the building to the new Federal bridge. The portion where they have been working blocking the bridge has been completed so that traffic at the north end is clear. However, motorists are cautioned when approaching the south end so that no accidents may occur.

LODGE MEETING—Twenty-three officers and members attended the regular meeting of ACME Rebekah Lodge, Montague, Thursday evening. Miss Lillian MacDonald, P. N. G., presided and the minutes of the past session were read by the secretary, Miss Edith MacDonald, and were approved as read. Splendid reports were submitted by conveners of committees. Miss MacDonald and Mrs. Florence Stewart reported for the ways and means committee and Mrs. Ruth MacLeod reported regarding a play to be presented early in the fall. Mrs. MacLeod also read the financial statement. The correspondence was read and discussed and several bills were read and voted to be paid. At the close of the meeting an enjoyable corn-boil was held, followed by a sing-song, with Mrs. MacDonald as piano accompanist.

Personals

Mr. Charles Campbell, who spent the past month visiting relatives in Montague, returned to Boston this week.

Miss Violet Hutcherson, who has spent the past several weeks visiting her parents in Montague, left today to resume her work in Toronto.

Mr. and Mrs. James Farmer and family left yesterday on return to their home in Dorchester, Mass., after a pleasant vacation with Mrs. Farmer's father, Mr. P. J. McKenna, Montague.

Dr. and Mrs. J. W. MacIntosh of Halifax, spent several days in Montague, guests of Mrs. James MacLaren. On return they were accompanied by Mrs. MacIntosh's mother, Mrs. (Dr.) MacLaughlin.

Mr. and Mrs. V. R. Pepler have returned to their home in Montague after spending a pleasant week with Mr. and Mrs. Dennis Webster of Charlottetown.

LAC. 2 Barry Nicholson returned to his base at Greenwood, N. S., after visiting his parents, Mr. and Mrs. Webb Nicholson, during the recent weekend.

Mr. and Mrs. Morton Plankey and son, Maurice, recently motored from Bristol, N. H., to visit friends and relatives at Whim Road.

Miss Charlotte Gordon, public health nurse paid a routine visit to Whim Road school on Wednesday.

Mr. and Mrs. John Clarey, Jr. and their daughter, Marie, recently motored from Boston, Mass., to visit Mr. Clarey's parents, Mr. and Mrs. John B. Clarey, at Whim Road.

Master Mickey Jackhart, Fredericton, N. B., is holidaying at Whim Road with his grandparents, Mr. and Mrs. Wesley Campbell.

FOR THE best in watches, clocks, diamonds and giftware, see V. R. Pepler, The Jeweller, Montague.

BEACH POINT Evangelistic Service in the Beach Point chapel, Sunday, August 29, at 7:30. Hymn singing after service.

FOR ANSCO all-weather film, Anasco flash cameras from \$4.95 to \$150.00, and the famous Anasco color film, see your authorized Anasco dealer, V. R. Pepler, The Photo Dealer, Montague.

SOFTBALL GAME—The Montague second team defeated the first team 4-1 in a softball game played on the Montague diamond last evening. Pitching for the winners was E. McManis, and for the losers R. Diamond.

LOADING PULPWOOD—The M.V. Hutchcliffe Hall, 1,596 tons and registered at Montreal, docked at Souris last night. A cargo of 700 cords of pulp wood will be put aboard by Albert Quigley of St. Peters for Detroit, Michigan. Loading operations began immediately and will continue through the night. The ship is expected to sail this evening. The skipper is Capt. L. P. Morgan and he has a crew of 20. The Hutchcliffe Hall, three and a half months old, is the newest of the Hall fleet of lake boats. She is powered by two 630 H.P. diesel engines and is fully electrically operated. Equipped with two rudders, she handles a load as easily as a motor boat.

WORK PROGRESSING—The preliminary work before the actual construction of the approach to the new bridge at Montague, is rapidly going ahead, and already five catch basins, three on the south side, and two on the north side, have been completed. Workmen are presently engaged in completing the forms for the cement pillars which will support the new sidewalk on the north side. Holes have been drilled in the present retaining walls for steel to tie in the sidewalk and the new cement slab which will form the new approach. It is understood that a light standard will be placed on each of the approaches, which, together with the two already on the bridge, will provide a fully lighted area.

BELL NOW SILENT

ST. JOHN'S, Nfld., (CP)—The bell from an old sailing ship, used in the chapel at nearby Peppercorn air base for several years, has been discarded in favor of chimes. The bell was acquired by the U.S. air force after it was saved from a sinking ship in 1944.

DOCTORS LACK HELP

BUENOS AIRES (AP)—Doctors here are performing nursing duty while the nurses are on strike for higher wages. Doctors have started sending home all patients able to go and helped care for those who could not.

EMPLOYMENT PROSPECTS BRIGHTER IN QUEENS AND KINGS COUNTIES

Summarising employment conditions in King's and Queen's Counties, the portion of the Island which comes under its jurisdiction, officials of the National Employment Office in Charlottetown say that the number of people out of work is not of serious dimensions. There is some unemployment in Charlottetown, but in other sections of King's and Queens, supply and demand is almost in balance, and in one or two centres there is a shortage of labour.

At Souris for instance, many of the many people employed in fish plants there, are residents of out-lying points. Between Cornwall and Churchill, road contractors are having difficulty securing labourers. In Charlottetown many men are employed in construction work, even although some men are idle. It is pointed out also by Local Office officials, that construction activity has not yet reached its peak, and that one of the largest buildings ever to be built in the Province, the Federal Building, will not be started for several weeks, nor is the new treatment centre at Palanwood well underway as yet. Another large building in the blueprint stage will be started sometime in October in the Prince Street area, and it is noted that Notre Dame Convent has quite an extensive building program planned for the early future.

DRAGGER ACTIVITIES
Fishing in the Souris area has been from fair to excellent, and the draggers working out of that port, have been averaging over 300,000 pounds of fish landed per week. With a new fish plant under construction, it is expected that even a larger number of draggers will make Souris a base next week. The extension of rural power lines under the Provincial Govern-

Truckers Fined By Moncton Magistrate
MONCTON, Aug. 26 — Fines totalling nearly \$500 were levied in magistrate's court yesterday morning by W. F. Lane against 11 truck operators for operating overloaded vehicles. The crackdown was the largest to date in the provincial government's campaign to enforce highway weight regulations. The charges were laid by Inspector H. Pettigrew and resulted from intensive activities of the N. B. Highway Traffic Patrol. The inspector said that the trucks involved were by-passing the scales which are located about eight miles out of Moncton on the Saint John highway in order to carry excessive weights, sometimes as much as twice what regulations allow. The trucks that were involved were from such distant points as New York and Sydney. One was from St. Louis, P.E.I., one from St. Amands, one from Summerside and one from Charlottetown.

GARAGE LACKED SOLIDITY
MARRAKESH, Morocco (CP)—Ten workmen were killed and 20 injured Friday when a garage they were building collapsed.

SPRAYED, BATHED
KINGSDOWN, Eng. (Reuters)—A 250-gallon tank fell from an American training plane into the main street of this village Friday, spraying gasoline over two children. Both were reported fully recovered after hot, soapy baths.

ment goes ahead quietly but steadily. This extension program is providing considerable work, and will continue until stopped by cold weather. Retailer and wholesalers in Charlottetown, all report a very good month in August, although retail sales generally speaking as well as wholesale sales are down somewhat from a year ago, it is especially true of farm machinery, that sales are cut sharply and the more expensive items of household furniture, are not moving very fast. It can be said nevertheless, that trade on the whole remains at a very good level.
