

THE DAILY EXAMINER.

MARCH 12, 1892.

Direct Taxation.

The thin edge of the wedge of direct provincial taxation is to be inserted in New Brunswick. The Government of that Province proposes to levy a tax on insurance companies, banks, telegraph, telephone, express and street railway companies, and to collect a license fee from liquor dealers. The Government is attempting to make good, in this way a deficit of \$70,000. New Brunswick is about to experience one of the sure and delightful results of keeping Grits at the head of public affairs.

The Tendency of Criticism.

The New York Illustrated American, in anticipation of a different result of the recent Quebec elections says:—

"The loyalty to Mr. Mercier is significant of the state of public opinion in Quebec and, indeed, throughout the Dominion. The people some time ago elected a large majority of members to the Dominion Parliament, consequently they want a Liberal Premier. Practically, this feeling is one of opposition to English Government. If the contest grows in bitterness, as it is certain to do, if Mr. Mercier can hold his ground, an increase of the sentiment in favor of annexation to the United States will be one of the most important results."

Our Republican contemporary is in error as to a large majority of Liberal members, but seems to properly gauge the tendency of Criticism.

Preservation of the Seal.

A GREAT fuss is being made about the preservation of the seal fishery of the Pacific and Behring Sea. But we hear not a word about a close season or any other regulation for the preservation of the seals of the Atlantic and the Gulf of St. Lawrence on the Eastern side of Canada. One would imagine that if special care has to be taken to preserve from extinction the seals in the West, it should also be needed in the East. But perhaps our seals are more prolific or harder to be reached in their breeding grounds.

It is not likely that the matter will ever be of much direct importance to the people of this Province, though we have had, by reason of some stray current or breeze, or both, an unusual visitation of seals, off Tignish, this year. All the same, we should like to see the seal fishery preserved as a permanent source of wealth for the Eastern part of Canada as well as for the Western.

Prohibition.

THOUGH not so soon appointed as some of the more ardent prohibitionists hoped and expected, the Prohibition commission is in time to examine carefully into the most difficult of all public questions and, if possible, to present it in a light in which it may be considered by reasonable men. The personnel of the commission is certainly of the highest character. Judge Macdonald is, we are told, an experienced barrister and legislator who has served for twenty years upon the Bench. Sir Joseph Hickson, also, is a man of proved ability who as Superintendent of the Grand Trunk Railway, has had special opportunities to observe the characteristics of the liquor traffic. Rev. Dr. McLeod is a prominent clergyman of New Brunswick. Mr. Giguault was chairman of the Parliamentary Commission on Agricultural Affairs—a man of ability and experience. Mr. Clarke is a journalist who has several times been Mayor of the city of Toronto. All are strong temperance men, some of them avowed prohibitionists. We may be sure that if men can propose a scheme for prohibition which will appeal to the good judgments of the people of Canada—they are the men to do it. Their report will be anticipated with great interest.

Different Methods.

The Liberal Conservatives of Canada gained not a little credit on account of their absolutely fair dealing in respect to the charges preferred last year by Mr. Tarte, and the thoroughness and impartiality of the investigation which was thereupon instituted. With this notable example before them, it is astonishing that the Grits of Nova Scotia have declined to permit the appointment of a committee to examine the serious charges preferred against the Provincial Government by the Leader of the Opposition. Mr. Cahan has charged that the Government of Nova Scotia violated the legislative provisions safeguarding the expenditure of the \$600,000 borrowed to improve the road service of the Province; that false and fraudulent payments were made; that bogus names were placed on to pay sheets and fraudulent payments made; that payments purporting to be made to workmen were placed in their own pockets by supporters of the Government in the House; that these things were done by members of Parliament in collusion with the department of Public Works; and that these scandalous transactions caused great loss to the road service and brought the Legislature into disrepute. But the Legislative Committee which he demanded in order that he might be enabled to prove these charges, has been refused by the Government Party. This is a significant and very suspicious fact; and it illustrates very clearly and suggestively the wide difference there is between the methods of the Liberal Conservative and Liberal parties.

TELEGRAPHIC NEWS.

SPECIAL DESPATCHES TO THE EXAMINER.

DOMINION PARLIAMENT.

Monck and Northumberland.

There was another brief session yesterday. Mr. Davies, of Charlottetown, was received with Liberal applause when taking his seat for the first time this session. He had stopped at Brome on his way here, but found no place in which to get in his work. Mr. Davin, who aided in defeating Trow in Perth, was also applauded as the smilingly resumed his seat. The estimates will be tabled on Monday. The general opinion is that the Conservatives will win Monck, and that Northumberland will also, probably, go Conservative.

Extraordinary Events.

TORONTO, March 13. The latest Government victories almost created a panic amongst the Grits here, and the worst of it is that they fear that Monck also will go against them to-day. The Globe describes the back down in Brome and Montmorency as extraordinary events.

Great Temperance Cardinal.

ST. PAVL, March 13. Rev. Father Heffernan, who has charge of Catholic affairs here during the absence in Rome of Archbishop Ireland, has received definite advice from the Holy City that the Archbishop is to be made the second cardinal of the United States.

The Liberal Leadership.

MONTREAL, March 13. Mr. Laurier has, it is rumored, intimated to his friends here that he purposes retiring from the party leadership at the end of the present session and that he will open a law office in this city.

Fatal Explosion.

BRUSSELS, March 13. A picnic party descended to the scene of yesterday's explosion in the Andriales mine. At the entrance of the gallery they found twenty-five dead bodies. The latest official estimate places the dead at 200.

Our Old Friend Again.

NEW YORK, March 13. Mr. Winan has resigned his position as President of the Great Northwestern Telegraph Company.

Strike of Miners.

LONDON, March 13. Four hundred thousand miners are expected to quit work to-day.

Moncton's Mayor.

MONCTON, March 13. Mr. J. McSnow was elected Mayor of this city yesterday by acclamation.

General Telegraphic News.

WASHINGTON, March 9.—In the Senate to-day a Canadian retaliation bill was introduced by Senator Morgan.

CHICAGO, March 9.—The King of Sweden has written a letter intimating that he may visit the World's Fair in person.

LONDON, March 9.—The Duke of Argyll, who has been sitting in the House of Lords as Baron Sutherland and Hamilton, has been created Duke of the United Kingdom.

EDINBURGH, March 9.—The University of Edinburgh will confer the degree of LL. D. on Sir Charles Tupper, Canadian High Commissioner in London.

GLASGOW, March 9.—The market here is closed against cattle, sheep and pigs in consequence of the prevalence of foot and mouth disease, which seems to be spreading in Scotland.

MOSCOW, March 9.—Hunger typhus is causing terrible mortality in all the famine districts of Russia. The Czar is interested at the incompetence of the ministers to deal with the famine. The greatest disorder prevails throughout the empire and is daily increasing.

LONDON, March 9.—William Randall Crower, member of the house of commons for Hagerston division of Shropshire, has written a letter in which he says petitions representing 1,250,000 members of various industrial organizations and thousands of other persons in favor of arbitrating all disputes between Great Britain and the United States will be immediately presented to parliament.

MEMPHIS, March 9.—Three negroes in jail here for shooting four deputy sheriffs were taken out of the prison by masked men early this morning and killed. They were riddled with bullets. Large crowds of negroes are assembled near the jail where the bodies of the victims are lying. It is reported that two white men have been killed at "The Curve," the notorious negro quarter of the city. A force of 150 men armed with rifles has been sent to the scene.

LONDON, March 9.—The Standard's St. Petersburg correspondent says that a gentleman who was present at the Brandenburg banquet when the Emperor made his celebrated speech, remarked to the Emperor: "Your Majesty should not forget Russia." To this remark Emperor William is said to have retorted, "I will put you in Russia." The correspondent adds that when General Count von Schouvaloff, the Russian minister at Berlin, was apprised of the remarkable utterances, and upon investigation found that what he had heard was true, he immediately acquainted M. de Giers, the Russian Minister of Foreign Affairs, with the facts of the case, who reported the remarks of Emperor William to the Czar. The Czar then summoned to his presence General von Schouvaloff, and after recounting to him the statement made by M. de Giers, said: "Tell your Emperor that when he wants to begin pulverizing I will throw a half million men across the frontier with the greatest of pleasure."

Queen's County Stock-Breeders' Association.

A meeting of this Association took place, as advertised, at their rooms, Connolly Block, Queen Street, on Friday, March 11, at 2 p. m. Considering that it was a rainy day, that the roads are almost impassable, and that travelling on the ice is dangerous, there was a good attendance of members from the county. Dr. J. T. Jenkins presided over the meeting. The secretary read the constitution as adopted at the previous meeting, and after some remarks from several members explanatory of its provisions and favorable to the objects of the Association, it was unanimously approved. The following officers for the ensuing year were then elected: President—Dr. John T. Jenkins. Vice Presidents—Dr. Strickland, city; Richard Bagnall, Jr., New Glasgow; Wm Macfarlane, Mill Cove; Charles Deakendorf, North River; Geo. E. Hughes, city. Executive Committee—L. B. Miller, Principal Business College; John Newson, city; Allen MacPhee, North River; D. O. M. Eddin, Jr., city; George Thorne, do; Daniel MacKenzie, Royalty; Thos. A. MacLean, city; E. R. Krow, Royalty; Dr. Warburton, city; E. R. Krow, Royalty; Geo. E. Hughes, city. Treasurer—Geo. E. Hughes.

It was then on motion resolved that the constitution of the Association as approved and adopted, be published in pamphlet form, and that the secretary mail copies of it to breeders and stock raisers throughout the county who then unanimously adopted, viz: The following resolution: That the thanks of this meeting be tendered A. E. Warburton, Esq., for his kindness and courtesy in giving the use of his office for holding the previous meetings of this association.

Messrs. Hughes, MacKenzie and Dr. Strickland were appointed a committee to confer with the Board of Directors of the Railway Park and Provincial Exhibition Association touching the use of their track for horse races, under the auspices of this Association. The fact that the objects of the Stock Breeders' Association are highly appreciated by the large number of stock raisers whose names are already enrolled as members, augers well for the success of the organization.

OUR TEA TRADE IS BOOMING!

DURING the Months of November and December our Tea trade increased so much that we had to send an order to London for another supply, in order to keep us going till we receive our Spring Stock. We attribute this large increase to the fact that we offered the public the best value in Teas on P. E. Island, and they gave us a fair trial and were convinced that what we stated was true.

WILLIAMS' PIANOS,

ESTABLISHED 1849,

The Acknowledged Favorite of all Canadian Makes.

BY the system of awards adopted, Pianos of all grades receive medals of similar character, but the true test of merit appears only in the reports of the judges. The judges pronounce the WILLIAMS PIANOS to be the best specimens of the art of Piano making, and fully entitled to the leading position. Durability is secured by the same perfection of workmanship that insures the finest tone and touch. These can only be attained by the use of the best material, the utmost care in testing everything needed in the construction before it is used, and by uniformity, precision and finish in the workmanship. There are no hidden corners for careless work in these instruments, every detail is carried to the utmost perfection. The result is durability. The experience of conservatories and schools, where pianos are subjected to the greatest wear, shows that the WILLIAMS PIANO outlasts all others. Every Piano is guaranteed. Catalogues mailed free on application.

Railway and other carriages are oiled after every long journey. Some Sewing Machines are oiled whenever used, other machinery often, and should not the continuously running Watch receive more attention in this matter than it does.

We advise that all Watches should be oiled and examined to see if they need cleaning at least ONCE A YEAR. By this means the liability to wear is lessened, and the Watch will last longer and give better satisfaction.
