DVICE.—We are indebted to Mr. H. M. Wilson, City Clerk, for a copy of the Report for last year. The main facts of the report have already been touched upon by THE EXAMINER. The arrangement and workmanship of the report merit great credit on Mr. Davison and the printer, Mr. John Colombe.

CITY SCHOOLS.—The teachers' report for the month of January shows an enrollment of 1,111 pupils. The percentage of attendance was 81. The actual number of pupils in attendance during the month was 1,312, an increase of 37 over the actual number in attendance in January of last year. The highest percentage of attendance during the past month was 93—in Principal Miller's Department, West Kent Street School.

REMEMBER FOR ADVERTISERS.—Never fix the price of anything so low that you can't advertise it. Circulars hit only once, if at all, and are then consigned to the waste basket. Your particular line of goods may not be wanted to-day; they will be wanted to-morrow, or the day after. Don't send the same card from January to December. Change occasionally. Don't get into a rut. Have some vim. People won't and can't see that you have a good thing. Suggest some thought. It costs no more to publish good matter than poor. Prepare your matter carefully; make it attractive; don't crowd; let your catch lines be bold.
THERE never was a greater boon to the housewife. Every form of stain or dirt disappears before Lessive Phenix—the new exclusive. Wash cotton, linen or flannel with it. It cleans all kinds of utensils. It will clean your silverware. It is a phenomenal soap saver, because it does the work without the use of soap at all. It makes a wonderful improvement in your clothing after you have used it a few times. A powder, but not the old chemical powder, which destroyed both your hands and your clothes. It makes the skin soft and the hardest washing easy. Ask your grocer.
LITERARY.—A very pleasant evening was spent by those who attended the literary meeting of the Epworth League. These meetings grow in interest, and reflect great credit on Mrs. Henry Smith, who has charge of the department. Mr. Hodgson led his hearers from Charlottetown to Montana, stopping at several places of interest along the line. The description of his visit to the art gallery and museum at Chicago was very interesting. At the close of the essay Prof. Denton rendered a brilliant piano solo, which was followed by readings from Messrs. Matheson, John Lewis, jr., and Wm. Patrick. A discussion on the subject for the evening was taken part in by Messrs. A. McNeill, R. C. Goff and John Newson.
HAS HAD SEVEN HUSBANDS.—Miss Samuel Gaston, formerly of Picot, N. S., lately of Providence, is devoted to matrimony. She has recently married her seventh husband. Her husband number one was a Gaston. Her husband number five was a Gaston. And now husband seven is also a Gaston. The three Gastons were brothers. She is forty-seven years of age. Her present husband is slightly younger. She has an impression fixed upon her mind that her destiny is, sooner or later, to marry the remaining brothers of the Gaston family. Her present husband does not feel very comfortable in view of the probabilities. But Mrs. Gaston expects successfully to accomplish her destiny.

SPECIAL DESPATCHES TO THE EXAMINER.

British Gales.

LONDON, Feb. 2. Gales prevail off Holyhead, in the English Channel, and along the eastern coast of England and Scotland. A number of coasting vessels have been wrecked.

Bigamist Punished.

MONTREAL, Feb. 2. W. J. Clarke, the Sackville singing man, who was arrested for bigamy some time ago, has been sentenced to three years in the penitentiary.

Steamer Ashore.

LONDON, Feb. 2. The steamer Eider, which is ashore, lies in comparatively deep water, the midships section resting on a ledge.

General Telegraphic News.

PARIS, Jan. 31.—According to advices from St. Petersburg, the Czar intends to initiate measures for the restoration of serfdom among the peasants.

WASHINGTON, Jan. 31.—Secretary Blaine has sent Minister Egan a telegram accepting Chile propositions for settlement of the difference between the two governments.

OTTAWA, Jan. 30.—Mrs. Blackwell, of the township of Bromley, put strychnine in the tea and drinking a cupful died from the effects of the poison. The rest of the family detected the strange taste of the tea and refrained from drinking it. The woman had been suffering both in mind and body for some time.

DUBLIN, Jan. 30.—William O'Brien, while on his way from the railway station to the residence of Archbishop Croke at Thurles to-day, was followed by a menacing crowd who hooted and jeered him. All manner of epithets were hurled at him, "renegade" and "murderer" being among the terms addressed to him.

TORONTO, Jan. 31.—There are all sorts of rumors in regard to the coming upheaval in the grip party. Mercier is at the bottom of the whole trouble. The grip find it impossible to make head in the province while weighed down by the ex-premier. In Quebec, everywhere the party leaders and speakers are met with the question, "What about Mercier?" when they would fain paint in lurid colors, "Tory corruption" at Ottawa. The situation has grown worse since Laurier's Quebec speech, in which the federal opposition leader raised the constitutional issue about the question of honesty in handling public funds.

MONTREAL, Jan. 31.—The long looked for report on the Baie des Chaleurs scandal will be in the hands of the governor-in-council this week. Judge Jette, although far from well, has been able to participate in several consultations with his colleagues, Judges Baby and Davidson, with the result just stated.

ST. JOHN'S, Quebec, Jan. 30.—The talented young lawyer, Leon Lorrain, who has been suffering from softening of the brain, caused by overwork and grippe, left his house in Iberville and started to cross the river to this place. He was bereft of mind and coatless. As soon as possible his wife sent the neighbors after him. They traced his footsteps in the snow to a hole in the middle of the river, where he doubtless jumped in and was carried under the ice and drowned.

LONDON, Jan. 31.—Reports have been received in this city of Highland floods causing devastation in Scotland. Bridges in the village of Bonar and several adjacent places were destroyed and much other damage done by the raging waters. The valley of Kyle, of Southern land, near the northern extremity of Scotland, has been converted into an immense lake, causing great loss of property. There is considerable distress among the people, and a number of houses are submerged. Many sheep have been drowned.

MONTREAL, Jan. 30.—Among the many revelations promised by Mercier's opponents is one which has created a profound sensation in Catholic circles. It is stated that shortly before the general provincial election, Mercier, by means of letters of credit, purchased half a ton of wax candles. It is alleged that these were distributed as gifts to certain circles with whom Mercier was very friendly. Of course the recipients had no idea of the source from which the funds came for the purchase, or of which the candles would have been refused. To say that the people are dumfounded over this latest development of religious fraud is drawing it very mildly.

LONDON, Jan. 31.—The Daily News and other papers here have broken out in a protest against the stream of undesirable immigration allowed to pour into England without let or hindrance. The Evening News to-day says London continues to be more than ever the home of destitute and filthy emigrants returns show that last year 38,142 emigrants entered the city. Here most of them have stopped adding to the worst part of the population of the east end. All efforts to Anglicize these people have failed. Filth, disease and crime are unrestricted among them. The prospect is dark before us, the News adds, in an index of 40,000 of the foreigners yearly. How will an Englishman be able to live, unless this stream is dammed?

OTTAWA, Jan. 31.—Commissioner Saunders returned from Chicago yesterday, where he made formal application on behalf of the Dominion government for 100,000 square feet of space at the world's fair. The directorate think the space asked for rather large, but there is every indication that all will be required. Saunders has already received applications for space for Ontario implement manufacturers which will take up every inch allotted to that department. He therefore requested double the quantity for this branch, 18,000 feet was allotted for agriculture, of which 3,000 is for dairy, in addition to the 10,000 feet for fruit exhibit, and a large space will be required for the Maritime provinces. It is expected that the Maritime provinces will put forth every effort to make the latter part of the fair a success. Circulars will shortly be displayed to all Canadian exhibitors at the Centennial, Colonial, Paris and Jamaica fairs, asking them to assist to make Canada's representation at Chicago a success.

Weather Bulletin.

TORONTO, Feb. 2.—10 a. m. Fair and milder.

SEE CHEAP JACK before you buy your Boots and Shoes, and don't forget those Overshoes.—Cheap Jack, sign of the Silver Car, opposite the railway station.

Personal.

The Montreal Gazette says that Mr. Metcalf is a good hand at spiking a gun. Lord Chief Justice Coleridge, who was recovering from an attack of indigestion, has had a relapse.

T. A. McLean, Esq., has sufficiently recovered from the effects of his late accident to be able to move about the streets again. Pan Yung, a wealthy Chinaman of Indianapolis, and Ida Norton, also of Indianapolis, and daughter of wealthy parents, have been married in Chicago. It was a case of elopement.

Relations between the royal family and Emperor William are likely to be considerably strained for a long time to come. The flag at the Schloss was not lowered to half-mast for the Duke of Clarence, and when the Duke (who was the Emperor's cousin) was being buried the Emperor, instead of attending the memorial service at Berlin, in accordance with his mother's earnest request, was holding an inspection of recruits at Kiel. The Emperor would not allow his brother, Prince Henry, to go to England to attend the funeral, although his presence at the ceremony was particularly desired by the Empress Frederick and the Queen and royal family, and His Royal Highness himself was anxious to attend. The fact is that the Emperor, whose sentiments spin round like a weather-cock whirlwind, is just now in a rabid hostility toward England. His relations with the royal family have never been really cordial, and his enthusiasm for and pride in his connection with England were sentiments which cooled as rapidly as they arose. They came like shadows and so departed. His Majesty has succeeded in exasperating and greatly paining his mother and relatives, and has profoundly scandalized public feeling in Germany, especially among the upper middle classes, who, as a rule, are rigid martinet in such matters as family mourning.

DIED. At Rosely Hall, on Wednesday, 27th inst., Lucy Priscilla Wheatley, eldest daughter of Mr. Samuel Wheatley, aged 37 years. [Halifax, Syracuse and London papers please copy.]
