SOMETHING LIKE A LOBSTER.—The Montreal Times says: A paragraph in the Times of yesterday referred to a lobster recently caught that weighed 5 pounds, but the Rev. Mr. Webber has the claw of a lobster, which, when alive, must have weighed at least 12 pounds. The solid part of the claw is about a foot in length, and several inches wide. This monster was caught some time ago by Thos. Boullier at French Village, St. Margare's Bay, N. S., and the claw is preserved by Mr. Webber as a curiosity.

The National Trotting Association, Office of the Secretary, Hartford, Conn., May 24, 1893

Gen. F. Owen, Sec'y King's Co. Exhibition Association, Cardigan, P. E. I. "DEAR SIR,—Replying to your postal favor of the 19th inst., may say that the Board ordered in Dr. Strickland's case against your Association that the Association cannot enforce a claim for entrance money in a race which is ordered off, but the action of the judges in imposing the fine for withdrawing the horse without permission is sustained.

The Steamship Coban.

THE steamship Coban arrived here from Montreal at two o'clock this morning with a large general cargo. Her passengers were Mrs. L. C. Sutcliffe and child, Mrs. Hetrick, Miss Hetrick, Mrs. R. J. Foyston, Mr. E. Harvey, Mr. Charles Landan, Mr. F. Stroud, Mr. W. B. Smith, wife and child, masters Allen and George Smith, and six steerage passengers. She will leave this evening for St. John's, Nfld., via North Sydney with a cargo which will include 4 horses shipped by B. Rogers, Albert; 2 horses, Joseph McCarty; 2 horses, G. H. Combs; 2 horses, Geo. V. Huxley; 1 horse, John Huxley; 10 head cattle, shipped by N. B. & M. Rattenbury, and a quantity of hay, oats, etc. Captain Fraser also takes down the trotting mare Nellie, lately purchased from Mr. J. B. McDonald, for a gentleman in St. John's.

During the winter the Coban was on the dry dock in Montreal, where she was thoroughly overhauled and put in first-class condition from stem to stern. Her saloon has been newly painted and upholstered and her staterooms have been refurnished and fitted with new spring beds. The officers of the Coban for this season are as follows:

- Captain—Robert Fraser. First Officer—A. Brown. Second Officer—James Kemp. Chief Engineer—John Cook. Second Engineer—D. Brown. Third Engineer—A. Robertson. Chief Steward—Peter McLeellan. Assistant Steward—Geo. J. Proctor. Stewardess—Mary Murphy.

All these officers are well-known and popular with Charlottetownians. The EXAMINER wishes the Coban and her officers a pleasant and prosperous season.

—The Empire says: According to that great fiscal authority, the Globe, the extremely high war tariff of the United States in the case of its decreased exports of \$162,000,000 in one year; the moderate protective tariff of Canada is the cause of all its troubles we suppose, including an increased trade of \$20,000,000 last year; while the free trade revenue tariff of England is the root of all its present greatness and prosperity, including, we may also presume, the \$100,000,000 decrease in its exports within a year, and the terrible poverty amongst its industrial classes. We should rather imagine that the condition of the three countries proved the beneficence of a moderate carefully adjusted protective tariff.

O. S. MERRILL said he never received as much benefit from all the other medicine he ever took as he did from Hawker's Tonic.

War's Study Their Pastime.

HOW GERMANY'S WAR LORD IS TRAINING UP HIS SONS.

According to late advices from Berlin, the Kaiser is building a fortress furnished with armor-plated turrets, with Krupp guns and a moat and draw bridge, for the instruction and amusement of his sons, the whole occupying about half an acre. The general opinion of the press and the public over the Centrist manifesto is that it is the last attempt to disguise the internal weakness of the party. The Vorwarts, the Socialist organ, jubilantly declares that the tower of the Centre is crumbling to pieces. The aristocratic section has already deserted it, and only the fear of the Roman Catholic section which opposes the Army Bill keeps the remnant of the party together.

The report of the Royal address to the Austro-Hungarian delegations at a recent meeting, which has been telegraphed here, will still further strengthen the opposition to the Army Bill. The address declares that 'the prospects of Europe are peaceful, while the army and navy estimates show that the military authorities think they may safely postpone all proposed army reforms involving a heavy outlay, and that there is no present need to follow the example of Germany. Such pacific statements from Austria will not assist the Government. A conservative pamphlet is being circulated in the eastern provinces entitled 'The Russians are coming.' It tries to raise a Russian scare, with the view of gaining votes for the army bill.

1893 SWIFT! THAT the "SWIFT" is the best wheel made in ENGLAND, and that it is second to none in AMERICA, any unprejudiced wheelman will say after a fair test of this Machine's powers. Here are a few plain reasons why the SWIFT, made by the Coventry Machinists' Company, Coventry, England, the oldest Cycle Manufacturers in the world, is the acme of all that a great and good in a strictly high-grade wheel:— BECAUSE it is simple, and the adjustment and bearings accurate. BECAUSE it is light and strong—correct proportions not weight give strength. BECAUSE its roller forced chain reduces friction to a minimum. BECAUSE it is not possible to make a better wheel. Many more equally strong reasons can be given why the "SWIFT" is THE wheel. I will have a sample wheel here in a few days. Hold your orders until you have seen it. Now is the time to buy the "SWIFT."
