LATEST TELEGRAPHIC DESPATCHES TO THE EXAMINER OFFICE.

ST. JOHN, 19.—*London*, 18.—The cause of the Fenian outbreak is yet buried in obscurity. Some say it was caused by the arrest of American officer. The prompt arrest of Captain Moriarty prevented general rising. Fenians were to attack Killarney and capture it on their march to Cork. It is said O'Connor and staff have reached Fenian vessels off Dingle Bay. Head Centre Murphy, Colonels Lawler, Healy, and Johnson were arrested at Limerick, and important papers found upon their persons.... Gold 136⅞.

ST. JOHN, Feb. 20.—Telegram from Ireland of the 16th states that Col. O'Connor has superceded Stephens. County Kerry has proclaimed the State to be in a seige.

LONDON, 18.—Servant of Earl Kinmare received anonymous notes stating that the rising was planned in Killarney, and that the leader would reach Killarney that night. Constables were sent and took Moriarty into custody. They found on his person letters confirming notes.... King Consort has been exiled from Spain, charged with plotting regency against the Kingdom.....Gold 136⅞.

ST. JOHN, Feb. 21.—General Williams received a despatch from Dr. Tupper, stating that a bill for Confederation of the Provinces passed the House of Lords yesterday, by a unanimous vote.....It is said the 18th Regiment remains in New Brunswick another twelve months.

LONDON, 20th.—No Fenians who participated in the revolution have been captured. ....Gold 157⅞.

LATEST TELEGRAPHIC DESPATCHES FROM COLONIAL EXCHANGES.

LONDON, Feb. 11.—The Reform procession came off this afternoon, and was a grand affair. The turn out was immense, but there was not the slightest disturbance anywhere along the route. A delegation of Reformers headed by John Bright waited upon Mr. Gladstone to-day, and were favorably received.

BERLIN, Feb. 11.—The Prussian Government has determined upon the evacuation of Dresden, which will in future be garrisoned by the troops of the North German Confederation.

ATHENS, Feb. 11.—Intelligence from Candia is to the effect that 600 Greek Volunteers have surrendered to the forces of the Porte. King George is about to send an Autograph letter to the Emperor Napoleon, Queen Victoria, and the Czar Alexander, asking for assistance for Greece.

LONDON, Feb. 11.—It is stated that D'Israeli will introduce in Parliament a plan of Reform to be adopted by resolution. The act is favorably received in political circles. Consols 91. 5-30's 72 13-16. Gold 136⅞.

LONDON, Feb. 12.—No riotous proceedings took place at Chester, as was apprehended, and the city is quiet. The presence of a number of supposed Fenians, who had recently crossed over from Ireland, gave rise to the apprehension, but they left the town without creating any disturbance. Resolutions were passed denouncing the Derby Government, and demanding manhood suffrage.

On Monday afternoon the House of Commons was crowded, to hear the expected announcement of the Government programme. M. D'Israeli delivered a long historical essay on Reform and the English constitution, and towards the close of his speech he said that the Government would introduce resolutions to test the sense of Parliament before presenting a Reform Bill, and fixed the 25th as the day for offering them. The resolutions are vague and unsatisfactory, and merely state general principles.

LONDON, Feb. 14.—The Government denies the widespread story of the landing of ship loads of Fenians at Valentia and in the Shannon. That there has been a serious revolt at and near Killarny is admitted. The telegraph wires near Valentia have been cut and destroyed for a large distance and in all directions. Riot and pillage are the order of the day, and several estalishments have been sacked. A coast guard policeman has been killed.

LONDON, 15th.—About eight hundred Fenians, under command of Col. O'Connor, have retreated to the hills lying about Killarney, County Kerry.....The British Government posted troops under command of Col. Horseford, at Mallow Junction, in Cork County, commanding the Hill district. The excitement in the neighbourhood is intense, and many people living in those counties are precipitately leaving.....Gold 36½.

LONDON, Feb. 16th.—The Telegraph wires in the insurrectionary districts of Ireland have been cut in all directions, and meagre news is received from that quarter. It is suppressed by the authorities for prudential reasons. ....A large Fenian party has been surrounded by national troops in Loomis woods. The chances for escape look exceedingly small..... The band of 800 who retreated to the hills near Killarney, is still at large....The uprising is thus far confined to Kerry and Cork counties, and it is not believed that the trouble will spread further......The Government stated to Parliament to-day that Horseford's force was altogether to small to follow armed bands of Fenians into Loomis Woods, but the Colonel had hopes of surrounding the insurgents and preventing their escape.....The authorities in Ireland have assured the British Government that the present rising is totally stopped.

DUBLIN, Feb. 17th.—The outbreak at Killarney has come to an end, and the bands of insurgents have disappeared.....One hundred and forty Fenians have been arrested in this City and are now in jail.

PARIS, 17th.—The Budget presented in the Chambers yesterday by the Minister of Finance, gives a very favourable report of the condition of the finances. Rentes, in consequence, recovered from their recent depression and are advancing.

MADRID, Feb. 17.—Spain is about to augment her fleet in the West Indies.

LONDON, 17th.—It is now considered certain that the determined resistance of the Cretans and the spirit of concession recently shown by the Turkish Government will result in the complete independence of the Island of Candia.

ST. JOHN, Feb. 22.—It is now stated that James Stephens has not been in Ireland. It is reported that he had been really in Paris.... Troops posted in various places in Kerry and Cork Counties which effectually prevent further outbreak. Government announce that they will treat aliens caught in the act of rebellion as pirates....No gold report to-day.

TO MR. RIELLY, EDITOR OF THE HERALD.

Sir,—In an article, headed "Misrepresentation," in the *Herald* of Wednesday, Feb. 13th, you commence an onslaught on the Editor of the *Examiner* and Mr. Clark. These gentlemen can defend themselves. Further on, you make an onslaught on myself, by stating that I insinuated "that the Hon. F. Kelly introduced us to that meeting as an opponent of Mr. Whelan." I made no such insinuation. The few words Mr. Kelly said, when introducing you to the people, was in favor of Mr. Whelan. But, when you were addressing the meeting, you took especial care to damage Mr. Whelan amongst his constituents, by reading extracts from the *Examiner* upon Confederation, or rather extracts from the pamphlets Mr. Whelan wrote on the subject; and while you were thus engaged, will Mr. John Treanor of Johnston's River or Mr. Kenefic deny that Mr. Kelly repeatedly said that all *you* said were down right *facts*? Will you tell me how you found out "that I cherish a natural hostility to Mr. Kelly, through which I had to change my coat?" Who told you I changed my coat? Did any one ever tell you that I said I would vote for you? Did I tell you I would? No. Now, where is this change.

I thank God I am in the enjoyment of as much honesty and as great a love of fair play as you are. In the meantime I would advise you not to *travel so fast*. If I have said anything respecting Mr. Kelly, that gentleman is able to defend himself, without your assistance; and what I said of him I will say it again, lest you might forget it. After the meeting was over, there were a few persons standing beside Mr. Kelly; the question was put by one who shall be nameless till Mr. Kelly denies it himself. If he will deny it, I can find three men besides myself to prove on oath that he (Mr. Kelly) said he would not trust Mr. Whelan, though he might have pledged himself ever so much, if he had the casting vote.

If this does not satisfy you, I can't. It is a great pity you were not born in the last century, and lived in Ireland, in the city of Dublin. You would have defeated Biddy Moriarty, the *Huxter Woman*, instead of the illustrious O'Connell. On the 26th of Feb'y you will be coming into the city with the whip in your teeth, as you have stated in your paper, Mr. Clark has got no teeth to hold with.

HENRY MOONEY, (Robt.'s son).
Cardigan Road, Feb. 16th, 1867.

OUR DOMESTIC MANUFACTURES.

Last week we noticed the improvements and alterations lately made in the Furniture Manufactory of Mark Butcher, Esquire. The present article we purpose to devote to the Furniture Warerooms, &c., of our equally enterprising fellow-citizen, Mr. George Douglass, whose establishment is one of the largest on the Island. The main building, situated at the corner of Kent and Hillsboro' streets, is 75 feet long by 40 feet wide, and three storeys high. The front part of the lower floor, 42 feet by 40, is laid out as a show-room for parlor furniture, sideboards, melodeons, mirrors, pictures, &c., and is well filled with goods of the best description and quality, both as regards material and workmanship. On the second storey there is a spacious show-room for bedroom furniture, chairs, tables, mattrasses, &c. The third storey is occupied as a workshop, and contains ten benches, besides the painting, varnishing and upholstering departments. The attic, large and well lighted, is filled with a variety of material for manufacturing purposes, some planed and turned, ready for use, and some in course of seasoning. On the back part of the first floor is the Engine room. Here we found a 10 horse tubular boiler, 9 ft. long, 3 ft. in diameter, with 28 3 in tubes, and all the latest improvements to ensure safety, and connected therewith a horizontal Engine 8 horse power, but which can be worked up to ten horse power. The Engine is regulated by Governer's Balls, and, with ordinary pressure, makes 80 revolutions per minute, and may be increased to 120. It works the grindstone, turning lathe and circular saw, and large gig saw benches, which cut from the finest fretwork up to fifteen inches in thickness. The Engine—the first ever constructed in P. E. Island—was made by Mr. Archibald White, Blacksmith, of this city, upon whose mechanical skill it reflects the highest credit. It works admirably true and smooth, and so long as we can get such excellent machinery manufactured at home, it would be folly to go on importing it. Mr. White is both a Blacksmith and an Engineer; and in entrusting to his care and management the new Fire Engine, we think the City Fathers have been most fortunate in their choice. It is not often that one man can construct and work so useful, and withal, so delicate a machine as the Steam Engine; and when we have such an one in our midst, he is entitled to, and we hope he will receive the patronage and encouragement of the business community in which he resides. Mr. White manufactures wagon axles, springs, &c, as cheaply and as good, we believe, as any that can be imported.

But we must not forget that we are in the Furniture Warerooms of our friend Mr. Douglass, and that to them we intended, at this time, to call our readers' attention. It is impossible to inspect the various departments of this extensive establishment, and to witness its excellent arrangements for carrying on the proprietor's business, without being favorably impressed with his energy and enterprise as a manufacturer. He appreciates the labor saving improvements effected through the use of the Steam Engine; and he seems determined to keep pace with the times, by keeping constantly on hand furniture of every description, of the best quality, and of the latest style. At present he gives constant employment to some sixteen or eighteen hands, and his disbursements for wages alone exceed £100 per month. We hope Mr. Douglass, and all like him employed in "the mechanical arts," will reap the reward of their enterprise and skill in a constantly increasing number of *good paying* customers.—*Pat.*

We regret to announce to our readers that the Rev. Donald McDonald departed this life last evening, about 8 o'clock, at the residence of Messrs. William & Donald McLeod, Southport.—*Isl.*

We hazard the opinion that no unprejudiced person can use Sheridan's Cavalry Condition Powders without being fully satisfied with the results.

If there is a general remedy for which the people ought to be thankful, it is Johnson's Anodyne Liniment It is curious to notice the enthusiasm with which some people speak of it, more particularly returned soldiers, to whom it has been a friend indeed.

The Legislature of Newfoundland was opened on the 30th ult. The speech of the Governor refers to a variety of topics—the Atlantic Cable, pauperism, mineral rights, and the failure of the potatoe crop.

A large Bear, weighing over 400 lbs, was killed, about ten days since at Egmont Bay. The carcase was sold in Summerside last week. The fat on it measured five inches in thickness. Good feed for bears up there.—*S. Journal.*

THE CZAR AT CHURCH.—A letter from Nijai, Russia, describing the annual fair, says:—

"Returning from the fair to the town, I saw crowds of peasants flocking into the cathedral from every direction. I asked what was the cause? 'Oh,' said my informant, 'the Czar has come, and you can trace the Czar anywhere by the hosts of peasants that follow him.' I went along in the peasant stream till we came to the cathedral. I went in with the crowd, and in a few minutes after the Czar came in; he stood during the whole service.

"The Russian church, in common with the ancient churches, recognizes no distinction of rank in a place of worship. I saw several peasants near the Czar; the beggar and the prince there stand on a equality with God. In the Russian churches there are no evangelical dress boxes, and few exhibitions of Sunday millinery. The only seat I ever saw in a Russian church, was one at Moscow, for the Patriarch, but it has been unoccupied for a century and a half, ever since Peter the Great abolished the office."

A JOURNALISTIC CATASTROPHE.—An incident occurred in connection with the printing of our paper on Monday which we imagine is unparalleled in the annals of the press. A cat had ensconced herself in the large cylinder of the four-feeder Hoe printing machine employed to throw off the first side of our impression. Before starting a machine of this sort there is considerable noise and bustle in putting on the 'formes' of type, &c., and during the first few revolutions it is driven very slowly. The cat, however, remained quite quiet during these preliminaries, and escaped notice until the machine was running at full speed, and had thrown off some 800 copies of the paper. She then apparently thought she had had enough of it, and attempted to spring out of the cylinder, but, being giddy after her 200 full speed revolutions, fell underneath it, and was crushed to a jelly by the revolving formes, and her flesh, blood and bones being so evenly distributed over the type that it was only after a great deal of washing that printing could be resumed. So completely triturated was the unfortunate animal that, as one of the hands expressed it, "nothing was left of her but the skin."—*North British Mail.*

A lady in Cincinnati, anxious to purchase a camel's hair shawl, could find but one which suited her. After asking the price, which was $1,500, she tried to persuade the clerk to let her have it for $1,000. "Madam," replied he, "your husband, a few hours since, made me the same offer for this very same article, and was refused." At this stage pleasure took the place of disappointment, for, of course, Mr. S. wanted it for his wife. In order to assist him in his kind design, she paid *sub rosa* $500 towards the purchase, after which the clerk was to write a note to Mr. S. saying that he might have the shawl for the $1,000. Mrs. S. went home, delighted with the prospect of so valuable an addition to her wardrobe. Evening came but the package didn't, so, highly indignant, the lady went to the store to demand an explanation of the neglect. Thereupon, the clerk assured her Mr. S. had carried the bundle away himself. Mrs. S. went home much mystified, but in a few days the riddle was solved. While walking on Fourth street, she met a fair, but frail one, sporting the identical shawl.

HOLLOWAY'S OINTMENT AND PILLS.—Wrongs and their Remedies.—When the safe treatment of disease, by these purifying preparations is so simple, and the good results so fully known, it seems almost unnecessary to ask the ailing to give them a trial. The Ointment is infallible in curing skin diseases, healing ulcers, arresting inflammations, reducing enlargement, and removing almost all external maladies. In all affections of the joints, gouty, rheumatic, and scrofulous attacks, by which the health of many is daily drained away, Holloway's Ointment and Pills will afford indescribable relief and will gradually, if they be used as recommended in the accompanying directions, bring about a thorough and lasting cure. These medicaments are suitable for both sexes, and for every age and condition.

At the masked ball at St. Petersburg for the benefit of the Cretans, the Emperor and Empress were both present. The receipts were 68,000 silver roubles (£10,800). Boxes were rented for £32, and the grand tier boxes for £480. A lottery was drawn during the evening, for which 100,000 tickets were sold, and ices and glasses of lemonade brought from 10 to 20 roubles each, and no change back.

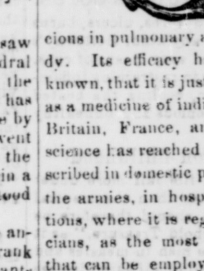
Ayer's Cherry Pectoral.



Is a soothing Expectorant, prepared to meet the urgent need of a safe and reliable cure for diseases of the throat and lungs. A trial of many years has established the fact that it is more efficacious in pulmonary affections, than any other remedy. Its efficacy has now become so generally known, that it is justly regarded in many countries as a medicine of indispensible necessity. In Great Britain, France, and Germany, where medical science has reached its highest perfection, it is prescribed in domestic practice, and constantly used in the armies, in hospitals and other public institutions, where it is regarded by the attending physicians, as the most speedy and agreeable remedy that can be employed. Scarcely any neighbourhood can be found where well known cases of diseased lungs, which had baffled the efforts of the most skilful and experienced doctors, have been permanently cured by it. These results are the most convincing proofs of the superior curative properties of this preparation; and to them the authors point with peculiar satisfaction. While it is most powerful against confirmed diseases, it is extremely gentle as a medicine in infancy and youth, being quite harmless to even the youngest, when administered judiciously.

This health-restorer accomplishes even more by prevention than cure. If taken in season, it heals all irritations of the throat and lungs, whether arising from Colds or Coughs, or from other causes, and thus prevent that long train of painful and incurable diseases which would arise from the neglect of them. Hence no family should be without it. Influenza, Croup, Hoarseness, Whooping Cough, Pleurisy, Incipient Consumption, and other affections of the breathing organs, give way before this pre-eminent combination of medical virtues.

Prepared by DR. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and dealers in medicine everywhere.

Teachers' Meeting.

A GENERAL MEETING of the District Teachers, throughout Queen's County, will be held at the Normal School, Charlottetown, on Friday, the 15th day of March next, at the hour of 12 o'clock, noon, for the purpose of laying the grievances and disadvantages under which Teachers labor, before the General Assembly, at its next session, with a petition to have those grievances redressed, the salaries increased, and paid in full from the Treasury.

Should the day be unpropitious, it will take place on the Friday following.

As the object of the meeting is one which involves the serious consideration of all teachers, it is to be hoped every one, who possibly can, will make it a point to attend.

To The Electors of the 1st District of Queen's County.

GENTLEMEN;—Having been chosen by a large majority of the Liberal Electors, at several public meetings in the southern portion of the District, and also meeting with a warm reception in the centre and north. I have complied with the request of my friends to become a candidate for your suffrages at the coming election.

Should I be honored by your support, and be returned to the Legislature, my highest ambition will be to provide for the local requirements of the District, and the general welfare of the people.

Any proper measure to assist the tenantry in becoming free shall receive my support, my interest being identical with your own. I am opposed to Confederation on any terms, unless it is chosen by the people at the polls. A free education system should be maintained, and its expenses defrayed by the Government.

I thank you for the very kind reception which you extended to me when I visited the northern section of the District, and attended public meetings last week. The assurances of support which I then received were most gratifying to me.

Should I be successful in my election, I trust a spirit of moderation will mark all my proceedings, whilst I remain,

your obedient servant,
WILLIAM BEER.

DeSable, Feb'y 18, 1867.

To the Electors of Charlottetown and Royalty.

GENTLEMEN;

IN compliance with the request of a large number of my fellow citizens, I am induced to offer myself as a Candidate to represent you in the next General Assembly. My political opinions are so well known to you that I need not enlarge on that subject. On the important question of Confederation, however, I deem it incumbent on me to make known my sentiments. I have always been opposed to the terms of the Quebec Scheme as I consider them neither just nor liberal to this Island. In the event of a modification of that Scheme being proposed, I should, as your Representative, feel bound to submit it for the decision of the country at the Polls; and I would strenuously resist any attempt to carry out confederation in opposition to the wishes of the people. At the same time, I consider that any suggestion from the Imperial Government should be treated with the consideration due to the high authority whence it emanates.

If elected, I shall always endeavor to promote the general interests of the country. Agriculture and the prosecution of the Fisheries, being our chief sources of wealth, I would encourage and develope as far as possible. The means of transit in a new country is also a subject of the utmost importance, and demands most serious consideration, and for this service I would advocate as liberal an expenditure as the resources of the Colony may admit.

I regret that the short time that will elapse before the day of Election prevents my making a personal canvass to secure your support.

I am, Gentlemen,
Your obedient servant,
J. T. JENKINS.

To the Independent Electors of Charlottetown and Royalty.

GENTLEMEN;

HAVING been solicited, by a large and influential number of my fellow-citizens, I have resolved to become a Candidate for your suffrages at the approaching Election.

My object, Gentlemen, is not the support of party, but the advocacy of such measures—irrespective of party bias—as are best adapted to the requirements of the Colony.

My humble efforts and best energies shall be more especially directed to the obtaining of a Loan, in the payment of Proprietary lands, thereby securing for the Tenantry of this Colony the fee simple of their farms, without embarrassing and depressing our mercantile interests.

Any legitimate means that can be devised for the protection and fostering of that invaluable branch of our industry—the Fisheries—with a view of placing our own people on a level with American Fishermen, will receive my best support.

I shall also encourage protection to Home enterprise, the extension and development of every branch of Trade and Commerce, and shall further any measure calculated to stimulate the industrial classes and benefit the material interests of the Colony generally, but more especially Charlottetown and Royalty.

On the Confederation Question I am opposed to any measure committing this Island to the Quebec, or any other Scheme, until my constituents shall have first decided in favor of it at the Polls.

I have the honor to be,
Gentlemen,
Your most obedient servant,
P. W. HYNDMAN.

REQUISITION.

To THOMAS W. DODD, ESQ.

Sir:

WE, the undersigned Electors of Charlottetown and Royalty, deeming it inexpedient that any further delay should transpire in choosing some gentleman to be put in nomination as an additional candidate for Charlottetown and Royalty, and having every confidence in your ability and integrity, have to request that you will reconsider the determination you came to at the recent meeting at the Temperance Hall, and consent to be nominated as one of the candidates for said Town and Royalty; and we pledge ourselves to use our best exertions to ensure your return, feeling assured that you will not only further every measure that will promote the prosperity of the City, but faithfully maintain the interests of the Island in all constitutional measures required by the well-understood wishes of its people.

REPLY:

To the Free and Independent Electors of Charlottetown and Royalty:

GENTLEMEN;—In compliance with the above requisition, received this day, I have decided to allow myself to be placed in nomination as a candidate for Charlottetown and Royalty, to represent you in the next General Assembly. With my political views you are well acquainted. I am a decided opponent to the proposed scheme of Confederation, so far as it is intended to include this Island with the other British North American Provinces. Should you honor me with your Confidence by electing me one of your Representatives, I shall use my utmost endeavours to promote the interests and prosperity of Charlottetown and Royalty, also of the Island in general.

With many thanks for your expression of confidence in me, I have the honor to be, gentlemen,

Your obedient servant,
THOMAS W. DODD.
