Gruesome Evidence Casts Doubt on Life Before Crash

Pilot of Yacht Does Flip But Crew Safe

CHARLESTON, S.C. (CP)—A yacht which did two complete rolls during a four-day battle with an Atlantic storm was towed into port here Friday. All of its four-man crew survived.

"We were right side up again and below and below down the masts were down, held to the boat by the twisted rigging. Hink's was gone. We gave him up for lost in that angry sea."

There was nothing to do but go below and below down the masts were down, held to the boat by the twisted rigging. Hink's was gone. We gave him up for lost in that angry sea."

AT WINDS MERCY
"We were at the mercy of the wind throughout the night. At 7 a.m. there came another crash from a giant wave. Now in spite of the debris on deck the Doublon once again began to roll. We were certain we were gone, for no ship can take two such rolls and not sink enough water to sink. But the Doublon went on and when its cabin again emerged, we ran on deck and studied the life rafts, attaching them to the yacht."

SEAS GET HEAVIER
By mid-afternoon Sunday, the weather had become ominous with squalls approaching and with the already rough seas becoming heavier.

ROBED ARABS ARE SURPRISE

Investigators Remain Silent

DARTFORD, England (AP)—A park attendant did a double take on Dartford Heath Friday, 27, when he saw white-robed Arabs were cooking their breakfast on open fires near a cluster of tents.

The Arabs said they arrived by English Channel Thursday night en route from the Middle East country of Kuwait to seek jobs in London.

The attendant advised them camping, especially with fires, is forbidden on the heath. The 17 Arabs folded their tents and silently stole away in a hired truck bound for London.

Woman Flown To Hospital
