

Poetry.

[From the Waverley Magazine.] THE MAIDEN'S FIRST LOVE.

BY WM. H. CAREW.

He takes my hand within his own, And holds it to his heart, And whispers I am dear to him, That we shall never part—

And I may gaze upon his brow, And read within his eye, The bright conceptions that dilate Like sunshine o'er the sky—

And oh! if all the eloquence, The poetry of love, Be here so heavenly pure and bright, What must it be above? Ah! never felt I until now My spirit's tide so high; What can requited love transcend 'Neath heaven's approving eye.

He is so very dear to me, I'm sad when he's away; They say I think too much of him, That he is vain and gay; That "husbands are not lovers long," Of which I little dream, And that 'tis fascination's mask That makes me what I seem.

I know that he hath many faults Of impulse more than will; And while to me he's kind and true I'll love him dearly still; 'Twill not be long, for he hath pledged His heart to me alone; 'Twill not be wrong to pray for him, And bless him when he's gone.

And when his arm encircles me, He hints about the priest; I feel it would be very wrong To chide him in the least; And when his lips to mine are pressed, At parting in the hall; I'm sure it would be very rude To reproach him at all.

Varieties.

GIRLS.—Have you a father, have you a mother? Do you love them? Girls, do you know the value of your mother, if you have not lost her? Nobody loves you, nobody will love you as she does. Do not be ungrateful for that love; do not repay it with coldness, or a curse of coldness will rest upon you, which you never can shake off. Unloved and unloving you will live and die, if you do not love and honor your father and mother.

One thing, never call either "old man" or "old woman." It is quite a habit in this country for young people to name their parents thus. This is rude, impudent and unfeeling. Any aged person is an old man or an old woman. There should be something sacred, something peculiar in the word that designates parents. The tone of voice in which they are addressed should be affectionate and respectful. A short surly answer from a child to a parent falls very harshly on the ear of a person who has any idea of filial duty. Be sure, girls, that you each win for yourselves the name of a dutiful daughter. It is so easy to win, that no one should be without it. It is much easier to be a good daughter than a good wife and mother. A child's duties are much more easily performed than a parent's; so that she who is a good daughter may fail to be a good wife or mother; but she who fails in this first, most simple relation, need never hope to fill another well. Be sure, then, that you are a good daughter. It is the best preparation for every other station, and will be its own reward. The secret you dare not tell her is a dangerous secret, and one that will be likely to bring you sorrow. The hours you spend with her will not bring you regret; and you should never feel disappointed or out of humor, for not being permitted to go to some place to which you wish to go. You should love her so well, that it would not be felt a punishment to give up the gayest party to remain with her.

Nothing is more beautiful than to see a girl take off her things, and sit smiling down with her mother, because she wishes it. Go and kiss mother, as you used to do when a child, and never grow too large or wise to be a child at her side.

THE REFINER OF SILVER.—A SCRIPTURAL ANECDOTE.—Sometime ago a few ladies, who met together in the city of Dublin, to read the Scriptures, and make them the subject of conversation, were reading the 3d chapter of Malachi; one of the ladies gave it as her opinion, that the fuller's soap and the refiner of silver, were the same image, and both intended to convey the same view of the sanctifying influence of the grace of Christ; while another observed, there is something remarkable in the third verse. "He shall sit as a refiner and purifier of silver." They agreed that possibly it might be so; and one of them promised to call on a silversmith, and report to them what he said on the subject. She went accordingly, and, without telling the object of her errand, begged from him the process of refining silver, which he fully described to her. But, said she, do you sit while the work of refining is going on? "Oh, yes, madam," replied the silversmith, "I must sit with my eye steadily fixed on the furnace, for if the time necessary for refining be exceeded in the slightest degree, the silver is sure to be injured." At once she saw the beauty and the comfort of the expression, "He shall sit as a refiner and purifier of silver." Christ sees it needful to put his children into the furnace, but he is seated by the side of it, his eye steadily intent on the work in purifying, and his wisdom and love are both engaged in the best manner for them. Their trials do not come at random. The very hairs of their head are all numbered. As the lady was leaving the shop, the silversmith said he had still further to mention, that he only knew when the process of purifying was complete, by seeing his own image reflected in the silver. Beautiful figure: when Christ sees his own image in his people, his work of purifying is accomplished.

THE DOOM OF OUR WORLD.—What this change is to be we dare not even conjecture, but we see in the heavens themselves some traces of destructive power. The fragments of broken planets—the descent of meteoric stones upon our globe—the wheeling comets welding their loose materials at the solar furnace—the volcanic eruption in our own satellite—the appearance of new stars, and the disappearance of others—are all foreshadows of that impending convulsion to which the system of the world is doomed. This placed on a planet which is to be burnt up, and under heavens which are to pass away; thus treading as it were, on the pebbles and dwelling upon the mansions of former worlds, let us learn the lesson of humility and wisdom, if we have not already been taught in the school of revelation.—NORTH BRITISH REVIEW.

He who waits for good luck to come to him is destined to die in poverty. No one has the right to expect a good fortune, unless he goes to work and deserves it.

Dobbs says there is this disadvantage about plaid trousers—every time he gets asleep the bearers roll him over and play checkers on him.

THIS Institution has been opened and in successful operation upwards of eight years. The manner in which it was founded and established, the principles enunciated at its opening as those upon which it should be conducted, and the arrangements which were made for carrying out its designs in all its departments, in both school and family, were such as to secure for it, from its very commencement, a very high place in the public estimation. And the Committee of Management and Board of Trustees, upon whom the direction of its affairs has devolved, have been encouraged and stimulated by its prosperity to continued efforts to render it ever increasingly efficient. Every year in its history has been marked by important additions to its Educational facilities, and by more or less extensive general improvements throughout the establishment. The attention of young men seeking an education, and of Parents and Guardians of Youth, is, therefore, confidently invited to it as an Institution, at least, equal in every respect, for the purposes for which it was founded, to any in British America.

The next Term will begin on Thursday, the 7th August, and continuing nineteen weeks, and on Wednesday, the 17th December. EXPENSES.—For Board, Washing, Fuel, Lights, &c. and Tuition in Primary Department, £25, New Brunswick currency, per annum. In the higher Departments, from £25 to £30 per annum. The Principal will give any further information which may be desired, to any person who will apply to him, (if by letter, post paid.) Mount Allison, July, 1851.

Blake's Metallic Fire Proof Paint, OR, ARTIFICIAL SLATE.

THIS admirable article has been tested for some years and proved very valuable, becoming a perfect slate, as hard as marble in a few months, completely protecting whatever is coated with it from the action of the weather and fire—a better fire-proof than tin or zinc. Several Insurance Companies certify they will insure buildings covered with it at a cheaper rate, than if covered with those metals. It is of two colors, the black is best for roofing—the chocolate the best thing ever discovered for sides of either brick or wood, forming a perfect stone coating of a handsome stone or chocolate color, can be easily changed by a little white lead or other coloring matter to suit the taste. There is nothing equal to it for steamboat and car decks, and all kinds of iron as it forms a coating nearly as hard as the iron itself, and never cleaves off.

BEWARE OF WORTHLESS COUNTERFEITS. As the popularity of my paint has induced scores of unprincipled individuals to grind up, and offer as fire-proof paint, all kinds of worthless stuff, much of it nothing but rotten stone that has no cohesive attraction, is held on only by the oil with which it is applied; consequently as soon as the action of the atmosphere destroys the oil, it will wash or rub off like Chalk or Whiting, nothing can yet be known of its lasting qualities, as it is but little over a year since they got them up, whereas mine has been tested about seven, and where first applied is now like a stone. The original and genuine article can be obtained of PATRICK STEVENS, Orwell, my authorized Agent for the Island. WM. BLAKE, Patentee. Proprietor, 84 Pearl-st., N. Y.

Wonderful cure performed by S. P. Townsend's Sarsaparilla.

To M. W. Skinner, Agent for S. P. Townsend's Sarsaparilla. SIR: This is to certify that I was, for this last 12 months, troubled with Fits; and from their very severe attacks, thought each one would terminate my existence; and, in addition to the Fits, I was reduced to a mere skeleton, and was extremely weak and nervous. I heard a great deal about S. P. Townsend's Sarsaparilla, for which you are Agent. I was advised to try it. And strange and wonderful to relate, before using the contents of one bottle, was greatly benefited. Indeed, so rapid and effectual was the cure, that it appeared to me to be almost miraculous. And I think that, in justice to the public and suffering humanity, I am bound to make the above statement, and say, that a greater blessing, in my opinion, than S. P. Townsend's Sarsaparilla never came to this Island. (Signed) MARY LOWE, Bungay, New Glasgow Road. Sworn to, before me, this 14th June, 1851.

CHARLES DEMPSEY, J. P. The public will please bear in mind, that the above cure was made by the Sarsaparilla manufactured by J. R. Chilton, M. CURES FOR THE UNCURED!

HOLLOWAY'S OINTMENT.

AN EXTRAORDINARY CURE OF SCROFULA OR KING'S EVIL. Extract of a Letter from Mr. J. H. Aliday, 209, High Street, Cheltenham, dated the 22d of January, 1850. To Professor HOLLOWAY.

SIR.—My eldest son, when about three years of age, was afflicted with a Glandular Swelling in the neck, which after a short time broke out into an Ulcer. An eminent medical man pronounced it a very bad case of Scrofula, and prescribed for a considerable time without effect.—The disease then for four years went on gradually increasing in virulence, when, besides the ulcer in the neck, another formed below the left knee, and a third under the eye, besides seven others on the left arm, with a tumor between the eyes which was expected to break. During the whole of the time my suffering boy had received the constant advice of the most celebrated medical gentlemen at Cheltenham, besides being for several months at the General Hospital, where one of the surgeons said that he would amputate the left arm, but that the blood was so impure, that if that limb were taken off it would be then even impossible to subdue the disease. In this desperate state I determined to give your Pills and Ointment a trial, and after two months' perseverance in their use, the tumor gradually began to disappear, and the discharge from all the ulcers perceptibly decreased, and at the expiration of eight months they were perfectly healed, and the boy thoroughly restored to the blessings of health, to the astonishment of a large circle of acquaintances, who could testify to the truth of this miraculous case. Three years have now elapsed without any recurrence of the malady, and the boy is now as healthy as heart can wish. Under these circumstances I consider that I should be truly ungrateful were I not to make you acquainted with this wonderful cure, effected by your medicines after every other means had failed. (Signed) J. H. ALIDAY.

CURE OF ACUTE RHEUMATISM OF FOUR YEARS' STANDING.

Extract of a Letter from Mr. John Pitt, Dudley, 19th Jan. 1850, To Professor HOLLOWAY. SIR.—It is with the greatest pleasure that I write to thank you for the benefit I have received from your Pills and Ointment, which have completely cured me of the Rheumatism, under which I suffered for this last four years, at times I was so laid up hardly to be able to walk. I had tried every kind of medicine that was recommended without receiving any benefit. I at last thought I would give your medicines a trial and purchased from Mr. Hollin, Chemist of this Town, two boxes of Pills and two of Ointment, and in three weeks through them and the blessing of God, I was restored to health and strength, and am now as well able to walk as ever I was in my life. I am well known in this parish having been sixty-five years in it, with an exception of ten years I served in the 24th Regiment of Foot. (Signed) JOHN PITT.

CURE OF A BAD LEG OF MORE THAN SIXTY YEARS' STANDING.

Mr. Baker, of No. 5, Graham's Place, Droyod, near Hull, had ulcers on his leg from the age of eighteen until upwards of eighty, and although for many years he had sought the first advice in the country, nothing was found to cure them. He very often suffered most excruciating pain for long periods together, which incapacitated him from attending to his business. He had given up all hopes of getting a cure when at last he was persuaded to try Holloway's Pills and Ointment, which he did, and however wonderful it may appear, the leg was thoroughly healed by their means, and by continuing to use the Pills alone after his leg was well, he has become in health so hale and hearty as now to be more active than most men of fifty. N. B.—The truth of this extraordinary statement can be vouched for by Mr. J. C. Reinhardt, 22, Market Place, Hull. February 20th, 1850. CURE OF A DESPERATE CASE OF RINGWORM, OF SIX YEARS' STANDING. Lima, 13th November, 1849.

One of the most eminent Surgeons in Lima (the Capital of Peru) had a child covered with Ringworm for more than six years; in vain he exhausted all his art in his endeavours to effect a cure. Not succeeding, he consulted among his brethren, the most celebrated medical practitioners of the City, but nothing was found to do the child service. When he was persuaded by Mr. Joseph P. Hague, the English Chemist and Druggist, residing at 74, Calle de Pallacio, to try Holloway's Pills and Ointment, which was done, and after using six large Pots of the Ointment, with a proportion of the Pills, the child was radically cured, to the surprise of the whole medical profession. The name of the parent, from motives of delicacy is withheld. The Pills should be used conjointly with the Ointment in most of the following cases:—

- Bad Legs Chicago-foot Fistulas Sore throats
Bad Breasts Chibblains Gout Skin diseases
Burns Chapped-hands Glandular Scurvy
Bunions Corns (Soft) Swellings Sore heads
Bites of Mosquitoes Cancers Lumbago Tumours
