The Montreal Transcript says:— "It is very unfortunate that the Minister of Militia should have left before this intelligence reached, though probably in Col. Macdougall's hands the preparations for defence will be as ably handled."

Other papers regard the position as most serious and full of danger.

The St. John, N. B. Freeman, of the 27th says:— Mr. A. Howard, a gentleman from Montreal, who took a prominent part in the agitation which culminated in the destruction of the Parliament buildings in that City, died suddenly at the Waverley Hotel on Monday morning. He arrived on Saturday from Windsor, and was preparing to leave in the steamer for Portland, and his luggage had actually gone when he complained of feeling unwell, and sat on the parlor sofa. A few minutes after he was found lying on the hearth rug. Dr. Berryman was at once called in, but medical aid was useless, and he died about noon of what is said to have been a combined attack of epilepsy and apoplexy. He leaves a wife and five children.

The running drill has been added to the discipline of the British Army. A general order, just issued from the Horse Guards, directs that the Infantry Regiments shall be exercised in this drill once a day. Soldiers who have served over fifteen years, or are excused by medical certificate, are exempted. For the first fortnight the distance is not to exceed 300 yards a day; for the second it may be increased to 600 yards; for the third 900 yards, and after that to 1000 yards daily with arms and accoutrements carried on alternate days. The pace, on all occasions, is to be at the rate of 6 miles an hour. The introduction into the service of the Snider breech loader and the running drill form an important event in the history of the British Army.—Pat.

WILLIAM ANNAND, Esq., M. P. P., for the East Riding of Halifax, and one of the Anti-Confederate Delegates to England, has published an able reply to the Hon. Dr. Tupper's Letter to the Earl of Carnarvon. The venerable Judge Marshall has also favored the people of Nova Scotia with a communication on the same subject. We shall lay some of the arguments of these gentlemen before our readers at our earliest convenience.—Pat.

It affords us much pleasure to learn that Mr. Leander G. McNeill, favorably known to many of our readers, has been successful in winning a Scholarship in Edinburgh. It is one of the "Miller Scholarships" worth £40 sterling a year, for two years, and is regarded as among the best Scholarships in the University. What renders this victory more creditable, is the fact, that it was gained after keen competition. There were some twenty competitors, among whom were the senior medallist in Latin, in the Glasgow University, and high prizemen in the Edinburgh University. We congratulate our young friend on his success, and hope, that he may yet win laurels, and wear them gracefully.—Pat.

We regret to learn that a fatal accident occurred at Waverley on Friday last, among a party of men who were blasting at the German Company's works. A spark was struck while tamping the charge with a steel rod, when an explosion took place, by which three men were seriously injured. One man, named Livingston, died in two hours after. Another named Shaw, whose head was fearfully bruised by the tamping rod, expired on Friday night. Wilson, the third party, will likely survive. It is said that Wilson belongs to Colchester County, and the other two are reported as from P. E. Island.—Hx. Express.

We understand that a requisition is in course of signature for James Muirhead, Esq., to offer himself as a candidate to represent the Second District of Prince County in the Legislative Council. Mr. Muirhead has had large experience in the public service, and is eminently qualified for the position. We shall have more to say about him, along with others next week.—S. Prog.

It is stated that Sutton or Dutton, the agent of James Stevens in Ireland, has given full information to the British Government, and that they know the name of every Fenian in the kingdom. The number of teachers of national schools in the South and West who are implicated, is very great. The 24th of December is spoken of as the day of "the rising."

Thirty-nine of the persons imprisoned at Toronto as Fenians were discharged some days ago, because there was no evidence to convict them. They were sent to the United States frontier by special train, under charge of a detachment of the 17th Regiment, and each got a \$5 greenback.

Mr. Wallace, a Nova Scotia Barrister, suspended and forbidden to practice by the Supreme Court of that Province, because he accused the Chief Justice of improper conduct, of prejudging cases in which he was interested, and advising some parties to bring an action against him, appealed to the Privy Council, who reversed the decision of the Nova Scotia Court.

We have received by mail a pamphlet on Confederation written by the Hon. Mr. Annand. It is a reply to Dr. Tupper's Speech at the Tavern Dinner, and to his pamphlet. It is a very able production. It puts some of the arguments against Confederation very powerfully and pointedly, exposes the contradictions of the delegates, and shows what very different results the friends of Confederation in the Provinces, and those who favor the scheme in England expect from it.

Our news despatches are again becoming sensational. Reports of a Fenian rising in Ireland and of trouble between England and the United States are rife enough, but what share of truth they may contain, we are not prepared to say. The latest and most reliable despatches will be found in our columns.

To-morrow has been set aside by the Governor in Council as a General Thanksgiving Day for the late "bountiful harvest."

We have received, by mail, a pamphlet, written by "A Nova Scotian in Canada," in reply to Hon. Mr. Howe's first pamphlet.

We learn from Canadian papers that a few days since, the farmers of the country around Quebec, headed by their Parish Priest, entered that city with a long train of wagons, bringing some hundreds of bushels of potatoes to be distributed among the sufferers by the recent fire.

No less than 16,000 revolvers, made in England, are said to have been distributed in Ireland during the last few weeks.

Mr. H. Macdonald, of Antigonish, went "home" in the Java to co-operate with Mr. Howe and Mr. Annand.

It is said that Malcolm McLeod, Esq., of Orwell Head, is going to offer himself as a candidate for Belfast District. Mr. McLeod has the name of being a thoroughly independent gentleman, and the possessor of no small share of ability.

Mr. Patrick Connolly, Head of St. Peter's Bay, can receive the names of subscribers, with their subscriptions, to the HERALD.

The steamer Alhambra arrived at this port last night. The weather is everything that could be desired by shippers, and we think all outward-bound vessels will have little difficulty in clearing from the various ports of the Island in time to escape the ice. Immense quantities of oats and other produce have been shipped during the past few days, and, on Tuesday, oats readily commanded 2s. 5d. per bushel.

A Debating Society, in connection with the St. Dunstan's Temperance Society, has been formed, which meets every Monday night. On next Monday night there will be an interesting discussion.

We understand that a series of meetings will be held in the Second District of Queen's County, in the course of a fortnight, for the purpose of selecting anti-Confederate candidates for the approaching elections.

Medical Notices.

At this season of the year, when so many of our people are suffering from colds, we call attention to AYER'S CHERRY PECTORAL as a sure cure not only for coughs and colds, but all affections of the lungs and throat. Having used it in our family for many years, we can speak from personal knowledge of its efficiency. There may be other remedies that are good, but in all our experience this has proved to be by far the best. Its qualities are uniform and wholly reliable. It is pleasant to take, and should be kept at hand, by every family, as a protection against a class of complaints which seem harmless in the beginning, but become afflicting and dangerous if neglected.—N. H. Register.

CHILDREN HAVING WORMS Require immediate attention, as neglect of the trouble often causes prolonged sickness. Brown's "Vermifuge Comfits" are a simple remedy, and will destroy worms without injury to the child. Sold at 25 cts a box by most dealers in Medicines. CUTLER & BROWN, proprietors. New York. Sold by all Dealers in Medicines, at 25 cts a box. Dec. 6 Im

NEGLECTED COUGHS AND COLDS.—Few are aware of the importance of checking a Cough or Common Cold in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon lays upon the Lungs. Brown's Bronchial Troches, or Cough Lozenges, afford instant relief.

Mrs. Winslow's Soothing Syrup is the prescription of one of the best female physicians and nurses in the United States, and has been used for thirty years with never failing safety and success, by millions of mothers for their children. It relieves the child from pain, corrects acidity of the stomach, relieves wind colic, and, by giving rest and health to the child, comforts the mother.

Holloway's Pills—These exceedingly purifying and restorative Pills have been honored by the patronage of all classes for more than a quarter of a century. In this unique climate a few of Holloway's Pills taken occasionally, at bed time, will prevent or dispel many tormenting attacks of hoarseness, sore throat, diphtheria, quinsy, and other throat affections generally very rare in winter. This medicine has been favored with a preference beyond all other medicines in asthmatic and dropsical diseases, when this anti-spasmodic, diuretic Pill, one of Holloway's, taken before dinner, will insure such comfort to the dyspeptic, gradually restore the stomach's digestive powers, and grant relief to much misery.

Perry Davis' Vegetable Pain Killer. THE GREAT FAMILY MEDICINE OF THE AGE! Pain Killer, taken internally, should be adulterated with milk or water, and sweetened with sugar if desired, or made into a syrup with molasses. For a Cough, a few drops on sugar eaten will be more effectual than anything else. For Sore Throat, gargle the throat with a mixture of Pain Killer and water, and relief is immediate and cure positive. It should not be forgotten that the Pain Killer is equally as good to take internally, as to use externally. Each bottle is wrapped with full directions for its use. To the Electors of the First Legislative Council District of Queen's County. GENTLEMEN,—

HAVING been nominated at two very influential Meetings, the one held at De Sable, on the 1st December, inst., and the other at South Shore, on the 3rd inst., for the purpose of selecting a Candidate to represent you in the Legislative Council, in room of the Hon. K. Henderson, whose term has expired, and who has been solicited to represent a District in the Lower Branch of the Legislature, it is with much diffidence that I accede to the request so cordially expressed at those meetings, fearing that my humble abilities are inadequate to the great responsibility of the trust here proposed to honor me with.—Should I, however, become the object of your choice, my most earnest desire will be to discharge that trust in a manner faithful to yourselves and to the great public interests of the Colony. I quite accord with the opinion you have so generally expressed on the subject of the contemplated Union of the British North American Provinces.

With the present constitution of this Colony the people appear satisfied. The change proposed by the Quebec Scheme of Confederation, I shall steadfastly oppose, and should any other one be brought before the Legislature, I would not support it before it was submitted to the people at a general election.

I have the honor to be, Gentlemen, Your most obedient servant, DONALD W. PALMER. Recess, Crapsaud, Dec. 3d, 1866. 3d Pat

Ayer's Cherry Pectoral. FOR THE RAPID CURE OF Coughs, Colds, and Influenza. Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

SO wide is the field of its usefulness and so numerous are its cures, that in almost every section of country are persons publicly known, who have been restored by it from alarming and even desperate diseases of the lungs. When once tried, its superiority over every other expectorant is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten. We can assure the public, that its quality is carefully kept up to the best it ever has been, and that it may be relied on to do for their relief all that it has ever done. Great numbers of Clergymen, Physicians, Statesmen, and other eminent personages, have lent their names to certify the unparalleled usefulness of our remedies, but space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the complaints our remedies cure.

Those who require an alternative medicine to purify the blood will find AYER'S COMB. EXT. SAMPARILLA the one to use. Try it once, and you will concede its value. Prepared by DR. J. C. CHILDREN TEETHING. MRS. WINSLOW, An experienced Nurse and Female Physician, presents to the attention of mothers, her Soothing Syrup, For Children Teething, which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain and spasmodic action, and is SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourself, and RELIEF AND HEALTH TO YOUR INFANTS. We have put up and sold this article for over thirty years, and can say with confidence and truth of it, which we have never been able to say of any other medicine—never has it failed, in a single instance, to effect a cure, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter "what we do know," after thirty years' experience, and pledge our reputation for the fulfillment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most experienced and skillful nurses in New England, and has been used with never failing success in THOUSANDS OF CASES. It not only relieves the child from pain but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC and overcome convulsions, which, if not speedily remedied end in death. We believe it the best and surest remedy in the world, in all cases of Dysentery and Diarrhoea in children, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints, do not let your prejudices, nor the prejudices of others, stand between your suffering child and the relief that will be sure—yes, absolutely sure—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by druggists throughout the world. Principal Office, No. 48 Day Street, New York. Price, only 35 cents per Bottle. Oct. 6, 1866. 1y
