## CHARLOTTE TOWN BOOT AND SHOE FACTORY.

SPRING, - - - 1887 - - - SPRING.

WE must thank our friends and the public generally for their ever increasing patronage since we have commenced business.

Our Boot & Shoe Factory, in starting, had many difficulties to overcome, and we are glad that to-day those difficulties have been surmounted, and we are now well able to compete with the best Boot and Shoe Factories abroad.

Some of the advantages purchasers have in buying from us are, saving of freight, ordering goods when you want them (not six months before), getting them without delay—which saves carrying a large stock which deteriorates on the shelves.

Our leathers are bought directly from the tanneries, thereby saving commissions which many factories have to pay.

We are more determined than ever to give the

## BEST OF SATISFACTION

and to merit the whole of the Island's patronage.

We hope to see many new industries arise, thereby increasing the prosperity of the "Gem of the Sea."

### LETTERS TO THE EDITOR.

Correcting False Statements.

SIR,—In reading your paper among other letters I noticed one from Morell written by "Jim," and referring to a trot on St. Peter's Bay. He begins by saying "there are some persons in the world who have gall enough for almost anything," and intimates that your correspondent at Morell is one of that number. No doubt he alludes to himself. First he says there was no trot at Morell. This statement he knows is false. Now, as a matter of fact, there were hand-bills posted up for a club trot to take place on St. Peter's lake, and said trot was called by the sporting men of said place, including the owner of Wallace. A large number of spectators were at the said place at the appointed time, and were disappointed when they saw none of the sporting men of the locality. Among the other horses to be seen were young Harry and Molly Kate. On account of some water being on the ice, and none of the sportsmen who called the trot being there, the sporting men present decided to go to St. Peter's Bay ice at or near the mouth of Morell, for there was less water on that ice (distance being on or about two miles from lake) and the ice being better on the Bay, Young Harry, Old Harry and Molly Kate did some very good trotting. The owners of these horses were thinking about going home when Wallace put in an appearance. Then everyone seemed anxious to get up another race. Young Harry, Old Harry, Molly Kate, and Wallace entered to trot three mile heats, best two out of three. (Mile was not measured.) Molly Kate took first and third heats, with Harry close behind. No doubt Wallace is a smart horse and a hard one to beat, but without a 2.20 record. Come "Jim" don't try to persuade the sensible men of Morell and elsewhere, that there was no trot. They are aware that you have brass enough for anything when you write such a falsehood. But come out with three mile heats best two with any sum from ten dollars to fifty dollars, and you will be accommodated by either of the two colts for an old fashioned race. If the ice is not safe to trot on at present Morell Park will be in good condition early in the season. Come "Jim" you say correspondents of a newspaper should write the truth. Pity you don't practice what you preach. If you did so you would save truthful persons the trouble of correcting false reports.

Morell, April 13. Joe.

### ASTONISHING SUCCESS.

It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Samples bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers in the United States and Canada.

J. W. MITCHELL.  
Ch'town, Nov. 9, 1886

### Meeting of Presbytery.

The Presbytery of P. E. Island met at Zion Church, Charlottetown, on the 13th inst., at 11.30 a. m. There were present Rev. Alexander Stirling, J. M. McLeod, W. R. Frame, J. G. Cameron, A. F. Carr, Wm. P. Archibald, James Carruthers, A. S. Stewart, Geo. McMillan, Ewen Gillis, A. B. McLeod, A. W. Mahon, Roderick McLean, J. W. McKenzie and Archibald Brown, ministers; and Messrs. T. C. James, Isaac Thompson, D. McLeod, Wm. B. Ramsay, John McDonald and Hon. Benjamin Rogers, elders.

The Presbyterians of Bloomfield, O'Leary and the Brae petitioned the Presbytery to be disjoined from the congregations with which they are at present connected, and organized into a new congregation, and guaranteed an annual salary for the minister of \$750. Alberton having expressed their willingness for this change, and having guaranteed the salary of \$800 and a free manse, to their minister, and West Cape also having expressed concurrence in the proposed reconstruction, the Presbytery, on motion, granted the prayer of the petition, and declared Bloomfield, O'Leary and the Brae to be a distinct and separate congregation. The elders in these sections, with Rev. A. F. Carr as their moderator, to constitute the session of the new congregation. Rev. Mr. Carr was appointed to moderate in a call at such time as may be agreed upon by the session.

A petition from the Orwell section of the congregation of Belfast was also read, asking to be separated from the congregation of Murray Harbor Road. The parties interested having expressed their concurrence in the proposed change, the Presbytery did, on motion, disjoin the petitioners from the congregation of Belfast, and unite them with the congregation of Murray Harbor Road, the congregation henceforth to be known as the congregation of "Orwell." The elders in these two sections, with Rev. E. Gillies as their moderator, to constitute the session of said congregation.

Rev. Archibald Brown was appointed to preach and moderate in a call in Richmond Bay West, at such times as may be agreed upon by the session of the congregation.

Rev. Mr. Carruthers submitted the report on statistics, which showed a great deal of care in its preparation. The report was received and approved and the thanks of the Presbytery given to the committee, and especially to Rev. Mr. Carruthers, the convener.

It was agreed to apply to the Home Mission Board for Mr. Smith, of Pine Hill College, and Mr. John M. McLeod, of Princeton, N. J., to labor on the Island as catechists; and Messrs. A. Campbell and D. McDonald as probationers. Mr. McLeod was appointed to preach in Orwell until the next meeting, which is to take place in Summerside, on the first Wednesday of May, at 11 o'clock, a. m.

J. M. McLEOD, Pby. Clerk.

### SAVAGE HARBOR NOTES.

Now that the elections are over the different lobster-canning firms in this locality are actively engaged fitting up for the season's fishing. We trust they may all do a brisk and remunerative business. Wild geese are said to be exceedingly plentiful this spring, and in consequence sportsmen are on the qui vive of excitement. Last Monday was aided by old residents to be the best day for shooting for some years. Quite a large number of the feathered beauties were secured, both in Tracadie and Savage Harbor. In the former place we hear the lawyers were completely knocked out by one or two plain, unassuming farmers.

We had the pleasure to-day of seeing that celebrated stallion, Old Brown Stout. He has recently fallen into new hands, having been purchased by Mr. Frederick Pigott of this place. Judging by his appearance he has fallen into the hands of excellent caretakers. We hear Mr. Pigott has received a handsome offer from a farmers society in Nova Scotia for his horse's service during the coming season. It would be a great loss to the farmers of P. E. Island and to King's County in particular, to lose the services, even for one season, of a stallion having so fine a record as a stock getter, and we trust he will see his way clear to keep him at home.

Flower of the Forest Lodge, I. O. G. T., formed here last fall is still in a flourishing condition. Its membership is steadily increasing. Meetings are held weekly, and the interest manifested at each shows the temperance sentiment to be at heart, which insures its future stability.

### THE PANAMA CANAL WORKS.

The Panama Canal impresses the visitor as being one of the most gigantic engineering enterprises of modern times. Among the many difficulties to be overcome are those of taking the canal through the Chagres River some twenty times, through a hill several hundred feet high by means of a deep cutting, and through numerous swamps and beds of rock. When completed, it will be over fifty miles in length, twenty of which are now so far finished as to admit water, three miles having a depth of 25 feet, and the remaining seventeen a depth of 5 feet.

Among the sketches, the port of Colon, or Aspinwall, at once attracts attention, with its extensive wharves and sheds running into the sea. Alongside these huge ships of all nations are so secured as to be ready "to slip" at short notice, in case of a gale coming on—a very necessary precaution, as not long ago seventeen large vessels were driven from their moorings and totally wrecked by the violence of a tropical storm. The sea there is never still, and to guard against its violence the entrance to the canal has been protected by a large breakwater run out into the sea, formed of concrete blocks, at the end of which is a large statue of Christopher Columbus, presented by the Empress Eugenie. At Mindi and other places are to be seen the bungalows of the engineers and workmen employed on the canal. These look beautifully clean and cool, and compare most favorably with the shanties of the negroes and Chinamen, who swarm about these parts.

The Cite de Lesseppe—named after that illustrious Frenchman—is only a collection of huts, built of bamboo and any old refuse, and supported mostly on piles, often overhanging the muddy river, over swamps in fact, anywhere. The canal cuts through the Chagres River there, and two large large steam dredgers may be seen at work on the river discharging the dredged-up refuse far over the river's bank, through a long chute. Not only are there dredgers on the rivers, but on the land also, as at Las Cascadas, where a large locomotive dredger scoops up the earth and empties it into trucks on the other side, by which it is taken away to form embankments, as at Bas Obispo.

Colombia presents a most animated scene—gangs of negroes, engines of novel construction in great numbers, all at work cutting through a hill some hundreds of feet high, through which the canal must pass. It is "man versus nature." With the exception of the engineers, negro labor only seems to be used, and as there is little sickness and good pay, the black man comes and works for a month or two, and then goes home and does nothing for the rest of the year. Wherever he is, he is always laughing, happy and lazy.
