He was a motorist and called at a farmhouse for a glass of water but the pretty farmer's daughter offered him a glass of milk instead. "Won't you have another glass?" she added as he drained the tumbler. "You are very good he said" but I am afraid I shall rob you. "Oh, no, we have so much more than we can use ourselves that we are giving it to the calves all the time."

### "This Typewriting Gets on My Nerves"

"I WONDER if I am getting nervous. There must certainly be something wrong with me, for I am so tired in the mornings and do not seem to have the energy to transcribe the bunch of letters which I get every day. "Of course, I have been working harder than usual to make up for those who have been away sick. Then I have been helping more at home while mother was sick. I suppose it all helps to tire one out and exhaust the nerves. "But what was that I was reading about Dr. Chase's Nerve Food building up the nerves? Perhaps that is what I need. There was something about worry and anxiety breaking down the nervous system, and I have surely had my share of worry. "That may account for my

headaches and sleeplessness, as well as for the tired feelings which I have all the time. Well, I am going to get some of Dr. Chase's Nerve Food today and give it a try-out." Dr. Chase's Nerve Food is so gentle in action and yet so potent as a restorative that it is a great favorite with women of all ages. It seems to be admirably suited to the needs of their delicate nervous systems, and on this account it has come to be universally used as a means of restoring vigor and energy to a run-down, nervous system. The healthful color and appearance of people who have used Dr. Chase's Nerve Food—the elasticity and vivacity of their movements—is the best evidence of the benefits they have attained. 50c a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

## Changes In Tariff

OTTAWA, May 23.—Mr. Fielding's budget speech was made to the Commons Tuesday as briefly summarized. It reduces the duties on fifty-two articles imported from Great Britain, then, on one or two exceptions as in the case of the United States and other countries, by from two and a half to five per cent., imposes at heavy additional taxes on cigars and cigarettes, increases to taxes by fifty per cent., and lightens the taxes on stock transfers, telegram cables, cheques and automobile, and levies one per cent on the note circulation of banks. Duties on farm machinery from the United States is decreased by 2 1/2 per cent, gasoline from 2.12 to 1, and other reduction on fishermen's supplies. Duty on cotton is reduced 2 1/2 per cent.

Duty on boots and shoes cut 1 1/2 per cent. A confectionary tax is imposed of 5 per cent. telegram tax raised 5 cents. A review of the whole list shows that of the fifty articles affected the total value is not more than sixty millions per year, thus by reducing the duty on the majority of these articles by 2 1/2 per cent, the total lifted from the burden of taxation will be but a million of dollars at the most. Against this Mr. Fielding has imposed an increase of 50 per cent. in the sales tax which, seeing this amounted to about seventy millions last year, means that he has decreased taxation by a million dollars with one hand and increased it by about 35 millions with the other. In other words so far as the purchasing public is concerned it is about thirty million worse off than it was on this one transaction alone.

**Pale, Weak Girls And Delicate Women** Can Find New Health by Enriching Their Blood Supply Nature intended every girl and every woman to be happy, active and healthy. Yet too many of them find their lives saddened by suffering—nearly always because their blood is to blame. All those colorless cheeks, dull skins, and sunken, listless eyes, are in this condition because they have not enough red blood in their veins to keep them well and in the charm of health. They suffer from depressing weariness and periodical headaches. Dark lines form under their eyes, their heart palpitated violently after the slightest exertion, and they are often attacked with fainting spells. These are only a few of the miseries of bloodlessness. When the blood becomes thin and watery it can be enriched through the use of Dr. Williams' Pink Pills and the troubles that come from poor blood disappear. In almost every neighborhood you will find some formerly ailing woman, or pale breathless girl who has a good word to say for this medicine. Among them there is Miss Laura Monaghan, Campbellton, N. E. I., who says: "Before using Dr. Williams' Pink Pills I was in a badly run down condition. I was pale, thin and scarcely able to go about. The least exertion made my heart palpitate so violently that I actually was afraid one of those spells might carry me off. Often my nights were sleepless and as the treatment I was taking did not help me, I was almost in despair. Finally a friend advised me to use Dr. Williams' Pink Pills, and in the course of a few weeks after beginning this treatment there was a decided improvement in my condition. I continued using the pills, and am now enjoying good health. I am glad to give you my experience in the hope that some other sufferer may find a way to better health." These pills are sold by all medicine dealers or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
