TORONTO

TORONTO (CP) — Profit-taking hit the stock market near the close Wednesday but despite the selling the market was generally held in fairly active trading. Western oils and base metals still suffered at least a point decline on index in the final hour. Western oils closed ahead more than 1 1/2 points on index. Base metals had a quarter-point gain while golds were down one-half. The oils advanced strongly as they continued to react to the Middle East crisis, but when oil rallied at New York around noon profit-taking appeared here. Most issues lost fractions from the highs.

New Hosco was the most active issue, trading 349,490 shares. The stock climbed to a high of \$4.45 on rumors that results of the company's third drill hole were good. It closed ahead 30 cents at \$3.80. Golds were easier as McIntyre slipped 1/4 at 7 1/2 and several other issues were down a few cents.

Base metals were up as Falcon-

bridge and Consolidated Mining gained 1/4 and Labrador 1/2. Index changes: Industrials up 1.52 to 455.65; golds up 57.10 to 111.1; base metals up 27 to 153.07; western oils up 1.68 to 140.87.
